                 = = = = = = = = = = = = = = = = = = =
```

There are two cities to choose from, the first one being the Arcade
version which is more compact connected by one road and include a
number of recognizable brands (changed in the later ports). Many ramps
and road dropdowns are seen when driving along with the famous car park
building which you can jump from.

The other city was introduced with a home Dreamcast port. This city or town
as I like to call it is more spread out with tunlels and sea everywhere. The
drop zones are further away from each other as opposite to the Arcade city.

                        440: Cabbies
                = = = = = = = = = = = = = =
AXEL:
Age: 21
Sex: Male
Height: 6'0"
Weight: 158

License
Plate #: 1NOM155 = "I no miss"
Meaning: I don't make mistakes

This wild and freewheeling guy is known to have a hot and quick temper.
His only reason for becoming a cab driver is that he considers being a
cabbie the "coolest" profession. Axel always shows his customers a good
time while driving them in his 60's era classic cab, earning himself big
tips in the process. As far he is concerned, cab driving is the ultimate
career.

When he isn't working, Axel is usually trying to pick up women, jamming
with his punk band (bass and vocals) or participating in board sports
like surfing and snowboarding. That said however, Axel is a bit too
freewheeling so his band members tend to come and go on a regular basis,
and he can't maintain decent relationships with women. Oh well, what's a
guy to do?

While he isn't perfect, his open-hearted personality and cheerful nature
means he kind of grows on you. His most redeeming quality is that he is
especially gifted at mediating when there is trouble or fighting amongst
his many friends.

GENA:
Age: 23
Sex: Female
Height: 5'7"
Weight:???

License
Plate #: 5EXY515 = "Sexy Sis"
Meaning: You know what it means!

If Gena could be described in two words, without a doubt those words
would be "cool & sexy". With a strong passion for cars, her reason for
being a cab driver is simple, "Because I get to drive around in my car
all day!"

While she's not concerned with amusing her customers per se, she sure is
timely. When asked if perhaps she'd be happier as a racing driver, she

just laughs and replies, "But it is such a ruche to race through the traffic-laden streets... I could never give this up!"

When Gena isn't working in her beloved cab, she can usually be found working on it. In fact, she spends nearly all her time and money performing extensive tune-ups, maintenance, and cleaning. It's no surprise that all the money she earns goes straight back into her cab. Despite her cab fixation, many men are attracted to Gena's beauty. But she simply turns her nose up at any man who dares try to gain her affections.
Clearly the object of her affection is her one and only cab!

B.D. JOE:
Age: 25
Sex: Male
Height: 5'9"
Weight: 165

License
Plate #: 2HOP260 = "To hop to go"
Meaning: Always ready to get crazy

Always friendly and cheerful... that's B.D.Joe.
For him, driving a cab is a line of work in which he can excel at "making people happy". Happiest when he can bring a smile to the face of customers, B.D. is a master of both driving and conversational techniques.

Even when he is not driving a cab, B.D. is well known as an accomplished performance artist. He can throw together a few discarded drum cans and lids, and using a pair of drumsticks he can blow you away with his musical prowess. His rhythms sound so fine they put the supposed "professional" musicians to shame. He is often asked why he doesn't perform professionally but he just laughs brightly and says, "Making people smile is reward enough for me, besides, cabbing is too much fun to give up!"

Lately B.D. Joe has taken up card tricks... why you may ask? Because by doing so he can make anyone's day, anytime, anywhere.

GUS:
Age: 42
Sex: Male
Height: 5'8"
Weight: 187

License
Plate #: ONLY777 = "Only 777"
Meaning: Only aim for the big jackpot

Gus is a handsome (in a melancholy sort of way) drifter who typifies the term "cool". He holds the unique distinction of being the first cabbie ever to drive in the "crazy" style. In his youth, Gus was a wild and uncontrollable hooligan, selfish to a fault, who hated to lose and had to be Number 1 at any cost. With a strong fascination for things new,

Gus was naturally drawn to that one unique trend that was totally cool.

Always getting into something before it became popular, back in the days
when he didn't own a car he was just riding around in a normal taxi when
he had a flash of inspiration that caused him to go out and buy an old
junked out 1955 jalopy. Thus began the crazy taxi trend.

If Gus isn't driving, he can usually be found playing cards. When the
working ends he meets his poker buddies (whose members change nightly)
to pass the time playing poker, blackjack, and baccarat. A benefit of
his gambling is that Gus has come to understand the ways of strategy,
thereby mellowing his former desire to win at all costs. Learning the
why and how of losing has made Gus a better person.

450: Crazy Maneuvers
= = = = = = = = = = = = = =

Crazy Maneuvers are moves that can be performed while driving a customer
to his destination. Upon a useful maneuver, the customer will start throwing
coins that will be added to your total fair when dropping him off. The more
combo maneuvers you score, the higher you will get paid so keep performing
while watching for the traffic as getting hit cancels the combo.

CRAZY DASH:
Release accelerator and brake, then shift back to drive and press
the accelerator at the same time.

Crazy Drift:
Release accelerate, reveres gear, shift back into drive gear and
keep holding drive while accelerating and turning sharply for
a power slide turn. Use this to get a fast turn, this will
get you some combos.

Crazy Through:
Drive through traffic without hitting anything. This is hard if you're
driving like crazy, but it will get you the most combos and that will
get you more cash. Use it carefully because if you hit another car you
will lose all combos and start from zero again. Very useful when driving
through traffic on a long straight road. Stay with the traffic as opposite
to against it for safer combos.

4-Crazy stop:
Crazy dash, then hold reverse and brake.
Vary useful for fast stop; use it all the time when stopping.

5-Limit Cut: Crazy dash, crazy drift, and then crazy dash again.
A must use all the time; this will get you to the top speed.

460: License

After the game is over, you will get a license depending on how many
customers you dropped-off, here are all the licenses you can get:

                    = = = = = = = = = = = = =
```

Customers are all over the city (even under water). Depending on who you
pick, the drop off destination will either be close by or far away. Chose
the right customer depending on your time. Go for the close range if you
low as it's safer and gives you little extra time for you next customer
who should be someone nearby. Taking long runs while low on time will most
likely result in you not reaching on time unless your that good. Bellow is
the customer chart.

```
 --------------------------------------------------------------------------
| -COLOR-           -CIRCLE-        -DESTINATION-           -DROP ZONE-  |
|-------------|-------------------|-----------------------|---------------|

|Red              Small one        Vary close destination  Small Zone   |
 --------------------------------------------------------------------------
```

As mentioned before, doing Crazy Maneuvers while driving the customer will
get you extra coins added to your total fare when you successfully drop off
your customer. There are three types of coins you can get: Bronze, Silver,
and Gold.

They can get you starting from $0.25 and up to $15.00.

```
                          520: Picking-up
                    = = = = = = = = = = = = =
```
Every customer stand under a fare icon, you have to fully stop in his circle
to pick him up. You must not be driving another customer if you want to pick
anybody as you may only pick one at a time. Slam on the breaks as well as the
reverse for faster stops and plan ahead on who you would like to pickup. Try
stopping before the circle so you won't drive past wasting the time on revers.

```
                          530: Driving
                    = = = = = = = = = = = = =
```
As soon as you pick up a customer a timer will appear on the top left
side of the screen. A big arrow will be pointing where to go! You have to
get your customer to his drop-off zone as fast as you can to get a fare!

Remember the shortcuts and the best road that will get you there!
Press the X Button to show the Destination Reminder that shows where
the drop-off zone and how far it is from your current position.

While you drive the customer you may get crazy combos depending on how
you drive. Crazy combos are moves linked together without any hits by
the traffic. You will get crazy combos if you jump off ramps, use crazy moves,
and Crazy Through. But don't get too fast or you will lose all your combos.

When jumping off ramps, try jumping to the sides of the street so you won't
get hit by the traffic.

                              540: Dropping
                      = = = = = = = = = = = =
Time to drop your customer and get what's yours. As soon as you see the
drop zone -The arrow will lead you to it- use the crazy stop to stop fast.
You have to stop inside the marked zone. Depending on how fast you were,
you will get a rating, depending on it you will get an extra time if any:

| SPEEDY...........+5 seconds........If the time color is Green |
| NORMAL...........+2 seconds........If the time color is Yellow |
| SLOW.............No Bonus.........If the time color is Red |
| BAD..............No Bonus.........If the time color is Purple |

                                1000: PORTS
================================================================================

The game was ported to many consoles and PC releases including thew recent
IOS, Xbox 360, PS3, Nintendo Gamecube, PlayStation 2 and the original Xbox.

The best version is arguably the Xbox 360 or PC as they are the most updated
in terms of resolution but to me, the original Dreamcast still stands strong.
Refer to my Version Differences FAQ for more information on each port.
