2. - STRATEGIES

Game Modes

There's two modes to this game, Normal or Free. Normal mode will send you through each track one by one until you reach the very end. Free mode will allow you to practice each track one at a time. There are three types of cars, the Mini, the BB512 and the F1. The Mini and BB512 are slow and just randomized tracks. The F1 is the big leagues and are the tracks below.

Transmission

Each car has a manual transmission which forces you to shift up and down yourself. To shift up, just press up, and vice versa for down. Below is when you should shift up and down for each car:

Mini:

- 1st-2nd Gear - 90Kph
- 2nd-3rd Gear - 165Kph

Track 2
