2. Version History

Version 1.00 1/17/2006: The FAQ is complete, extreme thanks to faintecho. I'll upgrade the version to final once I verify the correctness of everything myself.

Version 1.25 3/22/2006: I've corrected the wording and spelling on about a quarter of the path names, and I'm sending in this version because I'm taking a break from the game for a while. So many good games, so little time. I also added Neoseeker.com to my list of allowed websites.

Version 2.38 6/4/2006: I fixed some more path names, and I'm about to take a break from the game again, because I've got a birthday rapidly approaching. However, the big change I made is in my path description system. You'll see.

Version 2.50 8/25/2006: I've verified just over half of the path names now. It's coming slow, but I'm getting there.

Version 2.51 9/10/2006: I had to make a name change on the person now listed as Sonic_the_hedgehog in my acknowledgments. No other changes this time.

Version 2.68 6/13/2007: More path names fixed, and to make my FAQ even easier to read, I decided to capitalize the letters that denote the missions. I noticed that I was sometimes having trouble distinguishing between the lower case n and h, so I figured other people might have that problem too. Also, my E-mail address has changed.

Version FINAL 7/3/2009: Yeah, you read that right. I finally finished every single story path myself, and everything in the FAQ is now verified absolutely correct. I will still be accepting E-mails with regular comments about the FAQ or requests for posting it on other sites, but anything about making changes to the FAQ will be ignored, because this time I'm putting it down permanently. After playing this game for much longer than I probably should have, I am happy to finally say, in the classic words of Shadow himself, "Goodbye forever, Shadow the Hedgehog."

3. Intro

In now over 16 years of gaming, I don't think I have ever seen a non-RPG with so many things to do! Possibly the deepest part of Shadow the Hedgehog is the Library. Every time you complete a different path in Story Mode, the cinema sequences from that path are recorded and stored in the Library under a number and a name for that path. With all the connecting lines between stages, there are a total of 326 different paths that you can take through the main story. What happens if you get them all and complete the Library? Well, I can now safely say, nothing. But if you have that conquering spirit like me, you want to do it anyway, just to say that you've done it. I believe it would help to have a complete list and description of all the paths under their names so that you can not only make a checklist, but also know at a glance what you've still got to do. This is my gift to you.

4. How to read the FAQ

The paths will be listed in numerical order as they are found in the Library, along with their names, and a series of numbers and letters to show what stages and missions to go through. This is how the numbers refer to the stage map from Story Mode:

```
      8--13-18
      /  X  X
      2-5-9--14-19
      / X X  X  X
      1-3-6-10-15-20
      \ X X  X  X
      4-7-11-16-21
      \  X  X
      12-17-22
```

For the mission letters, a "D" means a Dark mission, an "N" means a Normal

mission, and an "H" means a Hero mission.

6. Acknowledgments

A million thanks to faintecho for sending me totally complete info on every single path. I was expecting to have to work with at least 20 or 30 people to complete the FAQ. Thank you for making it so easy.

Thanks to Sega for making Shadow the Hedgehog, the second most unique game I have ever played.

Thanks to GameFAQs, as always.

Thanks to Sonic_the_hedgehog for E-mailing me and getting me concerned about the readability of my FAQ. After much thought, I hope I have found a solution that will please everybody, including me, without having to do a major overhaul of the whole FAQ.

7. Contact Info and Closing

My E-mail address is pianoman3@roadrunner.com. In the Subject line, be sure to put the word FAQ and the name of the game you are talking about, or you

are subject to erasure. I welcome most all comments about my FAQs. If you like my work, please tell me, because it means I've done my job and helped someone out there. I can also take constructive criticism. If you know how I can improve a FAQ, or if you know some information that I don't or an easier way of doing something, or even if I need to be corrected, please tell me. It means you actually care! :) I do not accept messages simply saying that you don't like my work, and it only takes one message with any kind of profanity for me to block you. Until we meet again, remember: "Don't just beat it, conquer it!" - dungeonconquerorB.
