the character with whom you want to play is leading the party. Head all the way right and the Device will beam you into Cyber Space!! ZZAAPPP!!!

Now you are at the level select screen. The levels which have a 'tick' near them can be accessed. You can only access two levels right now. Select your first level.....

Yeah man, Like No Way!!! Ancient Rome????!!! Yep. Thats where you are. This is an easy level with an annoying boss fight. Be prepared, Gladiator'!!

Start by going left. Freeze the Skeleton here and collect the scooby snacks.[You have to collect the number of scooby snacks indicated at the top-left corner of the screen to complete a level]. After that, return to the beginning of the level. Head right this time. Look out for the Skeletons here. Freeze them while you collect the scooby snacks. Jump when the Skeletons throw something at you.

Avoid the door that you encounter and keep on heading right. Collect all the snacks here. You will reach a dead end. Return to the door which I told you to avoid. Enter it.

Go left and collect the snacks. Freeze the Skeleton and return to the door. Head right. Collect all the scooby snacks and freeze the skullys'. You will see a closed gate. Keep on going right and avoid the door which you see. Only enter it after you collect all the snacks in this floor.

After entering the door, head left. Freeze the enemy here. You will see a clue. Grab it. Collect the snacks here and return to the door. Have a look at the number of scooby snacks is left for you to collect(top-left corner of the screen). It should be 0 by now. If not then collect all the scooby snacks on this floor. Head through the far right door.

The last floor. Just head right until you reach a weird structure, which has a box of scooby snacks. Grab it.
'JINKIES IT'S THE CREEPER'!!!!

Boss Fight: The Creeper

Difficulty: Medium

Your first boss fight. Unlike other enemies, you cannot hit him with the B Button. See the cannon-like weapons with those green things? Yeah, that one. Stand near one of those. Don't go too close or you'll waste it. When the Creep comes near you, touch that green thing and BOOM! The cannon fires hitting the Creep(er). If you are low on health collect those Smiley Faces. Keep on hitting the monster and he will go down.

Well, there you go. You completed your first level. Don't be too happy 'cause the next level is not an easy one....

After you complete the COLISEUM, you will be back in the Overworld. Again head into the robotics lab and run to the far right. The Laser Device will ZAAPPP you again. Select your second level.....

Yahoo!! Your' riding a Jet Ski!!! This ones' pretty tough. This level has three lanes.....and use you D-Pad to switch between the lanes. Try to collect all the scooby snacks that you see. Use the rocks as ramps to jump higher.

Avoid the sharks who try to attack you from behind. Also avoid the Water Sprouts that you see. After sometime you will see something flying in the background.... Is it a bird? Is it a plane? No!! It's the Phantom Virus!!!! He'll fire Lightning bolts at you so be careful. Keep on avoiding the Phantom Virus's Bolts and those pesey water creatures and collect the scooby snacks. At the end of the level you will see the scooby snacks box so grab it at any cost!!!! If you fail to acquire it then you have to play the whole level again, buddy.

Alright!! So you managed to beat the level? Good. Now your' back in the overworld. Head into the Computer Lab and collect two more Cyber Cds. After that, get ZAAPPPed by the Laser Device again in the Robotics Lab. Select your next level....

eeWWW!!! I hate this level. YUCK!! This is one of the hardest levels in the game. Your' on your own, matey!! You have to collect more that 120 scooby snacks!! This is a confusing level, with lots of half-naked apemen, throwing bananas at you!! Just climb the trees and keep on collecting the snacks. Jump from tree to tree until you have collected the amount of snacks needed.

After you reach the end of the level, you'll spot a hole on the ground. Fall through it and grab the box of scooby snacks. Time for another boss fight!!!

Boss Fight: The Gator Ghoul

Difficulty: Easy

This boss is a piece of cake. The Gator is very easy to beat if you know what to do. Just jump and avoid the ghoul. Climb on one of the tree branches. When the Gator triggers an earthquake, fall down on the ground along with many stones and coconuts from the tree. Pick up the stones and coconuts and hit the B Button to fire them at him. Repeat the process and you'll kill the beast before you know it.

Hey, way to go!! You are good at this game!!! With three level under your belt, you've got three more to beat!!!

As before, head into the robotics lab and get ZZAAAPPPed again!!!OUCH!

Select your next level....

```

Brrrrr!! It's too cold, man!! I hope your' wearing your blazers!!! Once you enter the level, you'll know that this level is similar to the second one, but much more easier.

You'll be riding your snow mobile and like before, this level has three lanes.

Here are the things which you should avoid:

- ~ Red Flag-Poles
- ~ Blue Flag-Poles
- ~ Snowmen

~ Rolling Snowballs

~ Phantom Virus

What 'Phantom Virus'?? Yep. You read that right. At the end of the level the Phantom Virus will again chase you, firing Lightning Bolts at you. Avoid them.

Keep on collecting the scooby snacks, and don't forget to grab the scooby snacks box at the end of the level!!

Yeah I know, that was fun. Now collect the 2 Cyber Cds which are in the Robotics Lab and get ZZZZAAAAAPPPPed again!!! Seriously, OUCH!!

Select your next level...

First things first. This level is a bit different from the other ones. This lvl. has areas. You need to collect a ticket in each area to progress to the next area. The ticket will only appear if you have collected the required amount of scooby snacks. So lets begin...

AREA 1

Those clown freaks are very annoying. Just freeze them. You have to collect 71 snacks in area 1. Head right and keep on collecting the scooby snacks. Freeze the enemies. When you reach a board with a '\$1' sign, climb it. Jump on the iron beam on the left and jump again to the top iron beam. Now jump on the Star and jump on the top-most iron beam. Freeze the robot here and keep on heading left. Don't forget to collect the snacks!! When you reach the end, you will see a trail of scooby snacks leading down. Just jump down and you will land on a yellow board which has 'DuckShoot' written on it. Jump left onto the HotDog board, watch out for the flying Ghouls. From the HotDog board jump on the blue ledge. Jump again on the other blue ledge. Head to the highest ledge. Collect the scooby snacks. By now you should have collected 71 scooby snacks.

Head left and wait. A gray cloud will come down. Jump on it. It will carry you to another moving cloud. Jump on it. Now jump right onto the platforms made by the clouds. Head right and stand at the edge. Now look for a cloud below you. You can just see a part of it. When it is below you, fall from the platform. You should land on the Moving cloud. If not, then comeback to the cloud-platform and try again.

The moving cloud will take you to another cloud-platform. Jump onto it. Again head right and wait for another cloud. Jump on it. It will take you to another moving cloud. Time your jump and jump onto that cloud. Now fall down and head to the far right part of the level. You will find the ticket. Head right.

AREA 2

Quickly freeze the gaurd. In this area, you have to collect 73 scooby snacks. Head all the way right, collecting snacks and freezing enemies. After you reach a dead end, return to the starting of this area. Jump on the thing which is right next to the ice-cream parlor. Now from there, jump onto the roof of the parlor. Jump in the ledge in front of the 'FunZone' sign. Jump on the ledge above and freeze the robot. Collect the snacks.

Head right and jump on another ledge. Avoid/Freeze the enemies and collect all the scooby snacks here. You should have collected 73 scooby snacks by now. Fall down and head to the far-right-end of the area. Grab the ticket and head right into the next area.
