= I. Introduction [INTR1] =
=====

Hey there, reader. Welcome to my guide to Final Fantasy Monster List. This guide is here to help you when you're playing through Final Fantasy and when you need to find the stats of each monster or a certain monster you'll be fighting. That's why this is here. It also can tell you exactly what a monster is weak to and not weak to and other various things. Also, this is mainly here because I've yet to see a guide for this on GameFAQs and I thought it was time this game got one, so I sat down and did it. For the most part, I hope you enjoy this guide, as it's taken me a while to write it out and all. Just do NOT put this on ANY site other than GameFAQs and do NOT claim this as your own or sell it for a profit. This was written by a fan for the fans. No more, no less. With that said, let's continue on and check out the Monster List!

Update: This guide is also now available at IGN.

= II. Current Updates [CURUP2]=
=====

5/14/07 - Just writing in to let any readers know if they E-Mail me any questions or comments, that my address still works. My willpower to write walkthroughs over the last few years died, mostly to college and real life, but I may just start this up again. Feel free to write in, thanks.

11/22/03 - New layout added up. How's it look?

11/14/03 - Added some new Weaknesses to various Undead Monsters. Thanks to Ken Mauer for the details on those. If anyone else has anything they'd like to submit or know about any of the Monsters here that I may be missing, go ahead and let me know. All help is greatly appreciated. Until I next update...

8/31/03 - Added a brand new ASCII art banner. Mainly the newer version of the Final Fantasy logo that was released with the WonderSwan Color/PSX versions. Also, as a reminder, if anyone knows any weakness for any of the Monsters with a ___? after something, again, please fill me in. It'd much appreciated. Again, thanks.

8/13/03 - Made this the final version of the guide. In the future, if I ever need to update it for anything, I'll do so, but in the meantime, if anyone knows ANY of the weaknesses of any of the monsters with ___? after something, please let me know and you'll get credit for it here in my guide. Well, until whenever, enjoy!

6/25/03 - Added a ASCII art banner. How's it look? Also, I added a small note regarding Experience from each monster.

5/10/03 - The Monster List is completed for the most part. Revisions, editing and corrections will be made over time. Enjoy!

= IV. Monster List [MOLI4]=
=====

Note: If you see a "___?" under any monster's stats, that's an open space for "what else". Pretty much I wrote this entire thing using the Monster Encyclopedia that came with my Final Fantasy game and I used that to write this guide. It pretty much means that if you know ANYTHING else about the monsters and would like to contribute to this guide, where you'd get FULL CREDIT, send an E-Mail my way at ssj4kain@aol.com. Comments, suggestions, etc, are also welcomed.

Also, just to let you know, the Experience you see for each monster, that's the total amount for ONE person. That gets divided up into FOUR for each person on your team. If only two are around, then divide by two and if three, divide by three. Simple enough, I hope...

Well, here's where I give credit to the ones that helped make this guide possible. Here's the following people I'd like to thank:

Squaresoft - For making this AMAZING game, which, if not for the incredible sales on this, they would've gone bankrupt and the RPG genre today wouldn't be what it is today, as well as we wouldn't have any of the other Final Fantasy's or any of the other Squaresoft masterpieces, now would we? So, thanks goes out to them, definitely.

Myself - For writing this guide. Thanks for reading it and I hope it helped you in playing the game.

Ken Mauer - For pointing out weaknesses for the Undead creatures. Thanks!

Thanks for reading my guide, first of all. I sure hope it helped you. If you wish to submit something to this guide, send it to ssj4kain@aol.com and label the subject as "Submit-Final Fantasy Monster" and as nothing else please. It isn't too hard and I'm not asking for alot. If you have any questions regarding this game, also send them to me and label the subject as "Question-Final Fantasy Monster" please. Again, not asking much here and it isn't hard to understand. Now for the legal stuff.

This guide was created by Kain Stryder. It is not meant to be used on any other site besides GameFAQs and is not to be edited in ANY way for other use. (Unless I give permission to do so.) I did not create, nor take in participation of creating Final Fantasy. I am not affiliated with Squaresoft, nor the team who made it. I also don't have the rights to it. I am a writer simply giving out information to other gamers of Final Fantasy.
