

Mr. Tanaka will receive your comments and add you contributions with full credit.

Now on to the good stuff =) .....

This is all, of course, probably going to be discussed again, but here goes anyhow:

- Helena has no move names yet, reason being that they're a total bitch to translate. I think it will take me about two to three hours of solid time to do it, and I really don't feel like it right now.
- Not all the tag throws have been given names yet
- Not all characters have their secondary partner(s?!) listed
- Some moves should be re-translated by a native speaker (eg. "The Gold Chicken Stands Alone"), or to fully Englis names
- Missing Ayane's wall throw stats (ie. front or back) as well as Leon's, on his qcf+S+P
- Don't know if i got all of the Catch throws
- Nothing for big, bad-ass MoFo end boss type guy in the way of moves

#### Move Conventions

---

- ~ - Immediately after
- , - After
- > - Delayed after

- (AoP) - From Art of Phoenix Stance (Helena only)

## Thanks -----

We would like to thank everybody who contributed to this FAQ. In particular those who play in the Crescent street arcade in downtown Montreal:

Banshee, Donald, Frank and all the others (your names will be here in the next version).

Also Three-11, U-N-C-L-E and the Faceless Master.

Most of all though I (al-x) would like to thank Big Cat (Jon Tanaka) for his insanely obsessive devotion and contributions to the fighting game genre and for single-handedly producing this FAQ from scratch, annnnnd for ALWAYS being up for a couple of rounds of anything (except Soul Calibur hehe).

thanks too cheatcc.com and for the person who wrote this guide, my name is videogamemasta at gamefaqs.com
