Story:

Source: MOH Underground Instruction Booklet

Europe, 1942. Medal Of Honor Underground tells the story of Manon of the French resistance. Her country has been invaded, and help won't arrive for four long years. So... what's a girl to do? Lead Manon from her beginnings in the resistance through her recruitment by the OSS to thwart the enemy onslaught. Armed with an arsenal of weapons, you battle tanks, half tracks and Gestapo thugs across a wide variety of authentic WWII locations in Europe and North Africa. From the cobblestone streets of Paris to the narrow alleyways of Casablanca, from a doomed Italian monastery to Himmler's dark medieval castle in Germany, undertake challenging missions to outwit and outgun the enemy. Procured weapons, expert stealth and poised trigger finger - you'll need them all to become a seasoned OSS veteran and to return home to take your part in the liberation of your nation.
