1. Introduction

Hey there. I知 B Bomb Brian or SmashedZeppelin, and I致e been creating edits for about two years. Originally I had a site, FireProUnited, which originally contained mostly WWE edits. I eventually decided that,well WWE edits were done so often and much better than me that mine were obsolete. That痴 when I began to make edits of independent wrestlers, which were much less requested, and much harder to find. Since then I致e made close to 100 intependant wrestlers, from many different promotions ranging from Total Non-Stop Action Wrestling (TNA), IWA Mid South (IWA-MS), Ring of Honor (RoH) and many others. Also, over the past year or so since I started this project, I致e collected a few edits from other creators, which you see here!

2. Updates

A. Version 1.0 (The First Release): January 9th, 2005

- 1. All 98 released, El Generico and Steve Corino appearance only real eased

B. Version 1.2: March 20th, 2005

- 1. Added James Gibson

2. Updated in some way, shape, or form. Ace Steel, Alex Shelley, Austin Aries, BJ Whitmer, Bryan Danielson, Chris Bosh, CM Punk, Colt Cabana, Delirious, Doug Williams, Jack Evans, Jay Briscoe, Jay Lethal, Jimmy Jacobs, Jimmy Rave, John Walters, Kevin Steel, Low Ki, Mark Briscoe, Nate Webb, Nigel McGuinness, Petey Williams, Puma, Quicksilver, Ricky Reyes, Rising Son, Rocky Romero, Roderick Strong, Samoa Joe, Sonjay Dutt, Spanky, and Super Dragon.

3. The Actual Edits!

D. Disclaimers

Now, you may notice the difference in the skills and abilites between my edits and other creators edits. Mine tend to be higher, in the upper 100痴 compared to other creators who are in the lower 100痴. This comes from a belief that all independent wrestlers have the chance to be the champion in one promotion, but a jobber in another. A fairly good example is Alex Shelley; in TNA he is a total jobber, but in just about every other promotion he is a mainevent player.

I used the Reverse DDT of the last Rites for several reasons

- 1) That's what the game uses
- 2) To make room for the Complete Shot, STO, and Fireball Bomb, all important moves for Chris Daniels.

4. Thank You

There 知 just too many people to thank, but ill try to name a few: Haddes911 and BioHazardandTsukino for their veteran guidance, CyberTranz and all the guys at the C-CWA for making my short stay there a very fun one, all the creators who contributed to this guide, Otaku for helping me with many edits, AndyKaid2k4 for helping me with the movelist of most of these edits, but most of all, the guys at the board and the whole FirePro Community in general!
