Evil Superstar BobSlack's Groovy Fire ProWrestling Guide Version .75

by

Evil Superstar BobSlack (bobslackx@hotmail.com)

If you use this email me praise. If you re-use data from this faq, give credit where it's due. All of WWF and WCW are done except Rey Mysterio Jr and Kaz Hayashi. I will be fixing Kaz and Rey, also adding data for RVD and Sabu in the near future. New to this version is a wrestler rename list. dig it! This FAQ would not have been possible without the deceased Fighting Spirit website by the dashing IceMaster. Also, many thanks to 'The Mysterious Kagura' for helping us all out in the beginning of the 'firepro scene' (note - I really will send that stuff!)

Contents:

- [1] Restoring American Wrestlers
- [2] Renaming Wrestlers

...

- [1] Restoring American Wrestlers

There are seven steps to restoring the american wrestlers to Fire ProWrestling, and here they are. I will only give the steps for one wrestler, Steve Austin, you can figure out the rest by re-doing these steps for other wrestlers. I accept no responsibility if you mess up. This FAQ would not have been possible without the deceased Fighting Spirit website by the dashing IceMaster. Also, many thanks to 'The Mysterious Kagura' for helping us all out in the beginning of the 'firepro scene'.

1. go to EDIT then select EDIT WRESTLER
2. select WRESTLER MODELS
3. select MAJORS in APW
4. change the below sections
5. go to DATA STORAGE and SAVE wrestler, then EXIT to MAIN MENU
6. go to EDIT then select MOVE WRESTLER
7. select MAJORS and move him to RETIRE organization

(note- repeat as indicated on the back of bottle)
