2.Introduction- This is my first walkthrough, Character guide, etc. I will make more than one version, although it will take a while. This guide is for the Gamecube version of the game. If anyone has any questions regarding this document please e-mail me at gizzylink@lycos.com with the title of the e-mail either FAQ, Walkthrough, or something like that. I will report anything else not related to this document as spam. This guide will not be very long originally, but it will get longer. I plan to have a second version about a month after the original release of this. I hope this document is useful.

## 3. Controls (Note these are just basic. I will update them in future versions)

A button- Jump. Press it again while in the air to double jump.

B button- Punch. Press B and then down to punch downwards. Also used to grab while climbing buildings.

C stick- Nothing

Control Stick/Pad- Move

X button- Grab/throw/eat humans or cars.(You can't throw humans or eat cars)

Y button- Kick. Jump and then press Y to perform a jump kick.

Some moves require power ups. They are:

The Multi-Spin, which lets you perform a spin attack (jump and press X) three times in a row by jumping and continually pressing X.

The Roar Attack, which lets you roar by pressing the R button and requires Rampage energy.

The Jump-Smash lets you perform an attack by smashing downwards while in the air by jumping and pressing B.

\*=People have told me you can unlock the first power-up for a monster anywhere and that the starting monsters power-ups can be found in every city. I'm not sure if this is true, but if this info isn't right it isn't my fault.

#### C. Hints

- I. Picking up buses restores health.
- II. Picking up garbage trucks hurts most monsters
- III. Roar is free in Rampage Mode.
- IV. If something is hidden in a building, it will always be in the same place.
- V. Never touch hot glue. It is called that for a reason.
