=====
```

While I do write all of my guides for free, it does take a lot of time and effort to put them together. If you're feeling generous and want to show your appreciation, I am gladly accepting donations. I don't know exactly what the donations will be used for, but just know that you would definitely be helping me make more quality FAQs! Even the smallest donation amounts are appreciated, and are a great way to say how much you appreciate the work I do. If you do decide you'd like to donate, please send the donations through PayPal at the e-mail address listed below. Thank you so very much for considering this!!

keyblade999.faqs@gmail.com

By the way, this is also my contact e-mail, so if you want to contribute something to this or any of my other FAQs, or have a question to ask about one of them, go ahead and use this e-mail.

Section One: Intro

ROBOCOP_1

Welcome to another FAQ of mine. This one covers the GameBoy game RoboCop 2, which is a 2D platformer amazingly like MegaMan. It's a popular concept, I guess -- it's the third game in the past month, I think, I've written an FAQ for with that idea!

Yeah, I don't have much to say about this. But try to enjoy.

Section Two: Version History

ROBOCOP_2

Final - First and likely only version of this FAQ produced.

Let's first discuss the heads-up display. Here, you'll find the percentage of Nuke smugglers you've taken in, how many hits of 20 you can take (Power), your lives, how much time you have left (starts at 99 seconds), and your score.

I'm guessing that the Nuke smuuglers are the weird guys with black shirts waving their arms around like maniacs. To take them in, just run into them -- YOU ARE NOT TO SHOOT THEM. You must take in 60+% of them to pass the level. Passing the level simply means going to the far right.

So, how many Nuke smugglers ARE in a level? Here is a quick table to find out. Get one smuggler and look at the percentage change. This table will show the possible numbers there can be. To find the minimum number you need, take the right number, multiply by 0.6, and round to the nearest whole number and you shouldn't be more than 1 off. (I also did round these to the nearest whole number.)

Percentage of Change	Number of Nuke Smugglers
+0%	100+
+1%	100
+2%	50
+3%	33
+4%	25
+5%	20
+6%	17
+7%	14
+8%	13
+9%	11
+10%	10
+11%	9
+12%	8
