down therethe culprits must be hiding at the docks. I must act quickly, before they bypass the security systems - if they master the suit, there will be no stopping them! Time to get this show on the road!

Iron Man: My cousin

Morgan Stark! He must have been the one who stole the

armor.

It looks like he

was busy cracking the

security codes...

Oh no! He's uploaded the armor's system

data to another

location via satellite

link-up!

If the recipients decode the data they will be able to turn my own armor against me, or even reverse engineer the design and manufacture armored creations on their

own!

Looking at this computer, it appears that the satellite was aimed at a location in a nearby

mountain range...

Iron Man: This welcome party wasn't
 put here just for my benefit.
 Looks like I've stumbled
 across someone's secret
 robot army, hidden in
 these woods!

An operation of this scale is way out of Morgan's leaguehe must have been mixed up in something much bigger than I originally thought.

\*\*\*\*\*\*\*\*\*\*\*\*

Iron Man: Blizzard! The cowardly
 villain has fled now that
 I've destroyed his
 forest army.
 He must know the

location of the datatime to ask him some tough questions.

\*\*\*\*\*\*\*\*\*\*

Blizzard: Ahh, the tin man - always trying to spoil my fun!
Well. you may have discovered our gathering army, but that is merely the tip of the iceberg...
With the data we uploaded from your armor, we will be able to build another army, which even you will be powerless to stop!

Iron Man: Well, I'm here to make
 sure things don't get
 that far. I've defeated
 you before, Blizzard,
 and I will do it again.

Iron Man: It looks
 like you
 led me
 right to
 the back

door,
Blizzard.
Time to
find the
mastermind
behind
this and

ensure the stolen data is

never used.

I vowed to stay out of the weapon building business and I'll never allow someone else to build them with my technology!

\*\*\*\*\*\*\*\*\*\*\*

your schemes.

Crimson Dynamo: You took your time,

Iron Man, but I'm afraid

you are too late-

I have already made good use of the suit data I uploaded to these

databanks!

Crimson Dynamo: Hah! You will not find me as easy to defeat as my lackey, Blizzard! I have used the data to calibrate

my armor so it now absorbs the energy from your repulsor weapons. Your attacks will only make me more powerful!

Hahahaha...

Iron Man: If he's right, that will
 make him nearly

invincible.

I need to think my way

out of this one! He must have some

weakness...

Iron Man: The energy released from
Crimson Dynamo's
overloaded armor is
triggering explosions
throughout the tower!
All that electrical energy
will have wiped any

information stored within the tower's databanks.

Now Iron Man's secrets are safe once again!
Time to return home and tighten security so that my armor never falls into the wrong hands again.
I averted this disaster, but next time could be a different story...
