Version History
=====
```

Version 1.0 - 02/13/05 - First Version, almost everything is complete, all that needs to be done is some better descriptions on the exhibit locations and change some spelling and grammar mistakes.

Version 2.0 - 03/13/05 - Added Version History, changed some descriptions and added more sites to the permission list, done a spell check.

Version 3.0 - 03/23/05 - Added a contacting the author section, because I got sick of getting loads of stupid e-mails.

Version 4.0 - 04/12/05 - Updated the description for Hercule Exhibit 15 and added a link to a picture of the tree with the blue fruits, because I kept getting e-mails with people telling me they couldn't see it, so hopefully this helps :)

Version 5.0 - 08/08/08 - Deleted the contacting the author section as I haven't played this game in over 4 years and just can't answer peoples questions, because I don't remember the game very well. If you follow the guide carefully you shouldn't even need to e-mail me asking for help.
