

Increase your Power for more Attack and increase your Stamina for more defense.

2A) Experience:

The experience are stored in three separate offsets and the byte order is Intel:

Example:

To give to the Hero 1000 Exp:

Set 1960 to E8

Set 1966 to 03

Increase this value to add more spells to your character.

IMPORTANT NOTE: The maximum value for the third offset is FE (254).

Don't set it to FF (255) or the game will crash. Anyway, modifying this offset is useless, because if you set the two first offsets to FF you will have 65535 of experience and also all the spells.

2B) Current HP & MP:

This offset gives the character a value of HP and MP higher than 255

It works as follows:

The 1st byte is for the MP

The 2nd byte is for the HP

The MP has a max value of 511.

Example:

To have the Hero with 999 HP:

Set 13D5 to E7 and set the 2nd byte of 1455 to 3.

To have the Hero with 511 MP:

Set 1515 to FF and set the 1st byte of 1455 to 1.

2C) Max HP & MP:

It works exactly as Current HP & MP.

2D) IMPORTANT NOTE: Playing the game, you will acquire more generals. When Orlof Leaves, Duval Replaces him and when Hans leaves, Lydia replaces him. The offsets of Orlof and Hans are the same that Duval and Lydia. In the final battle the first six offsets are the general stats (the ones for Hero's Army).

4) Getting unlimited Moves

4A) Character Condition:

00,Active
01,Hold
Character 1,18A6
Character 2,18A7
Character 3,18A8
Character 4,18A9
Character 5,18AA
Character 6,18AB

4B) Turns:

The turns are the number of characters you can move before the enemy phase. Example: 5 characters. 4 of them holding and one active. If you change the status of one of the characters holding to active and move it, after do that the enemy phase will begin, because you had only one turn left (the active character). For this you must reset the number of turns to have unlimited moves.

IMPORTANT NOTE: Always mantain the Army near the commander. If the Army are very far of the commander, he will not move, or his move range will be very small.

Turns,158 (Set to 06 to reset)
