Happy Forth of July

Happy Forth of July! I have updated a lot of sections. Two new sections have been posted. I might put a new section on this guide. My guide is getting better and bigger. Advertise my guide if you like. This guide will run a little low now since I am working on my Chao guide. But it will be updated as planned. Now my guide will be updated differently. Now it will be 1.6.1, 1.6.2, etc. In stead of 1.6, 1.7, etc.

ATTENTION

I will post my favorite Chao on the official Sonic Adventure 2 site when the Daycare opens. He is a Hero Chao. He is very strong. I will post him every week. Every week, he will become a lot stronger. His stamina is high. He is a natural runner. He has no name, but to find him, look for my name Trevor. When the "Black Market," I will get a Chao from there and work on him. Maybe...

My PSO Clan has done a downfall...

All openings for my clan are open. All people left. I need people to join. It is going to have a web-site for the latest news. Go to the section for more information.

Confirmed, officially making "Chao Guide"

I am officially starting on Chao Guide. I notice my guide will need help from all of you. Don't worry, I will have another opportunity to help make a guide for me. I will make another guide. I will be "Armada 2: Exodus Guide." It should come out around the end of July.

1. Introduction

A. Why I made this guide

I made this because people need to know if they are having problems beating a level they should have the right to know how to beat it without wasting money on the strategy guide. In the near future when this game comes out, I will give very good details. I won't just say see that stone over there and there are probably two stones. I will say you see that stone to the left with moss on it (example). Some guides don't have that. When I update my guide I will have more things to help you.

B. What's the use of this guide?

The use of this guide is to help out others who need help in Sonic Adventure 2. Another reason is if you are stuck at a level, you could read this and hopefully get past the level. This is kind of a helpful guide.

2. About Sonic Adventure 2

Shadow has found a way to use the chaos emeralds in a different way. God... Help us! Sonic Team is on its 10th anniversary, and Sonic Team plans to celebrate this wonderful event. Sonic Team plans to redefine the characters, the game play, and even the Dreamcast! It is finally out to us in America and around the world

The Sonic Team says the graphics are going to be twice as better as Sonic Adventure. The textures and graphics are way farther ahead then anything seen in any real-time game! Each level has been made to maximize the game play and show the Dreamcast's true capabilities. Clipping of sound has been totally eliminated. The new libraries of lighting and special effects are in the works. The result of this will make a dream come true!

Tails is in the game! Thank GOD! All you Tails fans, he will not be off the game! Take that all you Knuckles fans. He's not taking Tails' part in the game! Thanks good for sure.

The Ultimate Hedgehog (a.k.a. Shadow) will be a new vital character and is selectable! Some people will like him, but I won't like him as much as Tails.

Anyway, the Chao are back and cuter then ever! They are robots! They tell you they aren't regular chaos. They call them selves they are call "Omachao" You will have to find and reunite Chao across the globe! The basic rules with the Chao will be true in Sonic Adventure 2 too. You have find keys in the action stages to get the real chaos. The pictures are real nice and when you play the game, look at the

character's shadow. It's not a circle anymore; it looks more like real shadows. Underwater will be planned out as well. No word on some Online play yet, but I am sure that Sonic Team will make up something special for all of us Sonic Fans. I think that Sonic Adventure 2 will be the best Sonic game ever! This is the end About Sonic Adventure 2 Section! Thank you for reading this!

4. Special Information

I think I am a little late, but at the official Dreamcast Sonic Adventure 2 BBS is finally up. To see, click [HERE](#). I will post things there. When the day care opens, I will post my hero chao there ever week.

There are from just 3 players being known to 6 different players being known. Sonic, Tails, Knuckles are on the good side. Eggman, Shadow, and Rouge will be on the bad side. Finally in so long, 2 player action. No word yet for online play. But the version when SA2 comes out, it will look different. Look for section, "About Character" to find information about the characters on Sonic Adventure 2. I might add characters from Sonic Adventure Sonic Team said that there's a secret character. I wonder who it is... (*-*). Probably (cough...Super Sonic)

5. Cheats and Codes- updated

All codes are brought to you by IGN

Run on foot:

At the start of the City Escape level, instead of landing on the ground with the board, scrape the roads on the board. When on foot run full speed at a wall and get knocked down. Pause game play if you fall after hitting the wall. Choose to restart the level to run on foot and not on the board.

Boss Attack Mode

To unlock Boss Attack mode, complete either Hero or Dark side story modes. You'll be able to fight each boss from either Hero or Dark side.

Hidden Artwork on Disc

To find the hidden artwork on the Sonic Adventure 2 disc, pop it into your PC's CD-ROM drive. Look at the CD's directory to find a number of wallpapers, including an endearing picture of a Chau. Mmmm... chau.

Tip: Planting Seeds in the Chao Garden

If you play through the Chao Adventure 2, the VMU game, you will find seeds at the end of some of the quests. These seeds can be taken to the Chao garden and produce rare fruits. In order to plant these seeds, you need to first win the shovel and watering can in the beginner Chao races. As soon as you have won these, take the seed out of the VMU and give it to one of your Chao. The Chao will take it, plant it, do a little dance and a little weed you appear. Eventually, it will grow into a tree that you can use to help improve your Chao stats.

Unlock Dark Garden

To unlock the Chao Dark Garden, you must raise a Dark Chao with one of the three Dark characters. Continually feed and train your Dark Chao and it should evolve (creates a tear-shaped "cocoon"). Once it evolves, descending stairs should appear at the main Chao lobby leading to the Dark Garden.

Unlock Green Hill Stage

To unlock a 3D version of the classic Green Hill stage (from Sonic the Hedgehog on Genesis), earn all 180 emblems. The new stage will appear on the world map.

Unlock Hero Garden

To unlock the Chao Hero Garden, you must raise a Hero Chao with one of the three Hero characters. Continually feed and train your Hero Chao and it should evolve (creates a tear-shaped "cocoon"). Once it

evolves, ascending stairs should appear at the main Chao lobby leading to the Hero Garden.
submitted by IGND C

Unlock Kart Racing game

In order to unlock the Kart game, in the Hero Side story, complete Tails driving quest and in Dark Side story, successfully finish Rouge chase mission.

submitted by IGND C

Unlock Last Stage

In order to play the actual last stage of Sonic Adventure 2, finish both Hero and Dark side story games. Once done, go into story mode and a "Last Stage?" menu selection should appear between Hero and Dark selections.

submitted by IGND C

Unlock Super Sonic and Hyper Shadow

Everybody wants to play as Super Sonic, and now you can. All you need to do is complete "Last Stage?" in story mode, and you'll unlock both Super Sonic and Hyper Shadow.

16. Chao and Chao Gardens- updated

!Note!

My Chao guide is underway! The first version will come out in about a month. (And now back to our presentation, My Guide)

The Chao are back and better than ever. Now it is your chance to make a Hero Chao, which is made by playing with the Chao with a good character, or you can make a Dark Chao, which is made by using evil characters

A. Chao:

Types of Chao: They have different kind of Chao. They have speed Chao, Swim Chao, Dragon Chao, etc.

B. Chao Gardens:

The way to get into the Chao Gardens is to find the key in the Action Stages. Here, you can hatch and raise the Chao. The Chao Gardens are peaceful and quiet places so they can relax.

Regular Chao Gardens: This is where you can hatch and raise your very own Chao. If he stays here with no attention to them, they will stay a regular chao.

Hero Garden: This Chao Garden is where the good Chao stay. The only way you can get it is by doing something special in the game. It is filled with happiness and peace. Chao who stay here will grow into Hero Chao

Dark Garden: This Chao Garden is where your evil Chao go. It is filled with darkness and chaos. Chao who stay here will grow into Dark Chao

C. Chao Race:

The Chao races are back. Raise your Chao to participate in this very special competition. If you win, your Chao will be rewarded with gifts and toys.

(My guide for Chao is on its way. It will have a lot of information)

17. Previous and Future Sonic Games- updated

(Most of this information has been brought to by, "Sonic Foundation." "STK Flavor")

Previous:

Sonic the Hedgehog (Genesis): This is the first Sonic game out. It only has Sonic in it.

Sonic the Hedgehog (Game Gear): This is the first Sonic game for game gear. Sonic is the only person on the game.

Sonic the Hedgehog 2 (Genesis): The sequel on Sonic the Hedgehog. It has a new character we known to love, Tails.

Sonic the Hedgehog 2 (Game Gear): The second Sonic game for Game Gear. Tails is in here, which is good.

Sonic & Knuckles: This is a game where only Sonic and Knuckles are playable. Tails isn't on here. Man this is a stupid game without Tails.

Sonic CD: The game that is available only for Sega CD only. Amy makes her debut in this game. She is not playable till Sonic Adventure.

Sonic the Hedgehog 3/ Sonic and Knuckles: The trilogy of Sonic the hedgehog series. Tails starts flying in this game. Knuckles have his debut in this game. He is only playable in versus mode. He can't glide until Sonic and Knuckles.

Sonic Chaos: (coming soon)

Sonic Spinball: The very first Sonic pinball game. Some folks consider this to be the hardest Sonic game. I consider it is the hardest. I never made it passed the 2nd level. That is sad.

Sonic Triple Trouble: (coming soon)

Knuckles' Chaotix: Here is Kuckles' first solo title. It also features the premier of Mighty the Armadillo, Vector the Crocodile, Espio the Chameleon, Charmy Bee, Heavy and Bomb as the Chaotix.

X-Treme.

Sonic Jam: Here is a major compilation of the original Sonic Series: Sonic 1, 2, and 3/ Sonic and Knuckles. Also included is the 3D action museum know as Sonic World showing the history of Sonic from 1991- 1997, music from all the games, pictures and lots more. It's a must have if you enjoy the original Sonic series.

Sonic R: One of the Sonic games that you can race with. It has the original characters, Sonic, Tails, Knuckles, Amy, and Dr. Robotnik. And there are more characters I didn't mention. It is also an online game.

Sonic Adventure: Dr. Robotnik is trying to take over the world again. He is starting by destroying Station Square. Sonic, Tails, and Knuckles are back and ready for action. Amy (also Sally) has come back and now she is a playable character. There is a big cat named Big the Cat. Dr. Robotnik has a new series of robots. They are called the 100 series. E 102 'Y' is the only playable robot. The mecha Sonics are back, but they are still in the regenerate machine. They play no part in the game. They are not playable
Sonic Pocket Adventure: Here is the newest hand held Sonic game for a system that doesn't belong to Sega, the Neo Geo Pocket Color. SPA is a 2D-side scroller that mostly resembles Sonic 2 and some elements of Sonic 3 so it's like putting a classic Sonic game on a hand-held system.

Sonic Shuffle: This Sonic game is similar to the Nintendo 64's Mario Party - except with Sonic characters (Sonic, Tails, Knuckles, Amy Rose and FOUR hidden characters). This game has several dozens of mini-games and many other features to keep Sonic fans busy with their favorite characters. Also, a new villain named Void debuts in this game.

Sonic Adventure 2: (What this guide is about. DUH!) Well... If you want info about it, here it goes. It is the newest Sonic game out already. The graphics are stunning! Just imagine Sonic Adventure x2. I will leave you with this... "Are you ready for the revolution in Sonic play?"

Future:

Sonic Advance: The first Sonic game on a console that has a Sonic game besides computer. He is on Nintendo's new game system called, "Gameboy Advance." This is a Gameboy Color with style and luxury. L.O.L. (more to come...)
