\ 1 - INTRODUCTION

This guide isn't a FAQ, but rather a complete list of all 3878 solutions in the game. The game was billed as having over 4000 puzzles, according to a few descriptions and reviews available on the internet, but that doesn't seem to be true.

.....

\ 2 - SOLUTIONS

This list is based on a strings-dump and probably contains some errors despite my efforts to standardize and review the strings. Note: typos are likely the fault of the game designers.
