This guide is of my own words, and therefore is mine. You may not take this guide and say you made it, you may not post it on a site without my permission first, and you may certainly not use this for monetary gain. You are allowed to use this to help while playing and you are allowed to post it on your site, as long as you ask me first. I'm very nice and as long as you ask me nicely first, I will let you. Now that that is cleared up, let's move on. =D

Okay, I won't go into detail about myself, because we all know that's not why you're here. But I feel the need to have to explain why I made a guide for such a simple game.

Well, I like writing guides, but the majority of the games I do have, already have about twenty guides up. (Damn you Final Fantasy and your popularity!) What's the point? So I dug through my games, and found some that don't already have guides up. Secret Agent Barbie was one of them.

And so henceforth, I made a goal, that I would write a game guide for every one of those guideless games. Only problem is... They're little kid games. But a goal is a goal. :3

Hopefully, I'll succeed in actually being useful by making those guides. At least I don't have to compete with anyone to have the better guide. =D So, enjoy this, and please don't get too mad at my not-so good directions. This game is actually a pain in the butt to write a guide for.

| Controls and Menus | A2.0 |

=====

o-----o

| HeadQuarters Menu |

o-----o

(from left to right)

*Training: You can choose from a variety of moves such as climbing and learn how to do it. You get to practice it after it is explained to you.

-Movement: Run with the D-pad and jump with "A"

- Rolling: Press Down on the D-pad and press "A" to begin rolling
- Climbing: Stand in front of a climbable surface and press Up on the D-pad
- Hiding: Whenever in front of a closet-like place, press Up on the D-pad
- Slip Lock: Press Right on the D-pad to move the blue ball
- Stealth Ring: Press "B" to use it
- Smoke Screen: Press "B" to use it
- Wrist Glider: Press "B" when you see the wrist glider icon
- Robot Spy Puppy: Use Left or Right on the D-pad to move him and press "A" to bark
- Short Circuit: Line the arrows up with the square and press "A" to trap it
- Double Catch: Use Up and Down on the D-pad to control the nets to catch the energy balls.

| Tips | A3 01

*Look around everywhere for those Secret Files, if you want the Secret Vault items.

*If you're new to the game, practice in the Training section.

*Take your time. There is no time limit so there is no need to fly through missions.

*As the levels progress, the guards get tougher. Watch out in Italy, the women guards are fast and follow you wherever you go. Robo-puppy = BIG help.

*USE YOUR GADGETS! They're there to help you, so use them. There is no limit, just a few seconds for some of them to reload. Very useful in helping to complete the game!

| Walkthrough | A4.0 |

WARNING: Just because I am nice, I will tell you now that there ARE Spoilers so beware. :3

In this game you play as Barbie, and you have to chase after Camille, who has stolen the Queen's jewels. You have to go through four levels per region, all varying in difficulty. You have to sneak past guards, play mini-games to open locks and doors, and find all the secret files to unlock new items. After the very short opening scene go to the Missions option and to the only place available right now, England.

England	A4.1
Tower Roof	/TR
Difficulty: Easy	*

| Secret Files: 6 |
+-----+

Your first mission starts on the roof of London Tower. You have to get to the other side without being spotted by the guards. Along the way, there are Secret Files in which we need to find, to unlock new items for Barbie.

Once you're free to move, run forward, jumping when needed. When you reach the black box, go to the opening and roll to the end, picking up your first Secret File. In case you didn't know how, press Down on the D-pad then "A" to roll. Roll back and keep heading straight. Roll under the wood boards for Secret File two then go back onto the window and jump onto the wood. There is a guard just ahead of us. You can use either the Stealth Ring or the Smokescreen gadget to get past him unnoticed.

All the way on the ground under the guard is another Secret File. Run forward and up the next ladder, quickly using one of your gadgets to get past the next guard. Before climbing down the ladder, jump straight across to the chicken coop(?) and pick up the Secret File on the roof. Then jump down and roll under it to get one more.

Head straight into the building, jumping and rolling when needed. At the top of the giant ladder, jump to your left and get Secret File number six! Now repeat what you had done, this time heading to the right at the top of the ladder. Mission complete.

You'll be given a password and then asked if you would like to see the new item in the Secret Vault. (If you got all six Secret Files. If not, do not panic. You can repeat a mission as many times as you like.) It's a new outfit!

+-----+
| The Royal Tower | /TRT |
+-----+
| Difficulty: Easy * |
+-----+
| Secret Files: 5 |
+-----+

"Barbie, you need to sneak by the guards and track down Camille. ...And keep a look out for the Secret Files!" -Ken

Head down straight until you come to a deadend. A little sign with "B" is next to the door. Pressing "B" will take you to your first mini-game, Slip Lock. You control a small blue ball and you have to get it to the other side. The pedestals with a cyan line between them, move up and down. You have to get the ball between the pedestals. Touching anything but the cyan lines will make you lose a life. You have four chances before you lose. Even if you do lose you can attempt it again, from the beginning.

Climb up the ladder and roll under the wall. Take a running leap across to your first Secret File. Jump back, using a gadget to hide from the guard. Get the Secret File behind him then head down. On the bottom floor there are two guards so wait a few seconds for your gadget to reload then run past them. Roll under the low floor getting Secret File three then head up the next ladder and down.

Run off the platforms to the bottom and roll to the left to pick up another Secret File. Climb back up and leap to the next platform all the way to the end. Play the mini-game, opening a door below us. Jump to the last platform, picking up your last Secret File. Jumping straight down will take you to two guards and the exit on the right. Mission complete. Your next vault item is

a Secret Car.

```
+-----+  
| London Subway | /LS |  
+-----+  
| Difficulty: Easy * |  
+-----+  
| Secret Files: 5 |  
+-----+
```

"It's a subway train ticket. Camille must be at the station!" -Barbie

Ken warns you that Camille's guards are all along the train, so be careful. Run past the guard and play the mini-game, which has picked up speed, to open the door. There is another guard just outside so quickly get past him and climb up the ladder. Jump to the left picking up your first Secret File then run back up the ladder. Ignore the second ladder, it only leads to a guard and goggles that restore your life if you've been spotted. Slip past the guard patrolling the roof and slip down the third ladder. Secret File number two and a new mini-game are in this room.

In this mini-game you have to catch the bouncing square between the two arrows. You control first the top arrow then the side arrow. Wait until it is right above the square then press "A". Missing will make you lose one life. You get five chances before game over.

Run out and up the ladder, jumping across for your third Secret File. Inside the next car, run up the first ladder and all the way across the roof for your next Secret File. Go all the way back, running past the two guards for your next mini-game. Climb the next ladder and grab the last Secret File of the level.

Run into the next car and straight up the ladder. Drop down into the next car and play your last mini-game. Run all the way right, hiding from the guards until you get to the end. Mission complete. You get another Car in the Secret Vault. Score!

```
+-----+  
| Street Chase | /SC |  
+-----+  
| Difficulty: Easy * |  
+-----+  
| Secret Files: 10 |  
+-----+
```

"There's Camille! I'd better try to catch her." -Barbie

Street Chase is very easy. You're in a car, chasing after Camille. There are ten Secret Files, thrown in various places. All you do is avoid the cars, collect the Secret Files, and catch up to Camille. Pressing left on the D-pad slows your car down, and pressing right speeds you up. Every car that you hit takes a little off of your health. Pretty self-explanatory.

'The boatman tells Barbie, "she said something about 'Imperial Emeralds'." Camille must be off to China!' You get another outfit for this mission.

```

+-----+
```

```
| Difficulty: Medium ** |
+-----+
| Secret Files: 8      |
+-----+
"Barbie, sneak through the city and find Camille's hideout. You can use your
wrist glider gadget to get up onto some of the roofs." -Ken
```

A new area, new gadgets, and new challenges. Head forward and up the ladder. Go left and use your wrist glider to get up onto the next floor. Drop down twice and pick up the first Secret File. You'll have to jump down and reclimb the ladder, repeating what you just did. Now instead of dropping down twice, jump to the next roof and wrist glide across.

Before you climb down the big ladder, call down your Robo-puppy. Robo-puppy is a very useful gadget. He can bark at guards to distract them and lead them away from you. Press "B" to bring him down and "A" to bark. "B" sends him back. There is a guard patrolling by the ladder so distract him and lead him away.

Climb down and scurry up the nearby ladder for goggles, if you need to restore some life. Otherwise run to the third ladder, climbing up another ladder. Jump on the left side straight across to pick up Secret File two. Now we're going to head to the last ladder, all the way on the other side.

Use Robo-puppy to bring both guards to the first ladder you came down then run all the way to the last ladder. Climb up, grabbing Secret File three then (I'm sorry for the run around) head back to the second to last ladder, jumping on to the right side this time. Keep jumping and heading down until you come to another wrist glider. Climb down the small ladder and play the mini-game first.

Now you can wrist glide up, twice, grabbing Secret File four then climb down yet another ladder. You can use either Robo-puppy or be quick and hide in the closets, when you're down. Go up the nearby ladder, jump across and pick up your fifth Secret File.

Jump back down and hide, or stay where you are and pull the guards all the way to the left so you can run unnoticed to the wrist glider. When you get there, press right on the D-pad as you're gliding to make it onto the roof to pick up the sixth Secret File. Do the same thing for the next wrist glide to make it onto the roof to get Secret File number seven. To reach the Secret File under the roof, call your Robo-puppy and send him under there. Jump back to the other roof and climb down the ladder, completing this mission.

```
+-----+-----+
| Secret Hideout | /SH  |
+-----+-----+
| Difficulty: Medium ** |
+-----+
| Secret Files: 5      |
+-----+
"Barbie, Camille has some of our secret files in her hideout. We need you to
find them, but watch out for her guards."
```

Run forward and quickly hide before the guard sees you. When he walks past run out and keep heading right. Play the mini-game and run through the now open door, hiding once again. Call out Robo-puppy and lead him all the way right until you find the second guard patrolling. Distract both of them and lead them away from you.

Run to a stack of boxes, wrist gliding up and collecting goggles. Call Robo-puppy and have him lead the guard as far left as you can get him. Then jump down and climb up the ladder.

Wrist glide, climb up the ladder, and roll twice to get to the next area. Play the mini-game to unlock the door. Go through the open door and to the pile of boxes. There is a guard that patrols this area so be careful. Collect your first Secret File under the platforms. On top of them is another set of goggles.

Call Robo-puppy and send him to the left, where a giant pile of boxes are. There is a Secret File located under the box that only he can get to. Have him collect Secret File two then keep heading further in.

Climb up the ladder and jump up to the top floor. Before you keep going, take a running leap to a small platform on the left and collect Secret File number three. Hide, then call Robo-puppy, leading the guards all the way left so you can run past. Before climbing up the ladder head to the right, watching out for the guard, and jump over the boxes. Send Robo-puppy in there to get Secret File number four.

Head back to the ladder and climb up. Hide when necessary and head left. Robo-puppy can get Secret File number five under the boxes. Jump when needed and head to the mini-game icon at the end of the floor. Climb up the small ladder to get onto the platforms and head back to where you had found Secret File five. Get past the guard and roll under the big block.

Wrist glide up, then roll again. Climb down the ladder and head out. Mission complete! You get another outfit in the Secret Vault.

```
+-----+-----+
| Golden City      | /GC   |
+-----+-----+
| Difficulty: Medium ** |
+-----+
| Secret Files: 8       |
+-----+
"Camille is going to steal the Imperial Emeralds! Barbie must cross the Golden city to stop her!"
```

New guards are introduced: Robotic circles that follow a set path and only see you if you touch them. And a thinner, younger type of guard that wears blue. Watch out for the first Robot guard and run past it when it's in the air. Wrist glide up and jump to the left, collecting your first Secret File. Rewrist glide back up and head down the platforms.

Under the platforms is a guard and another Secret File. You can use Robo-puppy to get the Secret File. Just lead him under it and press "B" to send him back. He'll fly up and collect it. Climb down the ladder and head to the next set of platforms, watching out for another guard.

Here, you can either jump down at the end of the platforms to collect Secret File three, or use Robo-puppy again. Either way, once you have it, jump across. Jump down and roll twice to land on the floor. Send Robo-puppy under the floors you just got off of to collect Secret File four. Climb up the ladder to your right, dodge the Robot guard and head all the way right. On the next platform, climb up the big ladder and play the mini-game. Short Circuit now has two squares flying around, raising its difficulty. Also send Robo-puppy to get your fifth Secret File under the block.

Head back down the ladder, but send Robo-puppy to scout the bottom area. There is a Secret File at the very left end and a guard watching the exit at the right. After you've gotten the Secret File, distract him and head through the doorway, wrist gliding up not once, not twice, but three times. Watch out for the Robot guard and head down the ladder. Another mini-game!

When you're done, head down the ladder and have Robo-puppy pick up the Secret File under the big block to the left. Head out on your right and as you climb the ladder, jump off to pick up your last Secret File. Just climb back up and head out. Mission Complete! You get RSP 3 in the Secret Vault.

```
+-----+-----+
| The Palace | /TP      |
+-----+-----+
| Difficulty: Medium ** |
+-----+-----+
| Secret Files: 9       |
+-----+
"Great, I made it to the Palace! I'd better make sure the guards don't see me." -Barbie
```

Head forward, forward, and hide. Distract the guard and then climb up the ladder. Watch out for the Robot guard and wrist glide across. Make sure to press left on the D-pad to boost your jump. Jump again and get your first Secret File at the end of the platform.

Go alllll the way back this time heading past the guard. Climb up the next ladder and play the mini-game. Head down the right ladder, roll under the box to pick up your second Secret File. Then head back and down the first ladder. Head under the platform where the goggles are and head straight, rolling under more boxes until you reach your third Secret File. Roll all the way back and head up the ladder this time.

Wrist glide up and take a running leap off of the platform. If done correctly you will have gotten two Secret Files. Hide and distract the guard at the other end, then run past. Before wrist gliding, climb down the ladder and play the mini-game and pick up Secret File six. Short Circuit now has three squares flying around.

Now head back and wrist glide across. Watch out for the guard and run past. Jump down and follow the first Robot guard. It will lead you to Secret File Seven. Run back and roll under some boxes with Robot guards. You get a new mini-game.

In this game blue balls will, in turn, go up into the rotating circle and be thrown out. Your job is to use the moving nets on either side to catch them. If you miss you'll have a couple chances to get it before it disappears. Every miss with the balls will make them lose a color, showing how much life they have left before game over. They go in this order: Blue-green-yellow-red. If you miss when it's on red you will lose the game.

Roll back, climb back up the ladder and jump across all the platforms. Jump down and roll under the box to get another mini-game. Roll back and head through the new opening. Climb up the ladder and go to your left. Jump off the highest platform to get your eighth Secret File. Head back and go right this time. Roll under the box to get Secret File number nine then head down the ladder and out. Mission Complete! You get Secret Car 2 in the Secret Vault.

```

"Camille is meeting a scientist named Dr. Crony at the opera tonight. We think he might have stolen the famous Prince's Rubies. Why would he steal jewels?"

-Ken

First off, there is a new guard: the woman. She's smart, fast, and can be a real pain in the butt to shake off. Run straight ahead and hide in the alcove, using Robo-puppy to distract the guard. Play the mini-game (Double Catch) then climb up the ladder. All the way to the left is another mini-game and to the right is a Secret File.

Climb back down the ladder and hide. Send Robo-puppy all the way to the right to pick up Secret File number two. Then use your smokescreen on the female guard and run up the ladder. Run all the way right and jump across to reach the next mini-game.

Jump down and use your smokescreen again, then run right. Use Robo-puppy to pick up the Secret File under the floor by the guard. Grab the fourth Secret File under one of the balconies, then use Robo-puppy to grab the fifth Secret File by the far right ladder.

Climb all the way up then jump all the way left to get your sixth Secret File. Head back and jump across to where the next guard is. Smokescreen your way past her and go down to the bottom floor, grabbing your very last Secret File at the end. Climb back up, head right and past the guard to complete the mission.

"Dr. Crony says, 'I have the Rubies. I'll meet you at the lab in Mexico to run some final tests on the jewel making device.'" You get a water jet for finding all the Secret Files.

```

```

"Dr. Crony is getting away. Barbie, use the hi-tech water jet to follow him and collect the files he dropped." -Ken

Basically just like Street Chase, you're thrown onto a water jet and have to ride around gondolas picking up Secret Files and all the while, trying to catch Dr. Crony. Pressing left on the D-pad slows you down and right speeds you up. Every gondola you hit takes a chunk off of your health meter. You get a Scuba outfit for this one.

```
+-----+
| Fashion District | /FD  |
+-----+
| Difficulty: Medium *** |

| Secret Files: 6       |
+-----+
```

+-----+

"We think Dr. Crony might be in the fashion district. Use the Robot Spy puppy to distract his guards so you can get across the town." - ??? (Yes, I don't know her name :P)

As always, run to the right until you come across a ladder. Wait for the guard's back to be turned then bolt to the left. Grab the two Secret Files and then head back. Climb down the next ladder and watch for the next guard. Send Robo-puppy for the third Secret File under the table. Make sure to jump onto the tables then up until you get to the ladder. Run all the way left and take that running leap to retrieve your fourth Secret File.

Head back to the top ladder and run leap to the right. Smokescreen the guard then climb down the ladder, hiding in the nearby alcove. Use Robo-puppy if you must and run all the way right to the table. Jump/climb your way up, making sure to pick up your fifth Secret File hanging in the air.

Run all the way right, jumping when needed, then drop down. Smokescreen the guard and climb up the ladder. Drop down onto the stripped roof to grab your final Secret File then go back to the top and head to the exit sign. Another mission in the bag. You get a new outfit for all the Secret Files.

| Secret Files: 12 |

+-----+-----+

"The entrance to Dr. Crony's lab is underwater. Put on your special scuba gear and find the entrance. Watch out for the security robots!" -Ken

This is by far my most favourite mission. You use the D-pad to control Barbie's movements. Up for up, down for down, etc. Bare with me for these directions; it's a bit hard to explain this one. So head down then right, up and swim into the little area in the top right corner for your first Secret File. Go under the area and drop down then right, the second Secret File is slightly hidden by the vines.

Go back under the area then head up and all the way right, watching out for the robot guard, magically working underwater. Grab Secret File 3 then go all the way down. Follow the path until you come across two security robots. Get your fourth Secret File in the corner then head up. Go into the third top area to grab another Secret File.

Head back down and once again follow the bottom path. Watch out for the security robot and head up and left to get Secret File six. Go back and follow the top path. At the top, go all the way right past another robot guard and grab your seventh Secret File. Go down and go all the way to the end for another Secret File. Go back a little bit then head up, right, down, then left for Secret File 9.

Go right then up, watching out for the security guard, and get another Secret File. Go down and right until you see a robot guard. Go up past it to find a Secret File hidden in the corner. Go back to where you were and keep going right until you come to the very end. Go down and grab Secret File 12. Now just head up and out.

"Barbie finds the missing jewels. 'There is one jem missing from each Royal Jewel. How strange! What would Camille want with just one gem from each

jewel?"

"Barbie, the jewels all contain a rare gem. Each gem is the only one of its kind in the world. If combined, they would create a hypnotizing light. Imagine if they fell into the wrong hands!"

You get another water jet in the Secret Vault. Almost done now!

```

+-----+
| Secret Files: 6     |
+-----+
```

"Barbie, we need to stop Camille and Dr.Crony before they make the hypnotizing gems. Try to reach the other side of the city and find them." -Ken

First off, run forward and wrist glide up. Jump across and wrist glide again. Before going forward, turn around and jump back down to collect the first Secret File of this mission. Wrist glide back and run forward. Before climbing down the ladder, jump across, roll under the hanging flower box, run past the guard and collect the second Secret File. Go back and climb down both ladders, watching out for the two guards.

Don't bother going under the platforms, there is nothing. Instead jump up all of them, coming to another wrist glide. Press right on the D-pad as you're gliding to reach your third Secret File. Wrist glide again to play a new mini-game, Scanner Ball.

How you play very basic. Just create areas with which the ball can't get into. Don't let the ball touch the line as you are making it or you have to start over. Once you reach the desired amount of space, you win. You can see how much you have to block off on the bottom.

All right, now drop down to the ground, watching out for another two guards. Run straight until you come to a ladder. Hopefully I shouldn't have to tell you to climb it. Jump to the left until you reach the wrist glide. Use it, and when you get to the end of the platform, try to jump across to another platform way on the other side. It holds our fourth Secret File. Once you've gotten it, drop back down and run forward.

Jump up the boxes, wrist glide, then climb down the ladder. Run all the way right until you come to an apparent dead-end. Roll right and you'll pick up another Secret File. Now go back, this time jumping onto the next platform, then the next one. Keep heading right, wrist gliding then jumping left. That's your last Secret File. Go back to the last ladder and climb down it. Head right and... Mission complete! You unlock Horse 2 for the Secret Files.

Barbie overhears Camille. "The device is inside the Aztec pyramid. Soon we can hypnotize anyone. No one can stop us!"

```
+-----+-----+
| Aztec Pyramid | /AP   |
+-----+-----+
|Difficulty: Hard *** |
+-----+
| Secret Files: 8     |
+-----+
```

+-----+
+-----+

"Barbie, this Aztec Pyramid has been updated with the latest security robots.
Good luck!" -???

To start off, there is a glitch on this mission. It says you have to collect 8 Secret Files. But everytime I reach my fourth File, the number changes to 7. In reality, you only have to collect 5 Secret Files to unlock the Vault item.

Start, as usual, by running forward. You'll get a mini-game and once beaten it will open the door. Keep going forward, watch for the guard, roll, and jump up the platforms, eventually coming to a ladder. Climb down it.

Jump off of the platform and roll to your immediate right. There's the first Secret File. Go left, climbing/jumping/wrist gliding when needed. When you are done climbing done all the ladders, go to your left for your Second Secret File. Go back right and do a series of jumps again, but before going past the human guard, roll to the left and pick up Secret File number three.

Climb down the ladder and go left, watching out for two robot guards. When you reach a set of pink boxes, jump down and roll right to pick up your next Secret file. Wrist glide back up, and jump onto the next platform, all the way to the end, where the last Secret File is hidden.

Jump down, climb down the ladder, and turn on your Ring. Run all the way until you come to another mini-game. Run past the guard and mission complete! You get Scuba Outfit 3 for collecting all the Secret Files.

+-----+
| High-Tech Hideaway | /HTH |
+-----+
| Difficulty: Hard **** |
+-----+
| Secret Files: 6 |
+-----+

Run all the way left until you get the option to Wrist Glide left or right. Choose left first. Jump up the two platforms then roll to pick up your first Secret File. Head back and wrist glide right.

Climb down the first ladder, roll to the left and grab Secret File two. Climb back up and climb the second ladder. Roll to the left and jump up all the platforms, watching out for the Robo guards. When you reach the end, climb up the ladder and grab the remaining four Secret Files. Now head all the way back to where the two wrist glides and platforms were.

Wrist glide up, jump right and climb the ladder. Watch out for the Robo guard and play the mini-game. Jump back down to the platform with a wrist glide to the left. Use it, and run to the next wrist glide, eventually coming to a ladder.

Do the usual and jump up the platforms, avoiding Robo guards as you do so. When you get the option to climb down another ladder, ignore it and keep heading right. You'll come to another mini-game, now vamped up. It contains a little ball that, when it touches you, ends up in game over. So avoid it at all costs!

Now head back and climb down the ladder. Watch out for the series of Robo guards! You'll reach the end and mission complete. Only one mission left now.
:) You also get Horse 3 for collecting all the Secret Files.

```
+-----+-----+
| Courtyard Chase | /CC2 |
+-----+-----+
| Difficulty: Easy *      |
+-----+
| Secret Files: 10       |
+-----+
"Stop, Camille! Your evil plan is over!" -Barbie
```

Just like Canal Chase and Street Chase, all you do is chase after her. They stick you on a horse this time, and when an obstacle such as a fence comes up press "A" to jump over it. When you're done collecting all the Secret Files catch Camille and you win the game!!

I won't spoil this by putting up how it ends, just enjoy the ending. You worked hard. (Well... I did at least. xD) :)

=====

| Mini-games | A4.6|

=====

+-----+

| Slip Lock |

+-----+

(Taken from the game's explanation in "Training")

*Use the Control Pad Right to move the blue circle through the gap in the bars. If you can get the blue circle all the way to the far side, the door will open. *practice example* Sometimes, the lock will be found far away from the door. If you don't see a lock right away, take a look around.

+-----+

| Short Circuit |

+-----+

(Taken from the game's explanation in "Training")

*The pointers at the edges of the screen move back and forth by themselves. When a pointer is lined up with the moving square computer chip, press the A Button to send a line out. Try to trap the chip on the line. If the two lines cross through the chip, that chip will be turned off. Turn off all the chips and the doors will unlock. *practice example* Remember that the further you go into the mission, the more difficult it will be to unlock the doors.

+-----+

| Double Catch |

+-----+

(Taken from the game's explanation in "Training")

*Use the Control Pad Up and Down to move the nets on the left and right of the screen up and down. Use the nets to catch the energy balls as they fly out of the security system in the middle. If the energy balls bounce off the sides too many times, they will start flashing then disappear. Once you catch them all, the door will open. *practice example* Remember that the further you go into the mission, the more difficult it will be to unlock the doors.

+-----+

| Scanner Ball |

+-----+

(Taken from the game's explanation in "Training")

*Trap the bouncing scanner ball to open the door. Use the Control Pad to move the arrow around the edge of the screen and the A Button to launch it. If the scanner ball touches the line you are making, you'll have to start over. Blocked off areas turn blue. Match the number at the bottom of the PDA screen by blocking off more sections. *practice example* Remember that the further you go into the mission, the more difficult it will be to unlock the doors.

=====

Section 4

| Version History | A4.7 |

-Started on April 27/09: Finished up to Street Chase

-Added Section 1: Copyright and Controls

-Added Section 4: Version History, Credits and Contact

-April 29/09: Finished up to Secret Hideout

-Added Section 3: Secret Vault Items

-Worked a bit more on the controls

-Added Tips

-May 1/09: Finished up to Opera House

-Added Mini-games

-May 8/09: Finished up to ???

-November 14/09: Dusted off Guide :p

-Added finishing details

-December 3/09: FINALLY got around to fully finishing EVERYthing, including proofreading and checking every detail. :/
