=====
1. Info

Ah... there are many items in I. The guide was made to give anyone reading this (and me @_@) an idea of just what does this item does, or how much does this item heal, yadda, yadda.

So, without further ado...

If corrections are needed, then feel free to e-mail me at
-unorigino<at>hotPOP<dot>com--.

=====
2. Format of Item Listings

Debug Room no. / Japanese / English / GS-US English
Item Description (differs for different types of item)

Please note that the items are in debug room order (for you cheaters out there. And any number skips are separation of types of item in the game, NOT me)

3. The Items

=====
4. Planned Updates

None so far.

=====
5. Contact

If you have anything to say (suggestions, hosting permission), then contact me at --unorigino<at>hotPOP<dot>com--

Anyone who gives corrections, help, etc will have their name put down.

=====
6. Sites

So far, the sites that can host this are:

GameFAQs (www.gamefaqs.com)

NeoSeeker (www.neoseeker.com)

=====
7. Credits

*Skynight for a wealth of info, including item name errors and corrections for unleashes, and pointing out stupid mistakes that make me go "what was I thinking?".

=====
8. Update History

-v1.99 - (4/27/03 - 01:59)

Now, with the release of the TLA ROM, I have managed to add the US names to every item in the guide.

Next up, buy/sell prices.

-v1.95 - (9/22/02 - 18:24)

Corrected some items. That's all for now.

And a new title =P

-v1.9 - (8/28/02 - 13:06)

I've finished listing all the items. I'll post the final update when I can get a grip on the unknown unleashes, etc.

-v1.8 - (8/09/02 - 18:41)

I've finished adding GS items and now I'm getting onto the nitty-gritty, the TLA weapons and armor.

-v1.3 - (8/07/02 - 19:24)

Added stuff in the way of armor, up to Circlets.

-v1.0 - (8/06/02 - 19:11)

Ok then, I added the rest of the GS maces and staffs, and I've updated the info with GS info.

-v0.6 - (7/31/02 - 19:44)

First version. Added some items, plan to add more.
