 When i write "Juggle combos" i mean combos you can do while your opponent is in the air. When i write "Juggle Possibilities" i mean what combos you can use to hit your opponent into the air making it possible to continue with another combo afterwards. If you find any misstakes, problems in this guide or have a better combo for any of the characters, please email me at salmanlf@gmail.com Version 1.0 Guide is created and published on gamefaqs.com Version 1.1 Added Sasuke with Sharingan Here is the list of characters: 1.
