SECTION 1: INTRODUCTION  
-----

Welcome to my CodeBreaker Guide for Pokemon Fire Red & Leaf Green Versions.  
I have noticed that compared to Action Replay, there are few guides for using  
a Code Breaker with Pokemon Fire Red & Leaf Green. So, I decided to write one  
myself. I hope the many people who have the agonising task of finding useful  
CodeBreaker codes that actually work will find this guide useful.

~~~~~

-----  
SECTION 2: MASTERCODES  
-----

Here are both of the mastercodes for the games! I have discovered that they do  
not always work, and I'm preparing to learn the version 1.1 mastercodes.

The mastercode for the two different games are different, and are both made  
of two two lines of code.

Pokemon Fire Red Mastercode:  
-----

000014D1 000A  
10044EC8 0007

Pokemon Leaf Green Mastercode:  
-----

0000BE99 000A  
1003DAE6 0007

SECTION 3: RNG KILL CODE  
-----

This is a special code that must be activate when using many of the CodeBreaker  
codes for Pokemon Fire Red & Leaf Green.

83005000 61A1  
83005002 0A35

The Instructions to use this code are as follows:

- 1) Activate the RNG code along with any other code that requires its use.
- 2) Load your saved game. <<I recommend you skip the 'Recent Events' section>>

3) Look at your Trainer Card (first screen only). <THEN PRESS B TO RETURN!>  
When back on the Main Menu, press B again to close it. If you press the A  
button to return to the Main Menu, YOUR GAME MAY CRASH!!! Always use B to  
return to the Main Menu.

NOTE: If you skip this step the codes won't work.

4) Press the button combination for the code you want to use.

5) Check it has worked, then SAVE your game and RESET!

-----  
WARNING: This code messes with the RNG in the game. Your game will act very  
weirdly while codes requiring the RNG Kill codes are active. Don't play, just  
use the codes you want to use, Save, then restart without the codes active.  
-----

-----  
SECTION 4A: GENERAL CODES (RNG KILL NEEDED)  
-----

Finally, here they are, some actual cheats!

Please Note: These codes require the use of the RNG code.

Infinite Money: (Button Combination B + START)  
-----

74000130 03F5  
820257BC 423F  
74000130 03F5

<More General Codes Coming Soon>  
-----

-----  
SECTION 4B: GENERAL CODES (RNG KILL NOT NEEDED)  
-----

Please Note: These codes DON'T require the use of the RNG code.

Infinite Game Corner Coins:  
-----

82002DB0 270F

Instructions: Whenever you make a winning on a Game Corner machine, you gain an  
unlimited fill of coins. When your credit reaches 9999, turn the CodeBreaker  
off. This takes a long time, so be warned.

UPDATE:

While waiting for the fill, press start to instantly end it! No more waiting!

Thanks to a Pokemon fan who emailed me this info!

SECTION 5: ITEM MODIFYER CODES  
-----

Please Note: Some of these codes require the use of the RNG code.

Obtain Any Item: (Button Combination B + UP)  
-----

-----  
INSTRUCTIONS  
-----

Once activated, go to your PC and withdraw the Item you selected. Once done, Save your game and then reset it without the codes active. I reccomend you activate this code while standing near a PC, just to be quick and efficient.

You should be able to withdraw as many Items as you want, but don't over do it!

If you must have lots of Items, just use the Item multiply code.

Here is the generic code for creating your Item:

74000130 03BD  
820257C4 XXXX

The 'XXXX' represent the four special digits you must type in to obtain the Item of your choise. Each Item has its own unique four digit code which you must replace the 'XXXX' with. There is a list of Item digits further on in this section.

Multiply Item: (Button Combination B + DOWN)  
-----

This gives you 99 of the Item that is stored in the first slot of your PC.

74000130 037D  
820257C6 0063

Edit Items At Poke Mart: (RNG KILL NOT REQUIRED)  
-----

82003884 XXXX

The 'XXXX' represent the four special digits you must type in to obtain the Item of your choise. Each Item has its own unique four digit code which you must replace the 'XXXX' with. There is a list of Item digits further on in this section.

The item you chose can be bought at a Poke Mart.

It is at the top of the list and will cost you a small amount of money.

NOTE: If you use this code to create the special tickets for getting to Birth Island & Navel Cavern, they won't work. Work is currently under way to get around this. To get to the Islands, just use the 'Island Teleport Codes' found in Section 7. Also, I don't recommend creating Key Items that are exclusive to other games such as the Deven Goods and EIN Files.

SECTION 6: WILD POKEMON MODIFYER CODES  
-----

These codes need their own master codes. They are as follows:

Pokemon Fire Red Mastercode:  
-----

000014D1 000A  
1003dae6 0007

Pokemon Leaf Green Mastercode:  
-----

00000554 000A  
1003dae6 0007

Species Modifier  
-----

83007CEE XXXX

Similar to to the 'Obtain Any Item' code. Your must put the correct digits in place of the 'XXXX' to choose the species you want. There is a Pokemon digit list later in this section.

Level Modifier  
-----

33007CF0 00XX

Simply rplace the 'XX' with the level of the Wild Pokemon you want to appear.

This only works: levels 1-99

SECTION 8: Code Help  
-----

Due to idiots spamming my email, I have removed my email address. But do not fear, you can contact me for help by doing the following:

Visit my Pokemon site, 'Kamex' by typing this in your browser:

[http://www.geocities.com/kamex\\_2005/](http://www.geocities.com/kamex_2005/)

Next, Go to the Pokemon FR & LG Section, and you'll see an option to download Action Replay codes from the menu. Simply go to that page and get the files. I know there isn't an option to download CodeBreaker codes yet, but I hope to upload some files soon.

You don't even need to enter the codes to your AR, use the PC program that came with device to put them in automatically. It's that easy.

You can always contact me by going to Kamex and choosing 'Contact Information'.
