- Theory

I think each name on the score board is a member of the Ignition Entertainment staff, except the name's have been (almost) tripled.

And I think I might be right, so yeah, explode with joy or whatever.

------6. FAQ -------

If you have any questions e-mail me (The link is at the bottom and follow The guidelines)

- 1. I don't understand your guide, what do I do!?
- A: Sometimes I might have gone a little bit further, just try to go on with the game, if you still don't know what to do, e-mail me and I値l revise the section(s).
- 2. What's wrong with the graphics?
- A: If you have knowledge of programming then you will probably understand this; if you check the credits they don't have any design team, the only programming language (that comes to mind) that doesn't need any of those fancy designers, just programmers is OpenGL, I've used this before and the graphics look similar (even though OpenGL can do much better).

It's sad really, they should've really got a small design team, at least that way it would look better.

- 3. Why are there 2 names missing in the Scoreboards?
- A: I could never find out who they were, I went through that thing like a million times to get it all, but the last 2 went by too fast for me to see who they were. So call them blanks for now.
