

Hangar, and get all the cash. Since there is a sort of divide in this level, I will name the sections A and B. B is the section you start in.

The goal difficulties are out of 5 compared to the LEVEL in general, not the game. That means that 5/5 is hard for this level, but in a later level, it might only be 2/5.

Goal: High Score - 10,000

Cash: \$100

Description: Get 10,000 points.

Difficulty: 1/5

How To: This is easy. Just do some good combos over the halfpipe, and you'll have 10,000 points in no time.

Goal: Pro Score - 25,000

Cash: \$200

Description: Get 25,000 points.

Difficulty: 2/5

How To: This is basically the same as above. Utilise the rail going the whole way around to get a good score. Also keep in mind the more you use a trick, the less points you get.

Goal: Sick Score - 75,000

Cash: \$500

Description: Get 75,000 points.

Difficulty: 4/5

How To: Once again, you have to get a certain number of points. 75,000 is a high score for beginners, but as you get better at the game, it's a breeze. Be sure to link all your tricks using manuals (press up, down) to get high combos.

Goal: Collect S-K-A-T-E

Cash: \$150

Description: Collect each of the letters S, K, A, T, and E.

Difficulty: 2/5

How To: Here's where to find the letters...

S: Over the furthest left rail over the halfpipe.

K: From where you start, go straight ahead to the oppsite ramp.

A: Up the ramp on the plane.

T: Over the divide between the two areas. Get up high on the ramp.

E: At the very left end of the area. Grind the whole way around for an easy route to it.

Goal: Barrel Hunt

Cash: \$150

Description: Find and knock over the 5 barrels.

Difficulty: 1/5

How To: All you have to do is skate into them. It couldn't be easier. Here are the locations of the 5 barrels.

1. Go left from where you start.

2. When you jump over the halfpipe, it's there.
3. In the Halfpipe.
4. At the far left of A.
5. As you jump from B to A to get the 'T' in SKATE, you'll see it.

+-----
Goal: Collect 5 Pilot Wings

Cash: \$250

Description: Find the 5 Pilot Wings. Pretty much like the SKATE letters.

Difficulty: 3/5

How To: Here's where to find the Pilot Wings...

1. Over where you start. Jump from one ramp to the other to get it.
2. Jump over the right of the halfpipe.
3. At the left of B, just over the black rail.
4. Go up the ramp at the right of A.
5. Over the divide between A and B, at the opposite side to the 'T'.

+-----
Goal: Nosegrind Over the Pipe

Cash: \$150

Description: Do a Nosegrind on the rails going over the halfpipe.

Difficulty: 1/5

How To: It couldn't be any easier. Just grind across the halfpipe using a nosegrind (up + A).

+-----
Goal: Hit 3 Hangtime Gaps

Cash: \$150

Description: Jump over 3 selected gaps.

Difficulty: 4/5

How To: To do this, you have to get over the selected gaps. it is advisable to do a grab trick while doing it, as it give you more speed. So here are the three gaps you have to jump...

1. This one is the easiest of the three. You will probably do this one without meaning to. For this gap, you jump over the halfpipe in B.
2. This one might actually be easier...heh...for this one, all you have to do is gpo up the ramp over the plane in B. It's easy.
3. The easiness of the other two is made up by the hardness of this. It's **very** hard. For this gap, you have to jump over the gap in A with the helicopter in the middle. Yu can't grind the helicopter. You have to get straight over. You need a **lot** of speed for this, so keep doing grab tricks until you think you have enough speed to get over. Be persistent, and you will get it.

+-----
Goal: Find The Secret Tape

Cash: \$150

Description: Find the Secret Tape.

Difficulty: 3/5

How To: To get the secret tape, you must first get to the secret area. To get there, grind on the fan at the right of the halpipe in B. The entrance to the secret area is at the complete opposite end in A. You will see an arrow flating above the ramp there. That is the entrance, although sometimes it can be tricky to get in there. You have to time it so that when you let go of B, you are jumping forward, not upward.

Once in, the secret tape is right above you. To get it, build up some speed, and then jump frm the big ramp across to the smaller ramp. You shuld get the tape in the process.
