INTRODUCTION
=====

I thought I'd write an FAQ for this game(it may be 9 years old) because it's one of my favourite Mega Drive/Genesis games, and I've restarted playing it on my Sega Mega Drive. Also, there were no other guides for this

game when I started, so I thought I'd have one. Oh yeah, and I want to write more FAQs so I can fill my contributors page on gamefaqs! ^_^

Send me your tips/cheats, and especially best Times!

100m

The 100m is the first event in the full Olympics.
This is one of the easier events in the game.
You usually will win a medal in this event.

Start just after the gun is fired.

To Run: tap A and B intermittently as quickly as possible.

To Duck for the line: Hold C when you are just about to reach the line,
keep tapping A and B as you are holding C.

Shot Put

Shot Put is a difficult event.
It takes much practice to be able to throw over 70 metres.

To speed up your swing: tap A and B intermittently
To start/ Throw: tap C.

Throw when you are about 2/3rds of the way up to the line.

Archery

Archery is one of the easier events, but it takes time.

To pull back arrow: hold Left and press A when fully pulled back.
To Aim: move D-Pad around and try to hit yellow part of target.
To Shoot: press A

Don't shoot straight away because you have lots of time.

If you forget to pull back the arrow, aim for the top of the target
around the middle, and you can get an 8!

110m Hurdles

The 110m hurdles is just like the 100m, but with Hurdles(of course!)
This is slightly more difficult than the 100m

To run: same as 100m

To Jump: tap C when you are close to the hurdle, you'll figure out when
to do it exactly

To Duck: hold C when approaching the line.

Pole Vault

This one is really tricky. It takes hours, days even months of practice.

To run up: A and B alternately

To Vault: Press down to put down the pole, followed by Up/Left to vault.

Diving

Diving, like shot put takes lots of practice.

The best way to learn to do this is watch the Demos in Training Mode.

For the first 4 dives I always chose the hardest of the 3rd dive.

For the fifth dive I chose the 2nd position - 3rd dive.

To Extend diving board(for more difficult dives): Hold A+Left

To jump up at middle of board: tap Up

To jump off end of board/spring up off it: tap down

To Spin: Hold Left/Right

To hold feet: hold A

To twist: press B

To Dive into water: Hold Down

Swimming

Swimming is one of the more difficult events.

It involves 4 lengths of the pool.

You don't go full speed like the 100m, you have to keep pace with the other swimmers to conserve energy.

To Swim: A+B intermittently, Hold C when coming to the end of length to turn

You can press A+B quicker on the return length.

Points

In this game there is a points system used to reward you for consistently doing well(maybe not a medal, but well). After each event you can see how many points you received for that event, and how many points you have overall.

The points system runs like this:

- 24 points for 1st
- 23 points for 2nd
- 22 points for 3rd
- 21 points for 4th
- 20 points for 5th
- 19 points for 6th
- 18 points for 7th
- 17 points for 8th

and so on.....

The Maximum points you can recieve overall is: $24 \times 7 = 168$
You can only get this if you win each event.
