Introduction

=====

Welcome to my Evolution 2 Complete Items Guide. I hope to make this the definitive item list for Evolution 2, as all the ones I have seen are incomplete. I plan on adding all the items, weapons, armor, and appraisal items in the game, and where to get them.

If you have anything to add to this FAQ, send it to me at fifty5names@yahoo.com and I will give credit where credit is due.

Updates

=====

Version 0.1: January 8th 2001 - I have almost all of the items I have in the game, as well as the value of all the Appraisal Items that I still have. I have a few combinations for some items, as well as a few descriptions of some weapons and armor.

Version 0.2: January 10th 2001 - I added names, descriptions, and values of 37 appraisal items. I also started new sections for the lottery prize lists, divided the different armor types into their own sections (Bodywear, Headwear, and Footwear) I did lots of work to the armor, including descriptions, cost to buy, cost to sell, and how they affect stats. Enjoy!

Version 0.3: September 24th, 2001 - I added the recipe for the Automatic computer appraisal item, as well as 040: Big shiny disc, 103: Thin cable, 081: Seaside portrait, and 059: Pole with a net. I added about 19 new items
