1. Intro

Well, on the GS2 boards, I read posts saying that you couldn't input a US password into a JP GS2. Not even with trial and error.

Well, after a little reasearch, it is indeed possible to input a US password into a JP GS2m using a little substitution.

And, I'll be showing you how to do this.

2A. The Password Character Substitution - Comparison Chart

-Japanese Characters

3. Contact

If you have anything to say (suggestions, hosting permission), then contact me at paul<dot>crossman<at>btinternet<dot>com

Anyone who gives corrections, help, etc will have their name put down.

4. Sites

So far, the sites that can host this are:

GameFAQs (www.gamefaqs.com)

5. Update History

-v1.0 Final - (8/06/02 - 19:11)

Nothing to say. Added comparison charts for characters.

6. Legal Stuff

This (small) FAQ is copyright 2002, Mr. UnOrigino. You may use this on your site if you contact me beforehand. This FAQ may not be changed in any fashion. I, as the author, can tell you to take this file down (even if I gave permisson before.)

And no saying you wrote this. =P
