## \*1. Introduction\*

This FAQ includes information about the cards from the game, and the information on the transformations that can be done at the apothecary. This is to help in planning battles and completing your card collection without looking through the menus of the game. (Note: Not all information from the game is contained in this FAQ; i.e. Monster/Card Descriptions, Locations (as of now), etc.)

## \*4. Card Guide\*

In Lost Kingdoms, there are five types of "elements" that cards can have: Earth, Wood, Fire, Water, and Neutral.

[Element]----->[Element]  
(is effective  
against)

Wood<-----Fire

As you can see, each of the main elements is effective against one other type, is weak against one other type, and is even with the 3rd type and with neutral. Neutral cards are special since they do not have any weaknesses (or strengths, for that matter) against other elements.

\*5. Transformation Guide\*

As you use cards in battle, they gain experience. Once a card has enough experience, one of your options is to transform it into another card. Why would you want to do this?? If you are trying to collect all 105 cards, doing this is the only possible way.

(Only #s are used to help me speed up typing this-In a later version I will go back and add the names of the cards in)

[Original Card #] > [New Card #] (Experience Needed)

001 > 093(1000) or 035(4000) or 100(6000)
