## 1. DISCLAIMER-

This document was written by AngelBlade27. (Kristina is you must know) None of the pieces in the text were copied from anywhere other than my good old Gamecube screen, and all of it was earned by my hard work. (And Gald for the Magic Lens?) I am not associated with Nintendo, Namco, Gamecube, or any other big shot company, and no one is allowed to rewrite this text, sell it for money, or steal it. It?s only currently available on <https://www.neoseeker.com>

If someone just has to copy some pieces, please contact me first at [OrangeAngelX13@aol.com](mailto:OrangeAngelX13@aol.com)

This may not be used or sent to/on any web site or otherwise distributed publicly without my written permission. Use of this listing on any other web site or as a part of any public display is strictly prohibited, and a serious violation of copyright. I made this monster listing so anyone who reads it can use it to fill their Monster List up correctly, so please do not steal it.

-CREDITS-

I wrote this document myself. I bought the Magic Lens? to see the attributes of the monsters, and I hand wrote all of the stats onto a notebook whilst playing to type it onto here.

Currently I haven?t had any websites help me, but I?ll look into it soon, since my list is far from complete.

## 2. UPDATES-

-June 15, 2004:

I started my monster listing today. I spent 2 hours just copying everything down. I still need to get a few more stats? well a lot more stats. And I missed a bunch of bosses. Darn me. Typed up all the stats, so now I have to go back to playing to get more of them.

-June 16, 2004:

Went to some random battles near Hima and Asgard, and noticed I had about 3 monsters that I hadn?t gotten before. Lucky me! I backtracked to Iselia and worked my way from there to get the monsters that I missed, but I didn?t feel like going back to Triet Ruins. I?ll have to do that sometime in the future.

## 3. BASIC INFORMATION-

-About the game-

During the game you control Lloyd and his friends on their quest to save two worlds at once, Sylvarant and Teth?salla(sp?). Colette, Lloyd?s childhood friend, is the Chosen who will regenerate the world. To do that you must quest to unlock all the seals and go to the Tower of Salvation. On your way you meet up to 8 playable characters(of course with Lloyd as default) which all have their own feelings and background story. During the game you have very much dialogue(some is voiced) and several side-quests and optional events. There are also many plot twists and tragic events.

-About random battles-

This is fairly easy. In a dungeon, shrine(temple or mausoleum), or on the field map, you?ll see ?creatures? walking around. If one touches you, you?ll simply be engaged in a random battle. As easy as that. Most of them you can run away from, but sometimes they chase after you.

-Battle controls-

Press START to PAUSE the battle.

Press the A Button to simply attack. There are combinations that you can do like ?Up+A? ?Down+A? etc etc. If you hit the enemy more than once, it?s called a combo attack, and it makes the monster loose more HP.

Pressing the B Button will trigger a technique. Seeing to as what you set your techniques to, the attack will be different

~~To set a technique for Lloyd~~

When your aren?t in battle, pressing the Y Button, and the menu will come up. Press ?Tech?, and it?s basically self-explanitory from there. You simply press A, set an attack to a directional button, and you?re done.

There are 4 different technique?s you can set:

Up + B Button

Left/Right + B Button

Down + B Button  
(Middle) + B Button.

C-stick: You may set a technique to the C-Stick too, this time you can set a different character's technique to your C-Stick. You apply the same way you set a technique for Lloyd as setting the C-Stick. You basically press Up + C-stick, or Down + C-stick for another attack.

You press the Y Button to bring up the battle menu. (Tech, U. Attack, Items, escape, etc etc.)

Press the X Button to defend yourself.

The R and L Buttons serve as switching your target between enemies. Simply press the R/ L Button once to toggle between the nearest enemies, or press and hold the R Button until you can switch between any of the enemies.

## 5. FREQUENTLY ASKED QUESTIONS

~~~~ Battle Questions ~~~~

Q. How do you get into a battle?

A. Easy. On the Field Map, or in a dungeon, you'll most likely see a ?creature? roaming about. Just touch it, or he'll chase after you, and you've just engaged yourself in a random battle.

Q. In the beginning of the game, it said you could character change. How!?!?!?!?

A. Just press the Y Button, it'll come to the Battle Menu. From there press the Z Button, and your character will change.

~~~~ Location Questions ~~~~

Q. Why don't you have any locations?

A. X.X Uhm, pfft, well I don't know how you can get their locations. I know where they're located, but it doesn't show on my 'Monster List', so I'm not going to type it onto here or else I may have it VERY wrong.

Q. Can you re-meet monsters that you met earlier later on in the game?

A. Seeing as I'm not that far in the game, not sure. But after you pass Hakenosia Peak, you can go back to Iselia/ Triet/ Triet Ruins/ Izoold/ Ossa Trail, if you've missed any monsters from there.

Q. I noticed some of the spaces were blank on the list. You said that if you missed any monsters, you can go back. Why haven't you?

A. X.X I'm being ganged up! Well, to answer that, I'm REALLY lazy, so I missed a lot near Iselia, and I'm too lazy to go back to Triet Ruins?

~~~~ Item Questions ~~~~

Q. Where can I find a monster with Melange Gel's!? I need some A.S.A.P!!

A. Well, I'm lazy, so just look it up on the Monster List I just provided up there ^

Q. Why are some items missing from the list above?

A. Either cause I haven't gotten an item from them yet, or? yeah that's pretty much it. I probably haven't gotten an item from them yet. I'm working on it!!

~~~~ Random MOST asked question ~~~~

Q. How do you look for a Monster's stats anyways?

A. For me to know and you to never find out!! Haha, just kidding. You simply get Magic Lens?, and use them on an enemy to scan their stats. Simple! You can find Magic Lens?, or buy them, 1 for 10 GALD, at any item store.

Ehehe, if you want to send any more questions, feel free to at OrangeAngelX13@aol.com I just started this FAQ, so I don't have many questions yet. So sad, oh well.

6. ENDING

-Why did I start a Monster list?-

Well, I just thought about it when me and my friend were talking about the stats of monsters. She said she really needed help on the stats with some monsters, cause she can't beat them. Then I started using Magic Lens?, and I got the idea of starting a Monster List to help other people who can't beat? some monsters  
o.O

- Things to do ?

Oh man are there a lot of things to do. Well first I have to ask my friends to fill in a lot of the bosses I missed. I have to get up the stats for the Bosses.

- Get some of the enemies? item(s) dropped, and ?item(s) to steal?
- Learn how to steal :P
- Buy more Magic Lens? to get more enemies
- Re-visit Triet Ruins and the area around Iselia to get the monsters I missed
- Keep going farther to the game and actually record the monsters WHEN I fight them, not after.
- Check to see if I haven?t missed any monsters. I probably have by the beach, and in the forests.

- CONTACT ME ?

Well, you can contact me however you like. Email me at [OrangeAngelX13@aol.com](mailto:OrangeAngelX13@aol.com), or give me an IM at OrangeAngelX13. You can also PM me on neoseeker at Angel Blade27. That?s basically all the ways you can contact me really? Oh well. If I?m not on and you?re in dire need of a? monster o.O Email me, or IM me at TheAntiDepressant. It?s my working account, so it?s always free.

Hope this helped!!
