

the amount of potions he throws to 6, and eventually 9. Repeat until he gives up

-----|  
Bregull Beach Boss:

-----|  
Boss: Mecha-Grunty Fight #1

Difficulty: Easy  
Hit Points: 6

As the battle begins, the mecha body will rush at you with the same shield Klungo had. Dodge her tackles and then roll into her when she lowers her shield. After her health is down to 3, she will start flying in the air and try to crush you. Watch the shadow and then move when she tries to hit you. Repeat until dead.

-----|  
Bad Magic Bayou Boss:

-----|  
Boss: Klungo Fight #2

Difficulty: Easy/Medium  
Hit Points: 3

The fight is pretty much the same, only Klungo disappears for about 3 seconds and then shows a outline. Wait until he lowers his shield and then attack him. Repeat until dead.

-----|  
Spiller's Harbor Boss:

-----|  
Boss: Mecha-Grunty Fight #2

Difficulty: Medium  
Hit Points: 6

This is the only First Person Shooter boss in the game. Before you head into battle, make sure that you have at least 20 Ice Eggs. You need to hit Grunty's Chin, arms and hands, Hat, and square covers near the bottom at least 3 times to damage her. While you are doing this, she will fire magic spells at you. If you run out of Ice eggs, there are 3X of Ice Eggs in each corner that slowly fill up, if you run out.

-----|  
Freezing Furnace Boss:

-----|  
Boss: Klungo Fight #3

Difficulty: Medium/Hard  
Hit Points: 3

This is a combination of the previous two battles, and something new. Klungo will begin tossing beakers around and then lower his shield while invisible. After you hit him once, he will release two blobs and keep his shield up. Let the blobs take hold of you and press the D-Pad around to shake them off and kill them. After you do that, he will start his usual assault. When he gets down to one point of health, he will now release 4 blobs. Repeat what you did earlier and you should win.

-----|

|Final Mecha-Grunty Fight

Difficulty: Hard

Hit Points: 12

The final fight with Grunty is definatly the hardest. She uses a combination of every attack in the game and a few new bouncing ones. She is also much faster this time and harder to damage. Once she lowers her shield, roll into her and then attack the spirit that comes out to damage her. Repeat until dead.

#### 5. Special Thanks

---

I would like to thank:

Myself, for working on this

My friends Andre, Alex, Kyeedra, Jeff, Corey, Scott, and all my friends for the inspiration to write

My father, who got me into video games

Miyamoto and Nintendo, for this great game

and everyone who reads this

You can visit my site at [www.zeldanine.com](http://www.zeldanine.com)

#### 6. Contacting me

---

Due to the ammount of questions I get, either email or IM, I have decided to put this up. Due to some of the people out in the world always bugging me for help, I decided to post what I accept and not.

Email: ([jasonkhowell@msn.com](mailto:jasonkhowell@msn.com))

-You are welcome to ask any questions or send any positive comments to me, but I warn you, it may be a few days before I email you if you asked a question thats already in the guide (Which I have been getting alot of.)

-Mailbox flooding, threats, flames, and negative comment senders will be blocked and deleted, and may be reported based on the seriousness of the threat. Mailbox flooding is basically sending the same email in several minutes which some people have done. Just send one email and if I dont reply in 2 days email me again. You dont have to flood my email box with junk. Oh yea, if you try to send me a virus to erase my harddrive, you will fail. I already have a copy of my computer backed up and im not stupid enough to check a attachment with a virus program before I read it

IM (AOL Instant messageing or Yahoo IM jasonchowell196, YIM is same as email)

-This is something that has bothered me. I have IM open to questions, BUT, many people who have IMed me questions have either repeadly ask questions I have already answered in the guide. Usually when I say read the guide or help somewhat and dont answer back, people get pissed at me and either call me profound names or repeatedly IMed me. I will warn you now, Harass me on IM and you will be blocked, and since I rarely add people who ask me questions on my buddy list, it will be permanant.

Thats all I ask...and people, please dont be stupid.
