## 2. Version Info

Version 0.1: 12/17/04: Just started guide. Most of it is completed.

Version 0.2: 12/21/04: Added link to my contribute status. Changed one thing in "Turn The Tables On Plankton." Added to final story movie.

Version 0.3: 01/02/05: By recieving so many E-Mails about anything not involving, I've decided to make an overall walkthrough. It will only cover the main parts of the levels, like Combat Arena Challenges. But that is in about a month.

Version 0.4: 06/22/05: It's been nearly 7 months since I updated. I decided to cancel the overall guide and stick with this. I updated my contribute status to include all sites that may and may not host my guide.

Version 0.5: 04/01/06: That's it. No more e-mails. You need help on non-boss levels? Check the other FAQ here. Need boss help? Follow this guide. I edited beginning info & removed e-mail address. Soon, I might tape the boss levels and post video links to help people. They will be at my skill level, so you might need to alter your battle plan.

Version 0.501: 04/28/06: Got new boss info on "Turn the Tables on Plankton.

Version 0.502: 04/29/06: Very little was done. Added gamerhelp.com to list of approved sites.

## 3. Introduction

It's just another day on the job for our yellow, porous friend, Spongebob Squarepants. But today is a special day. Today, owner of the Krusty Krab, Mr. Eugene Krabs will reveal the manager of the all-new Krusty Krab 2. Spongebob is excited for the announcement. However, Squidward Tentacles gets the job instead of Spongebob. After spending all night at the Goofy Goober Ice Cream Party Boat, he accuses Mr. Krabs of being a horrible person. However, the night before, Plankton hatched his evil Plan Z. King Neptune is at the KK2 and accuses Mr. Krabs of stealing his crown and selling it to the far-off Shell City, the place no sea creature has ever returned from. Spongebob volunteers to go to Shell City to get the crown back. Neptune agrees and give Spongebob 6 days to retrieve it. He brings his best friend Patrick Star with him. This guide will cover all the bosses you will need to face in the game.

## 4. Bosses

The difficulty will range from 1 to 5; 1 being easy, 3 being average, and 5 being a real challenge. You will also be notified of what level you must

complete in order to access it.

#### 4a. I'll Let You Pet Mr. Whiskers

Difficulty: 1/5

This battle will take place on a large circular, non-moving platform. You must complete the first challenge in the "Bubble Blowing Baby Hunt" level to access this. You will face a fish monster. In the opening cutscene, Spongebob and Patrick will find a free ice cream sign. When Spongebob approaches the "old lady" at the stand, he discovers it's actually the tongue of a giant fish monster. He will hang on to the beast, and you will take control of Patrick. The monster will take 8 hits to defeat. When it runs toward Patrick, hold X to Cartwheel out of the way. The monster should barely hang on the edge of the platform. Cartwheel into it to damage it. After doing it 2 times, it will jump to an unaccessable area and its tongue will appear near you. It will slam its "ice cream cone" at you. Press B to Star Spin it. After taking it out twice, you'll need to do the same strategy to damage it when on the platform. Now, 2 hits later, you'll need to attack the tongue again. However, it'll spin its cone around it. Jump and do the \_\_\_\_\_ Smash by pressing B after jumping to attack it. Do it again and you'll beat the monster. You'll get 1 Goofy Goober Token (which will be called "GGT" in future strategies) and you will see a movie scene where they get away from the monster in the Patty Wagon, but lose it to that monster, but that one gets eaten by an even bigger monster. They then cry because Plankton has transformed Bikini Bottom into Planktopolis. Neptune's daughter, Mindy, hears them and turns them into men by taking 4 pieces of seaweed and putting it on their faces, resembling mouthstaches.

#### 4b. Here's Dennis!

Difficulty: 3/5

This battle will take place on a large circular, non-moving platform. You must complete the first challenge in the "Shell City, Dead Ahead!" level to access this. You will face a strong fish named Dennis. In the opening cutscene, Spongebob and Patrick meet Dennis. He grabs Spongebob, and you will control Patrick. Dennis is real strong, as you must attack him about 12 times to defeat him. There is a Throw-Fruit in the middle of the platform. If his Star Spin is upgraded, you can use it to deflect the toilets Dennis throws at you. After cutting his health down by 1/3, you will now have to deal with a fish with a vicious worm. It will spin around and you'll have to \_\_\_\_\_ Smash it to defeat it by jumping and pressing B. Every 3 hits, another will appear. After cutting Dennis's health down another 1/3 of the way, 2 of those fish will appear instead of just one. After beating Dennis, a big boot will land on Dennis. A movie scene will appear where the boot lands on Dennis. It turns out the boot belongs to the Shell City cyclops. They get caught by the cyclops and pass out. In their dream, they are at the Goofy Goober. Your reward is 1 GGT.

#### 4c. Dennis Strikes Back!

3/5

This battle will take place on the back, arms, and butt (don't worry; he has swimming trunks on) of a guy that isn't a lifeguard, but plays one on TV. You must complete the first challenge in the "Google-Eyes And Smelly Knicknacks" level to access this. You will face Dennis again. In the opening cutscene,

Dennis appears on the back of the guy and throws the cyclops's boot off of him. Patrick stumbles and falls into the water. He manages to grab onto the guy's foot and hangs on. Now, you must use Spongebob. If his Karate Spin (attack with B) is upgraded, you can deflect the arrows he throws at you. It will take only 8 hits to beat him, as he is weak from the boot. Occasionally, a crowbar-wielding thug will appear. Eventually, 2 will appear. Stay on one of the arms to avoid them. After defeating Dennis, a boat the guy is passing under will be in Dennis's way, and gets rid of him. Spongebob dances. A movie scene will appear where Dennis appears on top of the guy, and he gets hit by a boat. You will get 1 GGT.

#### 4d. Turn The Tables On Plankton

This battle is split into 2 parts. The difficulty varies depending on the part.

##### Part 1: 4/5

This battle will take place at the Krusty Krab 2. You must complete the first challenge in the "Drive Of The Knucklehead-McSpazzatron" level in order to access this. You will face King Neptune, only he has a bucket helmet on his head. In the opening cutscene, Spongebob and Patrick will arrive at the KK2, only to find Neptune with a bucket helmet on his head. Plankton commands Neptune to kill Spongebob. Now, you will control Spongebob. It will take 6 hits to the helmet to free Neptune. You must press R and use the Sonic Wave Guitar move to damage the helmet, but if you do it, Neptune will swing his staff and block it. First, he will shoot flames from his staff at Spongebob. You must jump over them to avoid them. After 3 rounds of flames, it will switch to first-person view of Neptune. Jump to avoid the beams Neptune shoots at Spongebob. Turn each table by doing a Karate Spin to turn them. After turning all 5, hide behind Mr. Krabs, still frozen. Neptune's beam will reflect off of Mr. Krabs, bounce off all the turned tables, and will strike the helmet. Take this time to guide the Sonic Wave to the helmet. Neptune is dazed and won't be able to protect himself. This will happen again. After 2 hits, he'll deploy an energy beam instead of fire. Jump on the loose floorboard behind Mr. Krabs for safety. After 2 rounds of energy, repeat the table strategy. Do this again and Neptune will break the floor, leaving only about 11 platforms and the loose floorboard remaining.

##### Part 2: 5/5

This part will limit the KK2 to only 11 platforms and the floorboard behind Mr. Krabs. Two floating creatures will be behind Neptune, spitting ice balls at Spongebob. It will take 3 deflections or 1 Sonic Wave to destroy each of them. Neptune will use the energy beam, only it will go out from the center to a certain area, forming an electrical radius. All the while, the song "Goofy Goober Rock" plays in the background. The song is unchanged from the way it is in the movie. When this part starts, immediately jump to the left and land on the platform and jump back and to the right to land on the floorboard. As the creature on the left spits ice balls at you, Karate Spin at the right time to deflect it. Do that 3 times to defeat it. Now launch a Sonic Wave at the one on the right. Neptune will defend itself, but you should hit the other creature. Avoiding the energy beam, jump to the Mr. Krabs platform. Now, jump to the right-hand platform and the one after that, but turn around and turn the nearby table and jump on the larger platform. First-person view will start, and it gets tougher. You will need to jump to avoid the blasts and to get to other platforms. After turning all 5 tables, jump back to the Mr. Krabs platform and hide behind him. Launch a Sonic Wave at the bucket helmet. Repeat once more. The bucket helmet will be destroyed. The

final movie scene will play, showing Plankton sent to a tiny criminal jail. Neptune frees Mr. Krabs. Mindy is proud of them. Spongebob admits he learned he may be a knucklehead mcspazzatron, but that he is a kid, and he is proud of it. You will receive 1 GGT. Now go and collect any GGT you haven't gotten yet.

One reason it may take so long is because of the music. If that's the case, turn the music off. And if the song reaches the end, it will loop back to the beginning.

Another note is that each turned table will actually deflect Neptune's beam to the ceiling.

I haven't tested this yet, but cyclone2 says Neptune has different amounts of health depending on which save file you are using.

## 5. Acknowledgements and Conclusion

Anyone who contributes to this guide will be mentioned here.

Special thanks to...

My mom for buying this game for me

Nickelodeon, for making a great cartoon (Spongebob Squarepants) and a great movie (Spongebob Squarepants Movie)

cyclone2, for pointing out a previously unknown and currently unproven note
