I. Intro

Hey! This is my move list for Jeff Jarrett on WCW Backstage Assault for Nintendo 64. You can also use this for Playstation if you know how to change the C-Left to X or whatever one is in its place.

To contact me, get my e-mail address off my contributor recognition page, which is linked at the top of the page.

I made this move list by going to Create A Superstar, selecting Jeff Jarrett, and going to moves, then copying them down.
