I thought I'd write this guide for everyone out there who needs a checklist of some sort to figure out what they have / don't have in the game.

The guide also has info about how much everything can be sold to Nooky for.

Have fun! :)

PS: FYI, I wrote most of this guide in Java, making an easy Object structure of fossil, fish, bug, and painting objects. If you are interested in seeing it, PM me.
Respe't.
