Update History

8/31/01- Sixth version. Updated the RVD edit.
8/1/01- Fifth version. Edited the layout to make it easier to read.
7/23/01- Fourth version. Added Bob Backlund.
7/20/01- Third version. Added an edit for Mankind (only three left to do now)
7/19/01- Second version. Added renames for hidden all the wrestlers who don't require editing. 75% Complete (only four edits left to do as far as I can tell)
7/17/01- First version. Includes edits for RVD, Sabu, Rey Mysterio Jr., Kaz Hayashi, Royce Gracie, Dan Severn, Shawn Michaels, Ric Flair, Vince McMahon, Andre The Giant and Randy Savage.

1) About This Guide

This guide is intended to show users how to restore wrestlers in Fire Pro Wrestling to their real life counterparts. I will not provide edits for the WWF or WCW wrestlers (apart from Rob Van Dam and Kaz Hayashi) as there is already an excellent FAQ for this:

("E.S.Bobslacks Restoring/Renaming Guide", available at GameFAQs (www.gamefaqs.com), instead this guide will focus on the hidden wrestlers and the wrestlers not included in the other guide. All the skills and abilities provided are from Fire Pro Wrestling D for Dreamcast and can be considered official, and are provided by GSWF.ORG, except where noted. In general I haven't provided theme music as this is a matter of taste.

2) How to Use These Edits

Before you edit the wrestlers you'll need to create these federations: WWF, ECW and WCW.

These are the steps for restoring a wrestler:

1. Load up the appropriate wrestler model (eg for Van Dam load up Vince Von Trapp)
2. Make edits to name, color set, skills and abilities using stats given
3. Go into moves, find the move marked F. Press L to make the F disappear and then press L again to make it reappear. Press Start and rename the finisher.
4. Save the edited wrestler
5. Go to Move Wrestler, and move the wrestler model to Retire (this removes the old unedited wrestler from the player select screen)

3) Edits for Non-Hidden Wrestlers

Please note that where a color is listed as 0 you need to go to another number and then back to 0.
