    Adon
===============
Appears in:
Street Fighter, Street Fighter Zero, Street Fighter Zero 2,
      Street Fighter Zero 3

      Before the first Street Fighter Tournament, Adon was a student of the
Muay Thai. His skill proved great and Sagat, Muay Thai master, made him his
apprentice. This didn't last long, for Sagat sent out a challenge announcing
the First Street Fighter Tournament. Adon, being Sagat's apprentice, fought in
the final round against the top challenger, Ryu. Adon was defeated and Ryu went
on to defeat Sagat.

      As a result of his defeat, Sagat turned his back on him and sent him
away. Infuriated, Adon vowed to get revenge. Sagat and Adon battled soon after.
Adon won, because Sagat let him, though Adon was satisfied. Because of his
victory, Adon became the Muay Thai champion. To celebrate he held a tournament.
When the final round was to begin, Adon's opponent was found dead. He learned
that Gouki was responsible.

      Adon left Thailand to find Gouki. But first, Vega appeared and
recruited Adon into Shadowloo. Afterwards, he went out to hunt down Gouki.
Apparently he has been unsuccesful.

==============
    Aprile
==============
Appears in:
Street Fighter Zero 3 (cameo)

        Aprile is one of the thirteen dolls controlled by Vega. She was ordered
to kill Rose, but was defeated. (Rose had been searching for her after
receiving a lead from Aprile's brother about Vega's return.) Rose defeated
Aprile. At this point Aprile must've regained some of her senses for she
participated in the attack on Vega by all of the dolls. In the game she is
represented by Juli in a battle with Rose.

==============
 Balrog (Vega)
==============
Appears in:
Street Fighter 2 (World Warriors), Street Fighter Zero 3

        Balrog was born into a wealthy Spanish family. He enjoyed the
aristocratic lifestyle throughout most of his childhood. However one day his
mother was found murdered. Balrog eventually learned that his father was the
perpetrator, but had no proof. This caused his mind to snap. In order to
become powerful, Balrog began learning ninjitsu from a rogue ninja (probably
Geki).

        When he was of age, Balrog became a bull fighter. He mercilessly
killed all bulls thrown at him. During one such event, Vega saw Balrog's

brutality. Immeadiately following the show, Vega asked Balrog to join
Shadowloo. Balrog accepted and became a hitman of sorts.

        After a year or so, Vega ordered Balrog to find the rogue assasain
Cammy. Balrog went after her. He caught up with her in Europe. After a brief
fight, Cammy was beaten and brought back to Shadowloo HQ. It was at the same
time as the fateful attack by many of the other Street Fighters. As Vega
battled Ryu, Charlie and Guile had the base bombed. During the confussion,
Balrog thought he saw Vega killed. Balrog left and took Cammy with him. He
then dumped her at MI5 headquarters in England.

        Soon after this, Balrog was contacted by Vega. Vega ordered him to
take control of Iberian operations (apparently Vega didn't know what became of
Cammy). Balrog did as much. When the time came for the Second Street Fighter
Tournament, Balrog waited patiently in Spain for the finalists. He was beaten
by an unknown world warrior. After Vega's death, Balrog returned to bull
fighting.

    Birdie
===============
Appears in:
Street Fighter, Street Fighter Zero, Street Fighter Zero 2,
        Street Fighter Zero 3

        An English thug, Birdie was one of the original combatants in the
First Street Fighter Tournament. Birdie made up half of the United Kingdom
team (the other half being Eagle). Losing that fight was no big deal, he'd
lost lots of fights before.

        Birdie began to travel after the tournament. While in Italy, he heard
of a mysterious organization called Shadowloo. Eventually, he found Vega,
their leader, and requested membership. Vega tested him by challenging him to
a fight. Birdie won and was allowed to join Shadowloo. Birdie worked as hired
muscle for Vega a while. However, he began to think that Vega was a weak
leader and that he should lead. This idea was short lived, when Birdie
challenged Vega and relized that their first fight was merely a test. It is
uncertain what became of Birdie after Vega defeated him.

 Blanka (Jimmy)
================
Appears in:
Street Fighter 2 (World Warriors), Street Fighter Zero 3

        After surviving a plane crash in South America, little Jimmy grew up
in the jungle alone. As he tried to etch out an exsistence, his childhood
friend, Dan Hibaki, came to Brazil searching for the neferious Vega. Instead
of finding Vega, Dan found Jimmy, now known as Blanka by the local villagers.
Overjoyed Dan and Jimmy headed out together to find Vega and, hopefully,
destroy Shadowloo once and for all. They found their way to Thailand and into
Shadowloo's main base. Ironically  the base was bombed by Charlie Nash's
squadron while they wandered inside. During the explosion the friends became
seperated.

        Jimmy, thinking Dan dead returned to Brazil and began practicing,
hoping to battle Shadowloo again someday. His chance came when he was invited
to the Second Street Fighter Tournament. Blanka and Dan were eventually
reunited again and Jimmy has gone on to run the Brazil branch of Dan's martial
arts school.

  Cammy White
===============
Appears in:
Super Street Fighter 2 (New Heroes), Street Fighter Zero 2 (Gold),
        Street Fighter Zero 3

        Cammy White is the result of a Shadowloo experiment. Sensing his
possible defeat, Vega had Sotor make a clone of himself (why it's female is
unknown). Vega planned on using Cammy as a new body if his old one was
destroyed. However she began to show signs of individuality. Then on a
mission, Cammy disappeared. Balrog was sent to find her. He eventually did
and brought her back to Vega. But during the attack on Shadowloo HQ, Vega
disappeared with the base.

        Balrog, being attracted to Cammy, but fearing Vega's rage, dumped a
now amnesia strucken Cammy at the front door of MI5's base. Cammy was then
trained as an agent for the British government. Three years later, she was
ordered to infiltrate the Second Street Fighter Tournament. Eventually she
came face-to-face with Vega himself. Vega told Cammy a little about her past.
Cammy didn't believe him and fled the tournament. She has since gone back to
work with her MI5 colleagues.

 Charlie Nash
===============
Appears in:
Street Fighter Zero, Street Fighter Zero 2, Street Fighter Zero 3

        Charlie Nash was a sergeant in the air force when he heard about
Shadowloo. Seems that it's leader, a man named Vega, had plans for world
domination. Nash decided to try and capture him. Along the way, he ran into
Roletto. They fought to a standstill. Soon he also met Chun Li, a woman
looking for Vega as well. Together they caught up with Vega in Brazil. They
battled and appeared to defeat him, but at the last minute Vega escaped in
his private jet. Not to be set back by this, Nash continued his pursuit.

        Meanwhile the Air Force had designated him AWOL and sent his friend
Guile after Nash. As Guile searched for Nash, had discovered Shadowloo HQ and
was heading there. Guile eventually got there as well and beat Nash.
Surprisingly, Guile had called in some bombers to attack the base. Even more
surprising, he asked Nash to help him find Vega. They found Vega in the base
and confronted him. Vega killed Nash there and escaped.

===============
   Chun-Li
===============
```

Appears in:
Street Fighter 2 (World Warriors), Street Fighter Zero, Street Fighter Zero 2, Street Fighter Zero 3, Street Fighter III (Third Strike)

At one point in Chun-Li's life Vega killed her father. Since that day she has devoted her life to training in the martial arts. After searching for the man named Vega for several months (years?) she ran into Charlie Nash. When they realized that they were searching for the same man, they decided to help each other find Vega. Together they caught up with Vega in Brazil. They battled and appeared to defeat him, but at the last minute Vega escaped in his private jet. They seperated and continued the search.

Some time later she recieved word from Nash and was preparing to head for Shadowloo HQ. However Guile arrived to question her. They battled and Chun-Li was defeated. Guile then left after Nash. When he came back, Nash was dead and Vega had escaped (in the body of Rose). Three years passed.

The Second Street Fighter Tournament was set to begin. Chun-Li immeadiately signed up. She made it to the finals and prepared to face Vega. But first she fought Guile, and this time she won. Next she was to finally fight Vega, but before the battle could begin Gouki appeared at Shadowloo Headquarters and killed Vega (destroying his soul this time).

Five more years pass. A mysterious organization announces the Third Street Fighter Tournament. At this same time, someone kidnaps a gifted Chinese girl. Chun Li joins the fights to find this missing girl. She gets a lead from Sir Urien. He agrees to tell her where the girl is if she can beat him (seems he wishes to take on the one who beat Shadowloo). Chun Li emerges victorious and, true to his word, Urien gives the girl to Chun Li. She returns to China and makes the decision to train the children of China in self-defense.

        Does the infamous brother of Gouken need an introduction? The master
of dark power is one of the most feared villians in the entire video game
world! A former Shotokan student, Gouki turned to evil and disappeared
before the First Street Fighter Tournament. Shortly after the tournament,
Akuma began searching the world for worthy opponents. Eventually he found
his master, Gotetsu. Taken by surprise, Gouki finished him off. Then he
dropped in on the Shotokan school. When he left, the school was ruined and
everyone, including his brother, was dead. He then set  his sights on the
two "missing" students Ken and Ryu.

        Gouki waited on an island off the coast of Japan for Ryu. Ryu soon
came and they battled. In the end, Ryu won and Gouki retreated. Gouki began
traveling the world again. The Chinese assasain Gen found him in China. They
fought to a standstill. Three years later, he meets with Gen again. This
time Gouki kills the assasain.

        Afterwards he disappeared. He then resurfaced at the end of the
Second Street Fighter Tournament. After killing Vega before the final
round, he hunted down Ryu. They battled and eventually Gouki was defeated.
Gouki disappeared again after that. Wandering the world again, Oro finds him

The "original" American hero in the Street Fighter universe. Guile was always proud to call himself a friend of Charlie Nash. However when Nash went AWOL, Guile had no choice but to track down his and detain his renegade friend. Along the way, he ran into Chun Li who tried to stop him. Guile emerged victorious and continued on the Shadowloo's base. There he fought Nash and then decided to help him find Vega. Guile ordered the base bombed in an attempt to flush out Vega. Vega came out and battled both of them. In the fight, Nash and Guile were seperated. It was later found out that Vega killed Nash. Three years passed.

Vega announced the Second Street Fighter Tournament and Guile was one of the first to enter. In the end, both Guile and Chun Li made it to the final round. Vega was, of course, there too. This time, Chun Li took down Guile and faced Vega. Chun Li defeated (and probaby killed) Vega. Guile then vanishes from the story.         Guy claims to practice Bushin. His master is Zeku. As Guy trained, Zeku saw that the "evil intent" was showing signs of appearing. As such, Genryusai warned Guy against it and then sent him away.

        Guy is a good friend of Mayor Haggar. After leaving his master, he travelled to Metro City. Upon arriving Jessica (Haggar's daughter) was kidnapped by the Mad Gear Gang. Guy went after Mad Gear with Cody and Haggar. Together they took the gang down. However, both Roletto and Sodom remember

what he did, and plotted revenge.

        When both Sodom and Roletto began looking for new Mad Gear recruits,
Guy went after them. He caught up with Sodom in the American desert. While he
was doing this, Retu kidnapped Genryusai and Rena, his girlfriend. Guy
returned to Metro City, but was unable to help because Haggar had already
gone off in search of them. Guy did however find Roletto. They fought and Guy
came out victorious.

        When Haggar returned, Guy once again began travelling the world. His
friend Cody however, had been arrested. Cody was put in prison, but soon
escaped. Guy eventually tracked Cody down and confronted him. Cody blew Guy
off and they battled. Guy beat Cody, but decided to let him escape. In
Thailand, Guy began searching for the woman named Rose. He found here almost
dead outside Shadowloo HQ. He brought her to safety and then continued his
journey.

        Returning to Metro City once again, Guy found the city in the
clutches of the Skull Cross Gang. With the help of Haggar, Lucia, and Dean,
they tracked down Skull Cross's leader, Black, and defeated him.

Appears in:

        Kyosuke does not actually appear in Street Fighter Zero 3 Upper,
however when the game was first announced there was some discussion about
him on the Crawfish boards. It was stated there that Capcom did not ask for
Kyosuke to be included, although there were rumors that he would be since

Eagle, Maki, and Yun.

Kyosuke hails from Taiyou Gakuen High School. Together with Batsu Ichimonji, Hinata Wakaba, and Ran Hibiki he began investigating the disappearances surrounding the appearance of Justice High School. Battling through the high schools of Japan, the group eventually confronted Hyo Imawano, the student behind the disappearances. Justice High School engaged in kidnapping in order to try and secure the best and brightest students to use in their plan to restore Japan to it's pre-democracy state. The students there have been brainwashed into executing a diabolical plan to take over all of Japan and form a military dictatorship. Using the power of love and friendship they manage to counteract the brainwashing and return the school to normal.

A year passes and more trouble arises. A new organization, the Darkside Student Council, appears with the intent of carrying out the former mission of Justice High School. A new villan, Kurow Kirishima, is behind this ressurgence. Once more the best students Japan has to offer square off once more...

Instead she found Mike Haggar. He immeadiately agreed to help her find Retu. Together with Carlos, they searched the world for Retu. They ran into Roletto in Italy, who told them Retu was in Japan. They travelled there and found Retu atop a dojo. The battle began and, in the end, Maki kicked Retu and sent him through the paper wall. He plunged to his death. Thanking Haggar, she went home with Rena and Genryusai.

A few years later, Maki set off on another journey. She began searching for Guy, having not seen him since before Retu's defeat. She did eventually find him, and presumably convinced him to return home.

Mike used to be a heavyweight boxer. He learned the hard way that cheating will damage one's professional career. After being kicked out of professional boxing, Mike Bison worked with Joe in the First Street Fighter Tournament. Afterwards he was approached by Vega. Vega asked if he would like to join Shadowloo and make lots of money. Mike thought this was a good idea and oversaw the Shadowloo gambling rackets in Las Vegas.

Life was good until one day when a man named Fei Long arrived at Mike's favorite casino. Impressed by Fei Long's skill, Mike decided to recruit Fei Long. When he asked Fei Long to join Shadowloo, Fei Long said he would never join a gang of evil criminals like Shadowloo. Upset, to say the least, Mike attacked Fei Long and was defeated. The next he heard of Fei Long was his acceptance speach at the most respected movie award ceremony on the planet (a movie had been made about Fei Long's run-ins with Shadowloo).

Humiliated, Mike went back to running his casinos, until Vega "requested" that he participate in the Second Street Fighter Tournament. He was defeated before any of the other so-called "Lords of Shadowloo." His final fate, however, remains unknown.

Witnessing the horror of war, and then seeing that his country cared little for "losers," Roletto realized that the United States needed reform. To fulfill his dream, Roletto joined Mad Gear Gang thinking they would be the catalysts for a new country. Helping to subdue Metro City, Roletto set up his headquarters in an abandoned construction site. Then Haggar was elected mayor. As Haggar and company ripped through town, Roletto dug in. When they arrived at his home turf, Roletto anbushed them. However Haggar, Cody, and Guy fought back and beat his men. Roletto then attacked. He engaged Guy in combat, but was beaten.

        Belgar was killed soon after. As the gang regrouped, Roletto went after Guy. He searched the world for him, but they ended up meeting back in Metro City. They fought and again Roletto was beaten. Fleeing to Italy he was contacted by Retu, Mad Gear's new leader. He agreed to try and hold of Haggar and his new allies for Retu (who had kidnapped Reni and Genryusai). Roletto battled Haggar, Maki and Carlos atop a building. After a long fight, Roletto fell to the ground defeated. He told Haggar where Retu was and, taking advantage of Haggar's shock, escaped capture.

        Rolleto returned to Metro City and tried to take over Mad Gear. However, the ressurection of Belgar and the traitorous actions of El Gado foiled his plans. After defeating El Gado, he left town. He then met up with Sodom. They fought and Roletto won. Bound by honor, Sodom swore loyalty to

Roletto. They have since been compiling their forces, planning a new attack
upon the country.

        The mysterious mystic Rose is believed to originate from Italy. She
apparently once aided Vega, but has since beem ordered by her masters to hunt
him down and kill him. Rose searched for Vega all over the world. She
eventually learned his whereabouts and confronted him. They fought, and it

appeared that Vega had died. However she soon discovered this was not the case...

        A man named Thunder Hawk came to her seeking help. He told a story of how Shadowloo had kidnapped his sister, Aprile, and explained that the man behind this was Vega. Shocked by this, Rose set out once more.

        Rose began looking for Vega harder after that incident. As she searched, she met Ryu. Rose realized that Vega would search for Ryu and tried to stop Ryu's travels. She was beaten but warned Ryu about "that man." Ryu didn't understand and left. Rose continued on to Italy and faced Vega. Vega defeated and (apparently) left her for dead. However, Guy found her and saved her life. It was not learned until much later that Rose's body had in fact been possessed by the soul of Vega...

Appears in:
Street Fighter, Street Fighter 2 (World Warriors), Street Fighter Zero,
        Street Fighter Zero 2, Street Fighter Zero 3,
        Street Fighter III (The New Generation)

Ryu is the perpetual wanderer and hero of the Street Fighter franchise, appearing in every incarnation of the series (except Rival Schools and Final Fight). His name is synonmous with the franchise itself.

Ryu began as a student training under Gouken, master of Shotokan. He was an orphan and thus spent his entire life in training. In these days he befriended Ken Masters. After much training together they decided to enter the First Street Fighter Tournament being held by Victor Sagat, the Muay Thai Champion. They battled through the matches together, but in the end it was Ryu who faced the mighty Sagat. Sagat had the upperhand, but for a brief moment Ryu gave into the Dark Hadou and defeated him with a Dragon Uppercut, scarring Sagat's chest. Shocked by his weakness he left Sagat and returned to Japan to see his master. While he was gone, however, Gouki, the brother of Gouken, had returned and murdered his master and the entire Shotokan school. Unsure what to do, but wishing to avenge his fallen master, he set out to travel the world and increase his strength so he could one day face Gouki.

He met many famous warriors on his journey, but none could prepare him for "that man" who sought after him everywhere he went. From the shadows Vega had been watching Ryu, waiting for the opportunity to recruit him into his ranks. Finally that day came in Thailand at Shadowloo Headquarters. Vega offered Ryu a place in his organization, but Ryu refused. Unconcerned, Vega engaged Ryu and defeated him. At this moment, unsure of how to survive, Ryu gave in to the Dark Hadou again. In his evil state he was an easy target for Vega who brought the now dark warrior into his fold with ease. As Vega was gloating, however, Ken, Sagat, and Sakura arrived and attacked the leader of Shadowloo. As the battle raged they called to Ryu and eventually brought him out of his trance. Ryu, returned to normal, attacked Vega as well. They fought for some time, but in the end he was repulsed and forced to flee. Shortly later Vega was killed and the world seemed at peace.

It was not to last though, for Vega, ressurected in Rose's body, reappeared and put on the Second Street Fighter Tournament. Ryu entered the tournament and worked his way up, eventually facing Sagat again. Together they dropped out of the tournament and had a fair fight ending with Ryu's victory. At this point Gouki appeared and attacked Ryu. Having learned from his travels Ryu fought Gouki long and hard, defeating the dark warrior and sending him packing. Ryu then continued his travels.

When Gill announced the Third Street Fighter Tournament Ryu entered, but not for glory. Instead he wished to see the fighting styles of the new generation. In battle he faced many of these faces, including Yun, Alex, and Remy. Where he's gone now is not known, but he most likely is continuing his journey to become the greatest warrior.

        Victor Sagat was a gifted Muay Thai student. He trained long and hard.
In fact he trained so hard that he almost lost sight in one eye during
practice. This was a small detourent though, for he defeated the Muay Thai
Champion and became the greatest fighter in Thailand. Go Hibiki came to Sagat
and challenged him to a match after that. Go took advantage of Sagat's bad eye
in the fight. As it drug on, Go leaped forward and plucked out Sagat's bad eye.
Enraged, Sagat killed Go.

        Sagat then took an apprentice, Adon. After extensive training he
called the First Street Fighter Tournament. Two young Shotokan students, Ken
and Ryu, made it to the finals to face him. Sagat decided to battle Ryu. They
fought a long battle. In the end, Ryu used a dragon punch to defeat Sagat and
scare his chest.

        Humiliated by his defeat, Sagat sent Adon away and isolated himself.
Vega came to him and asked Sagat to join Shadowloo. Sagat didn't want any part
of a criminal organization, but Vega offered him a chance tto find Ryu. Sagat
agreed on that matter to help Vega. Adon came with Vega and fought Sagat. Sagat
let him win, to appease Adon. He did the same for Dan Hibiki when he came to

fight Sagat. Sagat then found Ryu and they fought. This time Sagat won. He then
left Shadowloo.

        One year later, Vega captured Ryu. Vega planned on using Ryu to conquer
the world. Vega had awakend the "evil intent" in Ryu. With the help of Sakura
and Ken, they managed to stop Vega and free Ryu. Vega escaped into his HQ, but
Sagat didn't have time to chase him. Instead he helped get Ryu to safety.

        Three years pass. The Second Street Fighter Tournament is held. Sagat
joins to fight Ryu once more and reclaim his title. In the semi-finals, Ryu and
Sagat battled. It is unknown what happened, but neither of the warriors fought
for the duration of the tournament. Sagat now waits in Thailand for worthy

        Sakura Kasugano attended middle school in Japan. While there, she
became a fan of the fighter Ryu. Sakura tried to emulate him. Her best friend,
Kei Chitose, warned her against involving herself with those type of people,
but Sakura persisted. She eventually went looking for her hero. She actually
managed to find him, and got a picture! She then asked Ryu to train her, but
he did not have the time.

        Soon after this, Sakura met Dan Hibiki. Dan convinced her to train in
the art of Saikyo. She studied hard in this. She even had a chance to test her
skills when Karin Kanzuki challenged her to a match on her yacht. She accepted
and they fought. It still is unclear as to who won. After this match, Sakura
travelled to Thailand to prove herself to Ryu. She found Ryu as he was
changing into Evil Ryu. Together with Ken and Sagat, they managed to stop Vega
from using Ryu to further his goals.

        The years went by and Sakura progressed through school. During her
senior year, other students began to disappear throughout town. Sakura
investigated the disturbances, but was too late to fully unraval the mystery.

this "weakness." But he knew the truth. And being a samurai didn't pay much.
This fact forced him to join Mad Gear. Soon he was a high-level gang member.
This ended though when Mayor Haggar thrashed him and his cronies.

        With Mad Gear's first defeat, Sodom fled Metro City. When he heard
that Guy was traveling the world, he went searching for him. He did manage to
find Guy, but was beaten again. He then went back to Metro City.

        Sodom played a little part in the events after Belgar's ressurection,
but he did nothing major. Afterwards though, he met up with Rolletto. They

 Vega (Bison)
===============
Appear in:
Street Fighter 2 (World Warriors), Street Fighter Zero, Street Fighter Zero 2,
        Street Fighter Zero 3

        Vega was the mysterious leader of Shadowloo before it's destruction.
When he was young, he trained with two other students under an evil master.
Vega learned to harness the mysterious psycho power. Using this power, Vega
thought he could rule the world. At about this time he met a woman named Rose.
Their exact relationship though remains a mystery.

        Vega left his master and formed Shadowloo. He then set out to recruit
warriors into his organization. First he found the scientist Senoh, then the
Muay Thai champ Adon, Birdie the English thug followed, then boxing's bad boy
Mike Bison, and lastly Balrog the conquistador. Vega then heard about a man
named Ryu. This man had bested Sagat, the great Muay Thai warrior. He inquired
about Ryu. This led him to Sagat. Sagat refused to join a group of criminals,
but did agree to help find Ryu.

        To further extend his influence, Vega captured twelve girls from around
the world. He had them all trained to be killers. At this time Senoh perfected
the psycho drive. Ready to strike, Vega suddenly made a strange request. He
needed a clone of sorts. Senoh pulled this off and created Cammy. She soon
broke loose though. Vega sent Balrog to find her. As this was going on, Chun-Li,
Charlie Nash, and Rose were searching for him. Vega met all three in turn and
quickly defeated them.

        Vega then set his sights back on Ryu. He lured Ryu to Shadowloo HQ in
Thailand. As Ryu arrived, so did Ken Masters, Sakura Kasugano, and Victor
Sagat. To make matters worse, T. Hawk, E. Honda, Zangief, Blanka, and Dan came
seperately too. Ken was first to see Vega. Vega captured him and waited for
Ryu. T. Hawk came next, but Vega couldn't be bothered. He sent one of his dolls
after him. Ryu finally came after that. Vega fought him and managed to release
the dark hadou in Ryu. Ryu went berserk. As Vega gloated, Sagat, Sakura, and
Ken cornered him. Vega sent Ryu at them. Together they repulsed him and knock
him back to his senses. Vega then attacked, but was repulsed.

        Vega fled into his base. Inside, Birdie attacked him. He was
dispatched. Next Rose came Vega almost killed her, but Guy managed to pull
her out of the base. Lastly Guile and Charlie Nash arrived. Nash attacked
and was killed. Guile ordered the base bombed. Vega (now in the body of Rose)
was carried away by Guy as the place went up in flames.

Three years passed. Vega was only able to find Mike Bison and Balrog
of his former henchmen. Still after Ryu, he announced that the Second Street
Fighter Tournament would be held. From all over warriors came. Among them were
Guile, Chun-Li, Cammy, Sagat, Ken, and Ryu. As the fights raged on, Ryu and
Sagat disappeared. In the end, Chun Li and Guile faced off in the finals.
Chun-Li was victorious and was to take on Vega, but as the final round was to
begin Gouki suddenly appeared and killed Vega, destroying his soul.

He trained to fight so he could help bolster the Union's image. An example,
Zangief was once picked up by a cyclone while training and was inspired to

        To prove his loyalty to the Soviet Union, he faced many fighters from
