Bugs/"features"

Poser - They spell it "poseur"!

Congrats - When you get the gold in Tourny 2 you get a congratulations message. But when you get 100% goals in the tourney you get it AGAIN.

Utilities - On page 38 of the manual there is a section on Program Utilities that talks about how if you use the map editor you are not allowed to sell your maps. Guesses are that either: this will be a feature for

connecting to GameCube (doubtful), there WAS a map editor that didn't make it into the final game

(maybe), or that this is just standard Activision (probably).

Bouncy - If you turn on kid mode and hit the edge of a pool parallel with its rim you will continue to bounce around for a long, long, long time.
