1. Introduction I

Hello my name is Dog-Food-Gon-Bad and I'm here to tell you about Pac-man world 2! It's a fun game but not my favorite. My favorite game for Game cube or computer would probably be star wars Rogue Leader 2. I made an F-A-Q about it on this site. Just go to star wars rogue squadron and hit "Star Wars Rogue Squadron Rogue Leader II". My walkthrough is of course by Dog-Food-Gon-Bad.

First off you'll need to read this entire guide for ALL the information on this game. When I posted this guide there was only one or two guides about this Pac-man thing so I wanted to make a guide!

This guide one of my shortest and it's not a joke. This guide is to be used for gaming and video purposes only NOT on other off topic sites like "worst Walkthroughs ever" sites etc.

Thank you and treat you're permission to use my E-mail address properly by not sending Spam, junk mail, or other off topic things. Once again, thank you!

2. The Pac-People II

The Pac-people lived peaceful lives until the evil lord spooky came to attack their town!

Pac man defeated him and his army and the spooky lord was sealed away forever.

One night about a year later a group of ghosts came!

The ghost tribe wanted to advance their strength and to do that they must have the golden fruit that the Pac people had stored in their magical tree.

The fruit was what gave the tree its magic ability to hold any thing

and to make its owners strong!

When spooky lord was defeated he was then trapped inside the tree and everything was peaceful again.

The ghosts creped into the village being very quiet and plucked off all the golden fruit from the tree making the tree powerless.

The spooky lord returned and made the ghosts his followers.

They disappeared and in order to transfer all of the golden fruit to spooky, each fruit would have to travel in the canyon, through the forest, over the mountain, into the volcano, under the sea in a submarine & across to spooky's Isle.

There he would control the world!

It's up to you to stop him from his plot to use the fruit.

BOSS F-A-Q

4. BOSS/walkthrough IV

This boss walkthrough goes through Pinky's and that's it...
I'm working on the rest as we speak! (That makes no sense)

Just wanted you to know!

1. Blinky's killer frog

Speech 1: Pac-man?!?

Speech 2: Spooky says ya can't have that golden fruit thingy.

Speech 3: My big froggie tongue should get ya!

Speech 4: As long as you don't butt-bounce on it~

Start: First move forward A.S.A.P (as soon as possible) then turn and look at the fence thing with a ball on the end that comes out of his mouth (supposedly the froggie tongue), then get in front of him again. He will jump towards you and you'll fall back. Now start butt bouncing on the ground around the edge of the circle that is the battlefield until he shoots the tongue out. Butt-bounce on it and then move left around the circle still butt-bouncing. When he turns his head

all the way so he can look at you then butt-bounce back to be you started from. He will then jump across the circle so you have a good distance between him and you. Move to the left or right and when you hear the ding, ding, ding of his tongue then butt-bounce staying in one place all the time. He will stick his tongue out to the left or right of you and still stay in one place because he's going to move it towards you and poke someone's eye out! Still butt-bounce and if you got the butt-bounce just right you will hit his moving froggie tongue! Now he will be very angry and jump right up to you for a little greeting of. A foggie tongue! This is some sort of glitch that really works, press hard up to the invisible wall that are the boundary's of the battlefield. This may not work for you if you have a PS2 but on my system the froggie tongue doesn't come out, instead he jumps above you're head and then it will count as a hit! So he starts to talk.

Speech 5: My big froggie tongue!

Speech 6: Ill get ya with something that can't break!

Speech 7: Let's see how ya deal with steel!

Speech 8: And don't even think about rev rolling

Pac-man speech 1: (What's that glowing thing in his mouth?)

Immediately he will shoot his tongue at you move to the left and start to but bounce then he'll shoot out the metal tongue! Butt-bounce onto it and then start to rev roll. Aim you're rev roll at the glowing thing in his mouth and let go! If you miss you get hurt badly if you get it correctly it will hurt him! Go all the way to the back of the field and to frog will jump ALL the way over to the other side of the field. The when you hear the ding, ding, ding of his bell butt-bounce to the right get onto it, rev roll and he gets hurt again. If collapses you beat him if he doesn't then wait till he dose it again and then rev roll his mouth. You get the golden cherrys!

2. Inky's blade-O-matic

Speech 1: Come for the golden fruit Pac-man?

Speech 2: Spooky wanted me to think of a good cut-down if you ever got to me.

Speech 3: I think my saw blades should do the trick!

Pac-man speech 1: Hmmm. That contraption doesn't look very strong.

Pac man speech 1: Some Rev-rolls into the body or some butt-bounces on the glass should do the trick.

This guy is a lot harder than the last but he still has more than one weak point giving us an advantage! The boss looks for where you attack him and then he will start to go hard on you. The two ways as Pac-man said are to crush his cockpit or rev roll on him. If you rev roll on him the game will look for you on the ground but if you switch back and fourth then it's a little more fun and it gives you an advantage! So any-way start of by moving forward onto the platform with the spinning health wedge. If you can, hop onto the bouncy thing and you'll have a less chance of getting hit by his saw blades when you're farther away. Wait there until he moves in front of the tree you're standing on! Now butt-bounce the bouncy thing and you'll fly directly over his head. Now as fast as you can press and hold the A button until you fall and hit the glass on top of his head! Now butt-bounce down onto the center tree

and butt-bounce so you don't get hurt, pleas.

He will move around to the opposite side of the tree you were just on. Butt-bounce around the center tree and try not to get hit by the saw blades, if you do, pick up a health wedge on the side trees. When he stops for the 5th or 6th time then Rev-roll his mouth A.S.A.P then.

Speech 4: Think you're pretty smart, don't you?!

Speech 5: I'll knock you off that platform!

This part is easy! Turn to the left one rev roll ramp and go into rev roll mode. Wait until you see his backside and rev roll his butt! When he's stunned them move forward to the platform in front of you and wait for him to get in front of you. Then Butt-bounce the bouncy thing and hit him on the head again.

Speech 6: Looks like you could still use a close shave!

Jump to the left and right staying on the middle tree and he will miss you every time he chucks saws. Then move forward to the closest side tree and once again wait for him to get over to you. Butt-bounce the glass and then hop over to the middle platform and then straight across to the other tree. When he comes to get you butt bounce him on the glass one last time and you win! You get the golden strawberry!

Pinky's Revenge!!

Speech 1: Oh, Pac-man.

Speech 2: You want this stupid golden fruit. Don't you?

Speech 3: Spooky was right! You've never wanted me.

Speech 4: Well, if I can't have you...

Speech 5: Nobody will!

Ok just move forward onto the platform to your upper left. Anyway this boss has a bit of the first two in her the shape and attack style comes from Inky and the evil comes from Blinky! Once on the upper left rock then turn & face Pinky. She will fire 3 balls of snow at you and they leave this odd trail of snow behind! Don't get hit by these but if you do then just get the gold health wedge! That's why we came up here. When she's done run quickly over to the center snow rock & go to the Rev-roll ramp on you're right. Wait till she comes around in front of you and Rev-roll her.

(I recommend holding rev roll wail you're waiting for her to get over there to save time). If you rev roll her & hit her she will lean backwards and don't fall off just yet set the controller down stay on her face! Because you stayed on and didn't fall off the game will think you hit her twice. This will cause her to talk more! :(If you just started and you can't do this trick instead of trying over and over just read this part! If you didn't get to use my trick read this: Okay now wait till she's done shooting balls at you and move to the Rev-ramp directly across from you and then to the right one A.K.A the Ramp on you're left after you hit her once. Then hold Rev-roll and wait for her to get over there. Then Rev-roll her and talk will come!

Speech 6: You're just playing hard to get. Aren't you?

Go to the Rev-ramp on you're right wait for her to come round rev roll her etc. Do this twice but remember to go to the rev-ramp on you're left the second time when she's done Icing you...

Speech 7: This is no way to treat a lady!

Go to the platform on you're right and move back and fourth so she doesn't hit you. Get close to her this time when she's firing balls at you and the doubles will shoot

like this OOO = Pinky / \ = balls O = Pac-man

OOO

/O\

Watch out for the singles get back a little and then jump or move away.

Then you know what to do. You can get her on your own this time...

Speech 8: I'm through playing with you!

For this part, just repeat second and third paragraph.

(you can see I'm getting a little board with the same thing over and over)...

You get the golden apple!

More to come... I'M WORKING ON IT OKAY!
