Important Notes You Should See Right Away!:

Lots of Email!!!
If you have emailed me in the last month (all of June, early august) then you must know that I havn't been answering emails! I have been grounded...yes.. again! And I havn't had the time to answer them all. I have 50 emails and it will take a while to check it all. I will have it all answered within a week.

Guide Coming To An End...
This is my most successful guide ever (I've never recieved so much mail for one guide!) and I hate to say it, but this guide is slowly coming to an end. It will still be available, but the time between updates will be greater and eventually I will stop doing big work on the guide. There just isn't anything else to add. I've literally (as far as I know) covered everything in the game. I just don't know what else to cover. If you have any ideas for the guide, please email me at Duenos14@aol.com. I will put your ideas into the guide if I can.
As many of you know, the Heart Events section has been in ruins since the beginning. Right now I am waiting for an email from someone who wrote a heart events guide to say that I can use their information in this guide. That will be in the next guide update since I want the farewell version to be out there. It may be the end of this guide, but I am starting a new guide with a friend.

Me and Moo Cow will be writing a Dragon Ball Z: Legacy of Goku II guide.

I have no idea when it will be completed.

Right now we have the characters and walkthrough sections started.

Also look out for me at the following websites, where I am now going to be helping out at. The last one, will be MY site

*www.sakuraotaku.250free.com

*www.harvestmoonworld.com (currently redirects to another site)

=====
Contributions Are Over...

I'm once again trying to cut down on the amount of email I receive.

so I will no longer accept contributions of any kind except for heart events.

The only thing I will respond to are questions.

Even then, it will take a while to get a response from me (anywhere

from three days to a week). That is because 1) I now have a job and I have less

time on my hands. 2) I am trying to end the guide. and 3) well.. there is no

three.... If you really can't wait, just IM me. I will answer Im's a lot quicker

than emails (of course). Or you can go to Fogu.com/hmforum and go to the HM4

message board and toss me a Private Message or post your question on the message

board. I go there atleast twice a day.

In case your wondering why I will respond to a Private Message or IM quicker

than an email, I am going to pile up the HM emails until I get 5. Then I will

answer them all at once.

=====
Format Changed Again!

As you might not be able to tell, I have changed some of the format. I got rid

of the Helpful Stuff section and put its contents either in the Extras section

or just totally deleted it out of the guide. I was thinking about merging the

Misc. section and the Closing section.

On to the important stuff...

Because no one cares about the stuff up top...

Here it is folks...

(1. Who Made This Thing?)

Author: HMKing (Duenos14@aol.com)

I've been writing guides for a little over a year now and I have about 11 guides. Four or which are available at GameFAQs.

Editor: kkslider (kkslider02@hotmail.com)

kkslider first started out with just an email or two, correcting every single little "unoticable to the normal human being eye" mistake. I later learned that his odd behavior was similar to mine, so me and him become pretty good friends. Now he bugs the heck out of me everytime he gets online. AH! that AH! was for you kkslider! I'd reveal his real name, but he would IM me even more than usual.

(1. Story)

When you were little, you visited Mineral Town. You noticed that the nice people were some how more friendly than people in other towns. They all acted like they were friends. Aw...how friendly. Anyway...

Some how you got away from your parents and met an old farmer. He invited your parents and you to stay at the farm for the rest of the visit. Over the time of the visit, you and the old farmer become really good friends. But sadly, all good things must come to an end. So they do! Then, many years later, you come back and visit Mineral Town. But sadly you learn that the beloved farmer had died recently. So you take the old farmer's place. In this wonderful game, you must love, buy, sell, and build (no, this isnt Real World) your way through life.

(2. Game Basics)

These paragraphs are a little big, but please try to follow it. I edited a little so the paragraphs are a little bit smaller, but to keep on topic and not

to overly bore you, some of the paragraphs had to remain small.

-Chop Wood

To chop wood you must have the axe equipped. Depending on the level of your axe, you can only chop certain types of wood. If you are just starting out in the game, you can only chop small logs. To do this, press "B" while standing in front of a log. Once you've used the axe a lot, hit start and select the Earnings picture. Then hit "A". Then hit the left arrow button. Then hit the left arrow button. You should see a bunch of pictures of tools. Look for the axe picture. Next to it, there should be a bar that is filled with a color. Once that color is copper (reddish-brown), head to the mine (If it's not copper, just keep chopping small logs until it is).

To get to the mine, head south from your farm. Once on the path, take the first path on the left. Once there, break up some of the rocks with your hammer. Eventually you will find a piece of copper ore. Hit "A" to pick it up. Hit "B" to put it in your rucksack. If you have enough money*, head to the black smith (if it's open). Talk to Saibaru and ask him to upgrade your axe. Come back the next day and you will have the copper axe. Now you can chop some real wood.

UPGRADE:

To upgrade it to the silver, dig around in the mine for silver ore.

To upgrade it to the gold, dig around in the mine at level three or lower for gold ore.

To upgrade it to the mystril, dig around in the mine at about level 7 or lower for mystril ore.

Now to teach you how to chop wood with an upgraded axe. Stand in front of the tree stump that you wish to chop. Hold "B" until you can't move the axe back any more. Now release it. Do this several times and the wood will be chopped and automatically sent to your wood bin.

NOTE: Different level tools will perform tasks quicker.

Example: Level 5 axe will chop wood with one swing of the axe, while level 2 takes six.

=====

-Break Rocks/Boulders

To break rocks you must have the hammer equipped. Depending on the level of your hammer, you can only break certain rocks/boulders. If you are just starting out in the game, you can only break small rocks. To do this, press "B" while standing in front of a rock. Once you've used the hammer a lot, hit start and select the Earnings picture. Then hit "A". Then hit the left arrow button. You should see a bunch of pictures of tools. Look for the hammer picture. Next to it, there should be a bar that is filled with a color. Once that color is copper (a reddish-brown), head to the mine (If it's not copper, just keep breaking rocks until it is).

Once there, break up some of the rocks with your hammer. Eventually you will find a piece of copper ore. Hit "B" to put it in your ruck sack. If you have enough money*, head to the black smith (if it's open). Talk to Saibaru and ask him to upgrade your hammer.

Come back the next day and you will have the copper hammer.

Now you can break boulders. To upgrade it to the silver, dig around in the mine at level 1 or lower for silver ore.

Different Upgrades:

To upgrade it to the gold, dig around in the mine at level three or lower for fold ore.

To upgrade it to the mystril, dig around in the mine at about level 7 or lower for mystril ore.

Now to teach you how to break rocks/boulders with an upgraded hammer. Stand in front of the rock/boulder that you wish to break. Hold "B" until you cant move the hammer back any more. Now release it. So this several times and the rock/boulder will be out of your way.

=====

-Cut Grass

To cut grass you must have the sickle equipped. Unlike other tools, you can cut anything at any tool level. When you upgrade, all it changes is how much area you can cut with one swing. To cut up something, stand in front of it and hit (or hold if you've upgraded) "B" and release. It should cut whatever is in front of you (if it is cuttable). If it's grass that you're cutting, it will automatically be sent to your feed bin.

Different Upgrades:

To upgrade it to the copper, dig around in the mine at level 1 or lower for copper ore.

To upgrade it to the silver, dig around in the mine at level 1 or lower for silver ore.

To upgrade it to the gold, dig around in the mine at level three or lower for gold ore.

To upgrade it to the mystril, dig around in the mine at about level 7 or lower for mystril ore.

=====

-Till The Ground

To till the ground you must have the hoe equipped. Unlike some of the other tools, you can till the ground all you want at any level. When you upgrade, all it changes is how much area you till with one dig. To till, stand in front of the square(s) you want to till. Tap or hold and let go the "B" button. You can now plant seeds in the place you just tilled.

Different Upgrades:

To upgrade it to the copper, dig around in the mine at level 1 or lower for copper ore

To upgrade it to the silver, dig around in the mine at level 1 or lower for silver ore.

To upgrade it to the gold, dig around in the mine at level three or lower for gold ore.

To upgrade it to the mystril, dig around in the mine at about level 7 or lower for mystril ore.

=====

-Water Your Plants

To water you plants, you must have the watering can equipped. Unlike some of the other tools, you can water anything at any level. When you upgrade, all it changes is how much area you water with one spin. To water, stand in front of the area(s) you want to water. Press or hold and release the "B" button. You have just watered a plant!

Different Upgrades:

To upgrade it to the copper, dig around in the mine at level 1 or lower for copper ore.

To upgrade it to the silver, dig around in the mine at level 1 or lower for silver ore.

To upgrade it to the gold, dig around in the mine at level three or lower for gold ore.

To upgrade it to the mystril, dig around in the mine at about level 7 or lower for mystril ore.

=====

-Use An Items

To use an item, you must have an item in the "item in use" slot. To do this, hit enter and select the tool bag picture. Then move the little hand (using the direction buttons) over to the items half of your bag.

Once you have the hand over the item you want to place in the "item in use" slot, tap "A" twice. Then hit "B" twice. Now your character should have the item you selected in his hands. Now you can give or use the item that you have selected.

=====

-Upgrade Your Tools

Once you've used a tool a lot, hit start and select the Earnings picture. Then hit "A". Then hit the left arrow button. You should see a bunch of pictures of tools. Look for the tool of your choice's picture. Next to it, there should be a bar that is filled with a color. Once that color is copper(a reddish-brown), head to the mine (If it's not bronze, just keep breaking rocks until it is). Once there, break up some of the rocks with your hammer. Eventually you will find a piece of copper ore. Hit "B" to put it in your ruck sack. If you have 1,000g head to the black smith (if it's open). Talk to Saibaru and ask him to upgrade the tool of your choice. Come back the next day and you will have the upgraded tool.

Different Upgrades:

To upgrade it to the copper, dig around in the mine at level 1 or lower for copper ore

To upgrade it to the silver, dig around in the mine at level 1 or lower for silver ore.

To upgrade it to the gold, dig around in the mine at level three or lower for gold ore.

To upgrade it to the mystril, dig around in the mine at about level 7 or lower for mystril ore.

*Section 3: World of Harvest Moon *

Let me explain (very quickly) the world of Harvest Moon. All of the HM's contain what you see in this section. Except for STH, but that game is an outcast anyway. STH does not belong in the same genre as HM. Harvest Moon taught me the word "Festival".

It also taught me how NOT to get the ladies in real life! If I were to give a girl a blue feather, they would say "Ew! Gross. You probably killed a mocking bird (lol) to get that thing."

BTW: To Kill A Mocking Bird is book. So I stole its name. :)

Just put up with my dumb jokes for a little longer.

(1. Characters)

I Think I Have Them All Listed. Email me at Duenos14@aol.com if I missed any. I do not have the possible brides listed in this section because they are more important than the others. They can all be found in the "Girls" section. Also, the brides to be are more heavily explained in the "Girls" section.

Scissors: 1800g

Married:

Step 1- Picking a bride to be

Pick a girl that you want. What I do is, since I'm always trying to get married earlier and earlier in the game, I pick a girl whose likes I can find. What I mean is, if its summer, I would go for Ann or Karen because they like wild berries, and those are only available in the Summer. It's just easier that way.

So I have the following set up so you can see what they like and all that jazz.

Name: Ann

Location: Inn, Near the hot spring

Likes: Chocolate, wild berries, Animals, Egg Dishes, Curry Rice, Strawberry Milk, Sandwich, Sweets, Rice Cake, Diamond, Pink Diamond, Perfume. (Also try buying something from the bar everyday <OTHER THAN WATER!!!>)

Competition: Cliff

Name: Karen

Location: Store (after 1 PM), outside of the store (Until around 9 AM), by the hot spring

Likes: Bamboo shoots, wine, wild berries, flowers, popcorn

Competition: Rick

Name: Elli

Location: Clinic (Hospital), Super Market

Likes: Almost all foods

Competition: The Doctor

Name: Mary

Location: Building next to library, In the library, Super Market

Likes: (coming in a later version)

Competition: Gray

Name: Popuri

Location: Poultry Farm, Near the hot springs

Likes: Scrambled eggs, omelet, eggs, omelet rice, strawberry recipes, dress, perfume, diamonds

Competition: Kai

=====

Step 2- Giving to your girl

By using the chart above, you can see what the girl of your dreams likes. Then you can give them their favorite gifts. This will raise their heart level.

Step 3- Giving the feather

This is one of the many things that I like about the Harvest Moon games. They are consistent with using the blue feather. Unlike other items, this one has remained unaltered!

Before you can give her the feather, you must have a red heart. Here is the heart chart! I know it was a little messed up in previous versions, but I fixed it. Phew.

Black
Purple
Blue
Green
Yellow

Orange <----At this point, you can buy the blue feather

Red <----At this point, you can try to give the blue feather to your girl

Go to the store and buy the blue feather. Its Only 1,000g. If you give it to her really early in the game she will either think its a joke or just say no. So you have to wait a while. The key is to keep that red heart for a while. To do this, continue to give her gifts. Try the feather at least once a week. I kind of both hate and like this feature. I like it because it makes the game even more realistic than previous ones. I hate it because it takes even longer than before to get married. So anyway, once she accepts it, you two will get married on the following Sunday. If you wait until the 4 seasons into the game, she most likely will say yes. Then you two will get married 7 days later.

NOTE: there is no guarantee of this

=====

Kids:

Step 1- Get married.

SEE THE LAST BUNCH OF PARAGRAPHS TO SEE HOW

Step 2- Give gifts

Give gifts to your wife everyday and talk to her twice a day. Eventually she will become pregnant. 2 and a half seasons and a ton of cheap pre programmed phrases later, you will be a father to a baby boy that can one day help you on the farm.

Basically, it's like there is another heart level after red.
BUT there really isn't.

POST BIRTH TIME:

Give your kid gifts and talk to him twice a day. Eventually he will be big. That's all. What fun.

-Harvest Goddess

First off, let me just say that if you are a beginner at this game THIS IS NOT THE GIRL TO GO AFTER! I suggest you try going after Karen or one of the easier girls. The Harvest Goddess requires so much stuff and you can't even see her heart level. It's a hit or miss situation really.

ALSO! She really isn't worth all of the money/time. Once you marry her, she leaves you alone all day and you only see her when your kid related events take place.

Requirments/Steps:

- *Catch every species of fish
- *Ship one of everything
- *Have all 9 Jewels of Goddess and Gem of Goddess

Walk into the store any day between 10AM and 1PM. Duke and Karen will be talking about something. Turns out that Karen's dad asked Duke to make some wine the day Karen was born and they ask you to help Karen go pick it up. I'd say yes if I were you. Turns out that Jeff was so happy about Karen's birth that he had Duke make several cases of wine. So Karen gives you a bottle as a thank-you.

-Green

COMING SOON!

-Yellow

Walk into the store between 10AM and 1PM on Monday, Thursday, or Saturday. You will witness Karen's...uh...special cooking *COUGH COUGH!*Dis*COUGH COUGH!* ability first hand!

Let's just say you end up in the hospital! :)

Elli:

-Black

Walk into the hospital and Stu will freak Elli out with something. Then answer her question.

-Purple (sent in by HarvestMoonLover)

It's on a wendsday when Elli

has here day off. Around noon, you can go into her grandmothers house.

They are all fussing over Stu beacsuse he has a fever. You will be asked to take him to the doctors while Elli finds the doctor. You find out that Stu has a cold. THEN you got to take him back home.

Ann:

-Black

Walk into Doug's and Ann will have her dad give you a meal on the house.

Note: Has to be done between 10:40 AM and 1 PM

-Purple (sent in by GameFreak0606)

When you walk in to the room at doug's inn you see her cleaning up and singing. When you walk up to her she is startled and is mad for a second but then she forgives you. Then she will ask you if you like cleaning. Say yes and your in.

Popuri:

-Black

Between 10 AM and 6 PM on Wednesday or Friday, walk along path towards the chicken farm. A stray chicken will run at you and you will catch it. Popuri will thank you and ask if you like chickens. If I were you, I'd say yes.

-Purple (Sent in by basbllwarrior9)

Right now all I have is what happens, not the actual time.

Popuri comes to your house and she asks for a tour of the place.

-Green (sent in by wingede)

On sunday, around eleven a.m. the two kids (stu & may) wants to play house outside. popuri plays the mother, and they tried to get carter to play as the father. carter refuses & you enter the church. Carter asks you to play with them. if you agree, mostly get a yellow heart. You play outside for a while. Popuri gives you something...(I got mudball)

<Rivals>

All of the events below were contributed by Jeff19810.

Thank you Jeff19810!

Rick:

-Black

At the hot spring from Wednesday to Saturday, 11:00am to 6:00pm.

Copper- Tills two squares of ground.
Silver- Tills three squares of ground.
Gold- Tills four squares of ground.
Mystril- Tills six squares of ground.

=====
Name: Sickle
Price: Free
Description: Use this to cut up grass, those annoying weeds, and plants or people you don't like.

=====
Name: Watering Can
Price: Free
Description: Use this to water your plants.
Upgrades:

Copper- Waters a 3x1 area.
Silver- Waters a 3x3 area.
Gold- Waters a 5x3 area.
Mystril- Waters a 21x1 area.

=====
Name: Fishing Rod
Price: Free
Description: Use this to catch fish which you can sell or give as gift.
Upgrades:

As you upgrade, you are able to catch better things. With the regular fishing pole, you can only catch small fish and trash. Once you upgrade once, you won't catch junk.
This is the hardest of all the tools to get experience for.

=====
-Cursed Tools

NOTE: READ THE SECTION INTRO BELOW! IT'S VERY IMPORTANT THAT YOU KNOW THE INFO!

Cursed tools are tools that are really powerful. They are like upgraded beyond mystril. Yeah that's really powerful. In order to find these, you need an open tool slot and all tools must be mystril. Yes... all of them. Also note that you can only find these tools in the Winter (or Lake. Whatever you call it) Mine. Not Spring! LAKE. As you probably noticed, they are called CURSED tools. That means that they suck up your stamina like a F-350 sucks up fuel. Luckily you can bless them! Also note that finding the tools are random. Meaning that they are not in the exact same spot every time. So don't get mad at me if you can't get the tool in the same spot next time!

=====
Name: C. Fishing rod
Location: Floor 29

What It Does: Catch King fish, treasure, and fossils

How To Bless: Use tool 225 times

Name: C. Hoe

Location: Floor 39

What It Does: Tills a 3x12 area.

How To Bless: Have Carter bless it 10 times.

Name: C. Axe

Location: Floor 49

What It Does: Chops all choppable things on screen.

How To Bless: Use tool 225 times

Name: C. Hammer

Location: Floor 59

What It Does: Smashes ALL boulders in one hit.

How To Bless: Have the tool equipped for ten days straight.

Name: C. Watering Can

Location: Floor 69

What It Does: Waters a 13x6 area.

How To Bless: Have Carter bless the tool 10 times

Name: C. Sickle

Location: Floor 79

What It Does: Cuts a 9x9 square.

How To Bless: Have the tool equipped for ten days straight.

-Mythic Tools

Well I doubt you've heard of these, because I just learned about them. I also bet that you will give up on getting these once you see how to get 'em!

First of all, in order to get these you need the following: All cursed tools blessed, a TON of money, and a Mythic Stone for each tool you wish to make Mythic.

Step one: Get all of your cursed tools blessed. To do this, check out the previous section.

Step two: Mythic Stone. Once you've blessed them cursed tools, head to the Mine and get to the 60th level. Of course, since this is all random, it might take you forever. Good luck! According to Mystic, they found their first one on level 202! Whoa. Good luck again! I don't even bother with these tools, It's a waste of time I think, but if you are a perfectionist and you want EVERYTHING in the game, go ahead... knock yourself out!

You should find Mythic Stones. Collect a bunch.

Step three: Get some serious money! In order to have them tools upgraded, you need to give Saibara 50,000g a tool!!!!!!

Goodness gracious! Great balls of fire!

It'll take two days for him to upgrade the tools.

You may also want to note that you can sell the mythic stones for 20,000g each! So for one tool, you might want 4 Mythic Stones. 3 for selling, and 1 for upgrading. That way the upgrade is pretty much free.

M. Fishing Pole:

Makes you more likely to catch a fossil and treasure

=====

M. Hoe:

Tills a 18x5 area.

=====

M. Axe:

Uses 50% less stamina as blessed Axe.

=====

M. Hammer:

Destroys all the stones visible in the screen.

=====

M. Watering Can:

Waters a 12x21 square

=====

M. Sickle:

Cuts a 15x15 square.

(7. Power Berries)

These helpful little berries will give you more stamina. You can find them in various locations. Lucky for you, I got them listed!

Regular Power Berries:

- Dig around in your field.
- Make an offering to the Harvest Goddess. Go to her pond and throw something edible in it.
- Win the Horse Race.
- Win the Frisbee Contest.
- Fish with the mystril Pole in the ocean off the dock.
- After you've bought everything from T.V. Shopping, they will sell it for 10,000g
- When the pond on Mother's Hill freezes over, go behind the cave and hit "A"
- In the same pond that I mention above, get to level 19 and you'll get a berry.
- Find one in level 19 of the Lake Mine.

Special Blue Power Berry:

Blue Power Berry:

-Throw cucumbers in Kappa's pond for ten days in a row and Kappa will give you the blue power berry. This berry reduces the affect bad weather has on your health.

Suggested Planting Formations

+-----+
|X-Seed|
+-----+

XXX -This formation is preferred by some because once you upgrade your watering
XXX can enough, you can water the whole thing and collect all of the Harvest
XXX except for the middle (which you can later collect when your done
harvesting for the season)

X X -Most people suggest using this formation, but it is really a pointless
XXX formation (That is if you have not upgraded watering can). You spend all
XXX your time walking into the seedless area and watering the three seeds
there. This is the least good formation in my opinion.

X X -This is a really dumb formation. It's twice as time consuming as the last
X formation and you get less when you harvest. I only list it because I have
X X seen it suggested in a guide once (I don't know why, but it was there!)

XXX -This is similar to the first formation, but less productive in the end.
X X With this one, you don't get that extra one vegetable at the end of the
XXX season. (Sent in by Thunder Blade Dragon)

If you have a formation that you would like to share, email it to me at
Duenos14@aol.com

-Cheating The Harvest Goddess' Game

NOTE: YOU NEED AN VISUAL BOY ADVANCE EMULATOR(Which is illegal BTW) TO USE THIS TIP!

Save game state (Shift+F1) then guess. If you get it wrong, hit F1 and it will take you back to before you got the answer wrong. Just keep trying until you get it all right. I did that and got really far in the game.

(3. FAQ)

Guide FAQ-

=====

Q. Are you still making that Kingdom Hearts guide that I have heard so much about?

A. No.

=====

Q. How often to you update this guide? (Asked by Nacho_321)

A. I used to update several times a week, but now that the guide has come to an end, maybe once a month. If that.

=====

Q. Why aren't you answering my emails?!

A. Because I let the emails pile up then I answer them all at once. Of course to be fair, I answer the older ones first and make my way to the most recent

ones.

=====
Game FAQ-

Q. How do I get the other houses?

A. There are two ways. One is buying it for 100,000,000g. The other way is staying married for 40 years.

=====
Q. Where did the Winter mine go?!

A. You can only access the Winter mine in the Winter... hence the name. It is surrounded by water in all other seasons. In the winter the water freezes over.

=====
Q. Why can't I find stuff in the mine?

A. Sometimes things dont appear on the level they should. It happens.

=====
Q. Why isn't my doggy an adult?

A. This is a very common question, so don't feel bad if you were wondering the same thing. The adult dog and the puppy pretty much look the same. So check to see if you can buy the frisbee. If you can, it's all grown up.

=====
Q. How do I get the horse?

A. Talk to the guy who owns the cow farm. I forget his name. But once you talk to him, you will get the horse the next day.

=====
Q. What's the vacant lot for?

A. Future site of your vacation house. If you can afford it that is.

=====
Q. How do I know if my dog is grown up yet?

A. It should look a little bit different and you should be able to buy the frisbee and ball.

=====
Q. How do I get the yarn? (Asked by CubeMaster007)

A. You need the Yarn Machine and wool.

=====
Q. How do I get the socks? (Asked by GGoodBear)

A. Become friends with Ellen and give her the yarn.

=====
Q. Why can't I go to the festivals?

A. The festival is the day AFTER someone comes to your house telling you about the festival.

=====
Q. I still can't go to the festival!

A. The festivals start after 10

=====
Q. What is that ladder on the front of my house?

A. Nothing. It's just decoration.

=====
Q. How long does it take for the Pineapples to grow? It's been like forever since I planted them!!!

A. 20 days. You have up until the tenth to buy these things before you will run out of time to grow them. The most you can harvest them is twice. Thats if you plant them within five or so days.

=====
Q. Where do I get the utensils?

A. After you buy the kitchen, the utensils will be available on the Shopping Network.

Harvest Moon: A Wonderful Life

Once you have all of the stuff connected and all that, go to the Goddess' pond (the one near Spring Mine) and throw something in it (food, grass, etc.). The Goddess will appear and ask you if you would like to connect. Obviously, say yes.

NOW...

In AWL, run to the eastern side of the map and head up the mountain path. Nik, Nack, and Flack will say you can't go unless you want to connect. Tell them you want to connect and after some brief instructions, you will be asked to confirm the connection.

(5. Farming Stories)

This is a list of the most hilarious HM stories I could find. If you want to share your story with everyone, email it to me at Duenos14@aol.com I might edit it a little for content, but for the most part it is all yours.

This is also kind of a disaster section, but as we all know, one man's disaster is another man's comedy.

I finally actually bought the gold lumber! And so I put it out on the lawn. Then the next day the townspeople got ticked off and my baby hated me even more. So I took it inside and I thought you could set it down like a basket. So I set it down.
And it fell. On to ground ***thump*** and then it disappeared
All 100,000G of it. I was so sad.

MY COMMENTARY: My dear kkslider, buddy, pal! How could you be so stupid?
lol :)

=====
I started a new game so I could keep track of the girl's Heart Events. I got to winter of the first year and had gathered a ton of info. Guess what... SOME HOW THE FREAK'N SAVED GAME GOT DELETED!!
AGH!!
Good thing I'm a patient dude.

Once I found out about the Sheep Festival, I bought a sheep and decided I would "train" it so it could win the next one. Well I spent a year on my sheep and got it up to 10 hearts!!! But once the festival was here again, I found out that sheered sheep could not enter. I had sheered my sheep two days earlier... Life sucks.

UPDATE! I later re-entered that sheep and won. Now my sheep has P Wool! YAY!

I was watching 'Life on the Farm' once and this is what it said:

"Hey big bro!"

"What is it?"
"It's about what you were telling me yesterday..."
"You mean about the Blue Feather?"
"What happens if a man gives it to another man?"
"Well, there are many kinds of love..."
"....."
"Who do you want to get one from, little sis?"
"From you, of course!"
"Aww..."

I never knew Harvest Moon had 'other' kinds of love in it. :)

MY COMMENTARY: Gay folk in Harvest Moon. Hmm... Now that I think about it, Zack does look a little lonely and desperate. I dunno! lol. Whoa... He's like the only guy that isn't married or doesn't openly like a girl (like Won likes Karen) Ew. NASTY! I think he has a thing for Won... He likes Asians... that's it.

.:AUTHOR'S PICK FOR BEST WRITTEN STORY:.

It starts like this, so it was a nice crisp fall day, as the television forecast says... And I brought seven bags of flour to the sprites home and set them off working... That was going to be my down fall. You see I have 3 sheep with a perfect 10 hearts and I waited all year to enter the contest! So back to the story. I hired 3 of them to take care of my animals... and they did... especially the sheep... cut all the wool. But still I'm not in the funny part yet. LOL! So I already noticed but I already saved. I didn't know exactly which day they cut the wool so I was hoping that my sheep could come through and grow a full coat of wool. And i waited, wished, and dammit. The old guy came... and said TOO BAD. Your sheep can't participate. Still not the funny part yet.... So on the next day, the day of the contest. GUESS WHAT? My sheep grew back all of its wool!!! And I still can't enter cause he supposedly takes my sheep the day B4. I was so mad at the sprites that I never hired them back again!!!!!!!!!! Oh yeah the reason that I hired the sprites in the first place was because of my marriage! What else could I

MY COMMENTARY:

Same exact thing happened to me, minus the grow back the next day thing. I really hate the "sign up for festival the day before thing!"

=====

This time I was just mining and yes I found a pink diamond! I got 2 a very very low level and I ate all the stamina recovery items I had with me and my pack was full with stuff. My face was blue already and I planned to store as many black leaves 4 the next time. So I found a few black leaves and... well when I was trying to store it in my rush sack I accidentally took out the pink diamond.

It was as if it were slow motion. DOWN, DOWN, DOWN, Down, and down! My

I had my filled most of my field with sweet potatoes (the ultimate money makers). And was watering them myself and had some Harvest Sprites

If you get 2222222, obviously you should choose Higher because most likely the next number will be higher.

Here is a really good trick to use if you are using a Visual Boy Advance Emulator:

Save game state (Shift+F1) then guess. If you get it wrong, hit F1 and it will take you back to before you got the answer wrong. Just keep trying until you get it all right. I did that and got really far in the game.

Before you file a complaint (about seeing the guide on a site that isn't listed), take a look at the URL. If you see any part of the above website names in them at all (other than ".com") don't even bother sending me an email about it. If you do, you will get a mean and nasty email calling you all sorts of things.
