Section 1:Controls

(Coming Soon!)

Section 2:Legend
Very Simple..
Left      =(left) or <-
Right     =(right) or ->
Up        =(up)
Down      =(down)
```

```
L shoulder=L
R shoulder=R

And you should know what (left)+(up) is, it's like diagonal up/left..Yea..
If you still don't get it, (right)+(down) is like diagonal right/down..so there
you have it.

EXAMPLES
"Press <-/->"              <--  It means press either button
"Press <-/-> +  B  +  R"   <--  It means press and hold left/right and B and R

Beginning Instrctions (of the moves list)
(While paddling)           <--  It means while you're paddling..BEFORE YOU'RE
                                 SURFING DUH
(Paddling towards Wave)    <--  It means when youre paddling up to..the..wave.
(Top of wave)              <--  Common sense, it means when you're ON TOP of
                                 the wave, on top of the water!
(Bottom of wave)           <--  Of course it means when you're at the bottom
                                 of the screen
(During a wave)            <--  I guess it means when you're in the middle of
                                 the screen, not entirely sure
(Backwards)                <--  YA! Did you know you could surf backwards?!?!
                                 Of course not, it  mostly means when you land
                                 backwards after doing a trick
(Paddling towards break)   <--  Seriously don't know what this is..emails
                                 welcome..ahem..
(Air)                      <--  Duh..When you're IN THE AIR!!!

If you still don't get it I suggest you do not read any further as it wouldn't
mean anything to you.
