## 4. Game Modes

---

One Player - Single

=====

This is a one-on-one, single round fight, lasting 5 minutes. Winning the match will allow you to advance to the next round against the next fighter. After every match you win you will be given a password, so you can continue from the same point at a later stage (or if you lose). The order you fight your opponents in is completely random, and different every time.

One Player - Tag

=====

This is similar to the "One Player - Single" mode. It is a single fight, lasting 5 minutes. However, this time you are paired up with another character against two opposing characters. You control whichever character is in the ring for your side i.e. if you tag in the other character then you will switch control to that character.

Two Player - Single

=====

This is a 15 minute, three round one-on-one fight, where the two human players compete against each other.

Two Player - Tag

=====

This is a 15 minute, three round tag team fight, where the two human players compete against each other. The human players will always have control of the wrestler currently in the ring, and can tag between the wrestler in the ring and the one outside to change the character they are controlling.

## 5. Fighting

---

#### Beside Floored Opponent:

#### Beside Tag Partner:

### Grapple Selection

=====

Before each match you have to select a grapple for each direction on the D-Pad i.e. one for each of Up, Down, Left, and Right. Each wrestler has eight different grapples to select from.

### Power Bar

=====

During grapples a power bar will appear on screen, this indicates the amount of damage dealt to the defending character. As you inflict damage on your opponent, the bar will increase. When the bar is full, you can pull of your character's special move. The screen will flash when a special move is used.

## 6. Wrestlers

---

### Introduction

=====

Choosing your character is not very important in World Championship Wrestling. All the wrestlers are of the same strength, the only difference is the grapple animations shown in the game (as all of the grapples are of the same power also). So, just pick your favourite, or else the guy with the cool name! ^\_^

- You for reading it
- And not reading the credits, personally I don't blame you
- They are rather boring
- Why are you still reading?
- Go out and get a job, you obviously have too much time on your hands
- Especially if you're playing a game that's 16 years old!
