EXPLANATION

This document pretains to the Dreamcast game Phantasy Star Online (PSO). Each character in PSO, when first created, is assigned a Section ID based on his or her name. There's another FAQ at GameFAQs which explains how this is calculated. A character's Section ID determines which items that character can find.

Each group below lists which rare items are found for each Section ID, as well as whether a particular item can be found online or offline. If neither is listed, I assume it means the item can be found either way. Group A items are found by characters of all Section ID's.

At this time, it is unknown whether it is impossible for a character to find an item which is not in their group, or the "All Classes" group, or whether it's just less likely. It's also rumored that some of the online-only items have been found offline, and vice-versa. So take this information with a grain of salt.

In the immortal words of Mr T:
"Enough jibber-jabber! Here's the list!"
