1. Introduction [INT]

Welcome. This FAQ includes the full way on how to finish this side mission in Resident Evil 4. This FAQ is straight to the point, this means that you should already know the basic movements and how to play as this mini game plays exactly like the normal game. Any way I have included the best way I know, if you think you have a better or more easy way than don't hesitate to email me and if the information is correct you will be credited. Enjoy.

2. Version History [VHS]

Version 1.00 2:37 AM October 28th, 2005
Finished all the FAQ after a long play and write session:)

3. Basic mission knowledge [BMN]

Your mission is to Collect 5 Plaga samples and make it to the rendezvous point. Easy? Think again. You will face many enemies on your way and the hardest part is that you're weak, you lose your health faster than Leon or anybody else. Don't worry though, if you stick to what this FAQ says you should have almost no problem. I should also mention that I divided this mission into 3 parts. The island, the lab and the final Jack Krauser fight. Ok let's move to the walkthrough shall we?

4. Walkthrough

+-----+
3-1. The Island [ISL]
+-----+

From the start follow the path until it turns, stop here. Switch to your Rifle and aim ahead. You should see Ganado with a helmet shot him. Now switch back to your punisher and continue your way. After your second jump you will see 2 Ganado standing, shot the first one that comes in the face and kick him.

This should push him on the sound one giving you the time to run by without getting hit, if not shot the other one in the face and kick. Run past them until you come to a small bridge to the left with ganados standing, continue forward to another Ganado, kick him and head forward.

Now climb up and get the Yellow Herb and Grenade. Now get down and wait for the ganados to get to you or you could just stand up and shot at them with your punisher one by one. Remember shot the face and kick to the end. Kill them all and take what they drop, get all the way back to the small bridge and cross it to the other side killing the Ganado and following the path to the end where you have to jump to the other side, don't jump yet instead switch to your Rifle and aim at top right.

You should see 2 ganados standing, eliminate them and jump to the other side. Now switch to your granad and run to the broken wall near the left path, throw

the grande and get back. This should kill all of the ganados but just incuse wait and see if some one survived, if so shot him with the punisher.

Get the handgun ammo on the right boxes and go trough the left path into the room. Get TMP ammo and quickly switch to your Rifle as the Big gun man will come trough the end door. Stand where you are until the gunman is visible, shot him in his head until he goes down. Now switch back to the punisher and kill the ganados that are running to you. You may also use your TMP if you get surrounded, watch your health as you fight them, you should stand in the room and wait for them to come to you.

After you kill them get all what they left, get up from the right room and take the First Aid Spray, get the Green Herb near the boxes right ahead of the rooms, and another on the left side of the stairs. Now turn back and go into than on the room and get all the ammo, enter trough the big door. Run till you see Ganado aiming on you with his bow gun, kill him and 2 others will appear one with a shield, kill them and continue forward.

Now you will see a ladder on your right and a Red Herb at the end, get it and Climb the ladder. Head strait and to the right for a Green Herb and Rifle ammo in side the 2 barrels. Now head forward to the jump point and wait for the Ganado to jump, right after that shot him in the face and kick him , he will fall down trough the gap. Wait for 2 other ones than jump.

Immediately switch to your Rifle and shot the 2 far ganados, jump through the left window and get the handgun ammo, turn to the left and continue through the path to the Yellow Herb. Head back and take the other path, at its end will be explosive barrel, shot it and a path will open go trough, climb up and get the grenade.

Get back killing any Ganados on the way and get out of the room. Move little further and switch to your rifle, shot the Ganado that comes on top right and continue forward. Again move little further and quickly shot the explosive barrel at the top, if you aim little further you will also see 2 Ganados, kill them, get the TMP ammo on the boxes, get back and go trough the left path.

You will come to a hand grenade, get it and jump down or stand shooting the down ganados. Go straight till you come to the table on the left with a Green Herb, get it and continue your way. Now you will see a box with Rifle ammo on top, get it and shot the Ganado that is standing on top of the end building.

Another Ganado is hiding near t so shot him and wait for the 2 others to come behind you, kill them and get all the dropped. Now climb up the ladder and enter the lab trough the ventilation hole.

+++++
3-2. The Laboratory [LAB]

+++++
From the start follow the right path picking the Green Herb and killing the Ganado on the way and enter trough the last door. Get the TMP ammo on the computer desk and kill the 2 ganados inside the mini room, break the glass and take the Yellow Herb, and enter trough the next door.

Here you will see a Ganado, kill them and get the first Plaga Sample from the dead man. Exit all the way back to where you first came in killing the new ganados on the way. On your way back you look for a hanging box on the left wall, open it and get the hand gun ammo. Right after the box you will see a left path taking you to where you came in and the straight path, take the straight path and enter trough the door with your Rifle attached and

reloaded.

Walk slowly forward and take left side Ganado than quickly turn and kill the right path one. Enter trough the door before the right path. Get the Green Herb to the left, run forward and break the glass and get the hand grenade. Now enter the right mini room and get the second Plaga sample hidden inside the locker, attach the Rifle and exit.

Get back to the left door and stand waiting for the Ganado to come, kill him. Right after that an Iron Madden will run in, switch to hand grenade and run away from him to the left path, turn around and throw the hand grenade at him, if he managed to hit you on your way don't hesitate to use any health item as another hit form him and you will die starting everything form the beginning.

Get TMP ammo form the briefcase, switch to your rifle and wait for him to get up. Shot him in the head as soon as he gets up and he will die, another Ganado will enter the room, kill him. Another Iron Madden will inter the room so get your hand grenade ready again, finish him with the Rifle and exit trough the right path.

Run to the end of the corridor picking the hand gun ammo to the left of a door, enter it. 2 ganados will be waiting inside, kill them and pick the Rifle ammo of the desk. See the ganados from the glass? Aim your Rifle to the big gun guy's head and shot it at lest 2 times and run to the door you came in. He will start shooting killing some ganados as a result. Wait little and a Ganado will come from the other door, kill him with your Rifle without moving and wait for the big guy to come in, shot him in his head and run through the door and get down running to the exit door.

A small group of ganados will com, one of them have dynamite so you have two choose here ether blast them until they all die or wait for that Ganado to light up his dynamite than quickly shot him until he die dropping the dynamite making it explode killing every one except you, make sure your standing at a safe distains tough. Get the Red Herb behind and exit.

Keep going taking the Green Herb on the way till you come to a room with a Ganado inside. Walk little further and a Ganado will turn the lock switch on, now you have to kill them and turn the switch off. Another group of ganados will run in, First get the TMP ammo of the table and start blasting the ganados.

Exit and run forward picking the Yellow Herb of the corner. Don't exit trough the north door instead enter the right door killing all ganados, picking up the TMP ammo and the third Plaga Sample. Get back and exit trough the north door on your right, continue running to the other door, open it and a Ganado will standing to your right, kill him and get the TMP ammo of the table.

Now make your way through the room killing ganados and picking the Green Herb to the left right before the stares. Kill the 2 ganados than pick the Red Herb and the hand gun ammo. As soon as you try to exit trough the door a group of ganados with the big gun man will come in form the upper room, get the hand grenade ready and wait for them to come down.

Throw the first grenade and wait for the gun man to come down, as he do throw the second grenade at him. Finish him off with the Rifle, walk away from the door and another group of ganados will come in, kill them and exit to another corridor with a door at the end.

As you run 2 ganados with dynamite will open the door, wait for one of them to light his dynamite and shot him, or you can shot the hands so the dynamite

explodes, enter the north door, pick up the Yellow Herb and the TMP ammo, get back and exit through the left door. Run forward opening the door, killing the Ganado, and picking up the Green Herb.

Now turn to your left and kill the Ganado and get the hand gun ammo from the briefcase. Jump in the mini room killing another Ganado and taking the fourth Plaga Sample from the big capsule. As you do the exit door will be locked with a group of ganados coming in, break the right side glass and get the 2 Rifle, TMP ammo and blast them.

Don't bother with the hand gun ammo, just go back, jump over, turn to your left and turn off the lock from the red glowing computer. Jump over and head to the door but before you exit take the Yellow, Green, and Red Herbs. A group of ganados with Iron Madder will enter, just dodge them and exit through the door, Go through the next door to your final battle.

+++++
3-3. Final Battle [FBT]

Equip the hand grenade and run to the end, suddenly you will see Krauser running at you from behind. Quickly turn and throw the hand grenade, now equip the TMP and shot his head while his down hurt from the explosive.

The idea is you have to wait till he comes really close to you, as soon as he remove his mutated arm blast his head, if you put enough bullets in him he will get hurt. Some times when he gets real close a combination of a two buttons to press at once will appear on the screen, don't worry its either L+R or B+A so you wont get confused.

The other good news is that if you die you will restart at the beginning of the battle instead of the island. There are also 4 barrels with TMP, hand gun ammo, and first aid spray. It takes a couple of tries to get used to but its easy. After you defeat him, he will escape leaving the last Plaga Sample.

Pick it up and exit through the elevator. Get inside the room and operate the calling system. Well done.

5. Tips/Strategies [TPS]

Remember and use this tips to have better chance of survivor:

1. Use your Handgun and TMP more than the Rifle as you will need it for more difficult enemy and situations.
2. Stay at safe distains while fighting the enemas.
3. Never use the Rifle if your surrounded.
3. Watch your health while fighting the enemies, if you need a healing item use it. Don't wait until after the fight because Ada take more damage than Leon.
4. Don't shot the enemies while they are down, wait for them to get up than shot them.
5. Try to use the Shot in the face than kick strategy, it will save you ammo.

6. Don't stand in one spot shooting if your surrounded, try to run away or stand with a wall behind you.

7. Never use the Rifle on the Final Battle.

6. FAQ [FAQ]
