(a) Proper Introduction

-------------------------------------------------------------------------------
With a tremendous amount of pride, I'm please to offer you the
fullest comprehensive Chao Quotes FAQ for the game Sonic the
Hedgehog.

This is my 3rd FAQ, my 1st FAQ is for the game Resident Evil:
Gaiden(a nice GBC game),the 2nd FAQ is Sonic Advance
FAQ/Guide. All of my work can be found on www.gamefaqs.com.

This game, Sonic Advance, marks Sonic's debut on Game Boy Advance.
This is the first portable GBA Sonic game, and I expect to see more
of Sonic titles on GBA.

In this game, there is a mini-game call the "Tiny Chao Garden".

Tiny Chao Garden is where you can raise a Chao, a small cute
creature in the Sonic's world. If you own a Nintendo GC, you can
transfer your Chao to Sonic Adventure 2 Battle and have them
participate in other mini games. If you only own a GBA, then too
bad for you(and for me, I don't have a GC yet).

Q: Can you take care of two or three Chao at the same time?

A: No, you can only own 1 Chao.

```
Q: What is the differences of the different eggs?

A: The only different between 2 eggs are their price, and the
colour of the Chao when they hatch. (Unless the colour of the 2 eggs
are the same...)
----------------------------------------------------------------------
Q:I bought an egg, and I tries to pat it to hatch a Chao, but I can't even
pat it!(the cursor grab the egg instead). I then waited for it to hatch
but after a long wait, nothing happen! What can I do with the egg?

A: The problem is that you already have a Chao! You can't hatch the egg
as long as you have the Chao. you can't do anything to the egg. In other
words, you can only hatch it only if you don't have a Chao(either by getting
rid of your current Chao, or by transferring the Chao to GC. Refer to Ed the
Sloggie's FAQ for more instructions on how to get rid of your current Chao).
After getting rid of the Chao, you can then pat the egg to hatch it.

If you still can't hatch the egg, even if you doesn't have a Chao, then
something is seriously wrong...
