FAQ NEWS—Ninth Update

I got ¼ of Moonfreak's FAQ. Well, Moonfreak17 finally replied (but yet a tragedy it was for him on what happened why he didn't reply for a long time). I want to do another walkthrough, but I don't know what about. I was thinking of doing a walkthrough for SECRETS. But maybe not, you email me and give me suggestions. Also, I've resumed working and I will try to make this the BEST HARVEST MOON 64 FAQ ever!

DISCLAIMERS!

Be sure to read this before doing anything to this FAQ!

1. Do not post it in magazines or copy it and put it somewhere else.
2. I allow putting this into a web page.
3. If you do that, follow the rules below:
 - Do not modify it under any circumstances.
 - Leave my name up there.
4. I suggest that you e-mail me some Q and A. I'll post it in that section.
5. If you know what recipes do, then PLEASE tell me!
6. It is ok for GameFAQs, GameWinners, and vgstrategies to have this FAQ WITHOUT ASKING.

VERSION HISTORY-

6.4- 4/5/00

-Added "extras"

I kind of like this FAQ. I guess I should stop working on my others and start bunching up on this one. I'm working very hard, but I'm not done with the walkthroughs section.

6.2- 3/8/00

-Added Weird Yet Cool Section

-MoonFreak has finished first year

-Any suggestions? E-mail me!

Oh well, I'm back to work. I had my birthday and I didn't feel like typing so I took the week off and bought SaGa Frontier II, which is very awesome. I got Pokemon Stadium too, which is cool. My Mario Party II FAQ isn't doing good at all... I guess I'm struggling. Stay tuned.

6.0- 2/20/00

- Added second part of Moon Freak17's FAQ
- Added little more of Normal Life Files
- Added legal info

I'm getting a little tired of writing this... *Yawn*, need some sleep..

5.8- 2/16/00

- Added extra info
- Added MoonFreak17's FAQ
- Finished Tips section

Cool FAQ MoonFreak! I got his FAQ on Fame and Fortune BOTH and posted it up. I'm hoping to see an update soon!

4.5- 2/1/00

- Added Headbake's FAQ

Added a nice FAQ by Headbake on Fortune. Oh well, back to work...

4.06- 1/23/00

- Finished "Guide around town" section

Did someone try to modify my FAQ and put it on their site? I'm not happy with this, but I'm not sure if this is true. Oh well, I added a small section. I've also started a FAQ for Mario Party 2.

4.0- 1/15/00

- Added second year first day
- Organized this FAQ more
- Added info on the music box (thanx to Harvest Bauler and Trev79)
- Added more info in the tips section

Going good! Croco64's FAQ is up, and it's very cool. I guess there is not much more to add. I'll look for more secrets.

3.4- 1/11/00

- Added half of Special Events section
- Organized the FAQ
- Added FAQ Facts

Ok. Faring well. This FAQ isn't so big right now (about 45K), but I got lots to add.

3.1- 1/10/00

- Added Tips section
- Added special thanks
- Added Q & A

I just finished the Girls' section and the Items and Tools section. Geez I hate school, it's so stupid.

2.3- 1/2/00

- Finished last two sections completely
- Added new recipes

-Added livestock tips

Oh no! School's tomorrow! Crap, the worst thing about school is always Homework, it disturbs your FAQ times. But in my school, we... Oh, it's a long story.

1.4- 1/1/00

-Happy New Year!

-Finished all the sections

-Added info in sheep and eggplants, also added info on greenhouse

Ain't tired at all. I've been sitting here writing this FAQ since 1:00AM. Oh well, I'm not sleepy. PS-It's 3:44AM right now.

0.1- 12/31/99

-My first version ever.

-Made the table of contents, all sections with very little info.

I got the game for Christmas, and I started a FAQ for it. Not many FAQs out there for the game right now. Just 3, oh well, who cares? Uh-oh! Gotta save gotta save gotta save!!! It's 11:59:27!!! What if Y2K really strikes! Where is my floppy disc? AAAARGH!

INTRODUCTION-

Hello, I'm Haunter120 and this is my first FAQ. Although I have posted dozens of reviews, I feel like making a FAQ for this game. Please feel free to e-mail me about any help or missing info.

Harvest Moon 64, eh? Well, you know how to play if you played any other Harvest Moon game; it's just like that, except better.

How did Harvest Moon 64 appeal to me? It all started when my friend Wiseone444 told me about Harvest Moon SNES. I thought "who cares," and "natsume should make more games that are GOOD." That's because I didn't like the Lufia games that much. When my friend got Harvest Moon SNES, he told me to come over to his house. So I did.

When I did, we played the awesome game Harvest Moon. I wanted to play it badly but my friend is VERY greedy. So after I left. I started collecting money for the game. But then I got a bunch of cash from passing a darn karate test. So I had to go about 30 miles away from our house to buy Harvest Moon. I did, and when I came back home I played all night and all morning.

Well, I finally got bored of it and found out that Harvest Moon GB is coming out too. Since Harvest Moon was great, I thought of getting the Game Boy version. But my friend, of course, got it first. When I played it, it didn't appeal to me very much, so I just dumped it and haven't played it since.

When my friend once came over to my house just to show me one screenshot of Harvest Moon 64, I was surprised. The screenshot looked cool. But it was like a side-screen one. I still didn't know either to buy HM64 when it comes out or get Donkey Kong 64.

Finally, my decision was made. I played Donkey Kong 64 and beaten it. I got HM64 for Christmas, and when I started playing it, it seemed boring. But then a few hours later when I played it, I played for 48 hours straight with about 2 breaks. Harvest Moon 64 is probably the best RPG around currently.

Although I got lots of help from cool people like Headbake and Moon Freak 17 on helping write my FAQ, I would also like to thank them. They did some of the more important parts of my FAQ.

This is the third installment of the Harvest Moon series. Starting from the Super Nintendo game, going to the game boy game, and finally here. Natsume is also making Harvest Moon for game boy color, although it will probably be the same as the regular game boy harvest moon. Rumors say that Harvest Moon is also coming out for PSX, I think it's true.

Any changes? Yes, Natsume has changed a lot of things in Harvest Moon 64. The basics are the same, with a few added elements. Want to know the changes? Here they are:

HARVEST MOON 64 VS. HARVEST MOON SNES

Size-

HARVEST MOON 64-Huge, a farm, a town, a mountain, a mine, a vineyard, a ranch, and a beach. 8

HARVEST MOON SNES-a town, a farm, and a mountain. 5

Animals/Pets-

HARVEST MOON 64- Horse, dog, cow, sheep, chicken. 7

HARVEST MOON SNES- Horse, dog, cow, chicken. 5

Length-

HARVEST MOON 64- Forever! But you may get bored of it. 7

HARVEST MOON SNES- 2 1/2 years. 7

Money Routine-

HARVEST MOON 64- Just gather stuff from the woods or ship your daily crops/items. 9

HARVEST MOON SNES- More challenging but more boring. The same thing except harder. 7

Time-

HARVEST MOON 64- From 6 AM to 6 PM and then you can play till 5:59 AM, and you can get sick. 5

HARVEST MOON SNES- Night stays forever, giving you more time to plow/gather.

Secrets-

HARVEST MOON 64- A lot, so much you will probably never stop looking. 10

HARVEST MOON SNES- Yes there is a lot, but not as much as Harvest Moon 64! 8

Festivals-

HARVEST MOON 64- About 5 each season. 10

HARVEST MOON SNES- There is almost none so you will get bored waiting. 4

Livestock Cost-

HARVEST MOON 64- The livestock cost 1000 more than Harvest Moon SNES. 7

HARVEST MOON SNES- Cheaper. 8

Livestock Routine-

HARVEST MOON 64- 8 stalls, and easier care. 5

HARVEST MOON SNES- 12 stalls. So boring (it gets slow when there is a lot of livestock) that you just want to quit playing the game. 0

Enjoyment-

HARVEST MOON 64- You will enjoy this game a lot. 7

HARVEST MOON SNES- Pretty fun, but more boring than fun. 4

AND NOW... THE WINNER IS...

HARVEST MOON 64!

Of course it had to be the winner, It's the newest version, Harvest Moon Game boy didn't make it (it wasn't good enough, heh) anyway, back to the game, Harvest Moon 64 is a really good game. This isn't all of it. If you want to know some pretty cool stuff, read my review at GameFAQs for more! Let's get back to the game and here is the story:

At the beginning you see you walking in the square and the people talking about your grandpa's passing away, then you tell your father That you want to inherit the farm. Your father leaves for the big city as you are pondering in your new farm.

Jack (aka you) took over your Grandpa's farm after he passed away. You hope to have a wonderfull life until your dad comes back, which will be on the third year. But even after that, you can play forever, I think.

HOW TO PLAY THIS GAME-

Players-1

Difficulty-Moderate

You must be-RPG player, know how to push the A button fast, know how to respond, know how to read.

What does this game do for you-Not much, just tells you how hard it is to work on a farm.

Advice-Feed and brush your cows/sheep every day. Feed your chickens and get their eggs.

Time to Complete-Huh? Time? Infinity.

NATSUME

VICTOR INTERACTIVE

BEGINNING THE GAME-

Name yourself- Name whatever you want, up to 6 letters can fit. So put your initials in if your name is Ghfghgrtglyptyrgve (j/k).

Name your dog- Same thing here, except name your dog this time.

Your birthday- Choose which season you want your birthday to be in. Your birthday will always be on the 25 of that season. So, for example, if you choose Summer, then your birthday will take place on Summer 25.

Ranch- Name your ranch.

After doing all this you will see yourself eating in the morning. Walk to your T.V, you can watch the programs by pressing the C buttons. Initially, it is set to the weather channel. You can change it to the news channel, tips channel, or the entertainment channel. The entertainment channel never works.. I wonder if it ever will?

Leave your house to meet the mayor of the town. He will guide you around Flower Bud Village, the local town. If you want him to, then choose that option, it will not take any time off your first day.

The mayor will guide you around. You will meet people like Lillia, the florist, Rick, the local tool shop owner, and Maria, the bookkeeper. After that go to the green ranch to meet will Ann. She will let you have a horse. Name it like you did before. The horse is important to the game because of shipping and horse racing. Now you know the basics. Spend the rest of that day doing whatever you want. Now comes the list of mostly all the characters in Harvest Moon 64!

The Characters--- Harvest Moon 64.

1.Jack (you)-The main character.

2.Koro-Your dog. He'll race in the dog race during winter.

3.Foal-Horse, found in the Green Ranch on the first day of Spring, race on the Horse Race.

4.Elli-The restaurant's owner's daughter, you can woo her by buying cakes.

5.Maria-The mayor's daughter who you can woo. She likes it when you read the

books in the library. If you plan to woo her, give her flowers and berries, otherwise Harris will.

6. Ann-She gives you the horse. She likes animals and livestock. Try giving her squirrels or rabbits. She's hard to woo because she goes in a lot of places you least expect to see her. She has a mean brother.

7. Popuri-The flower shop owner's daughter. She simply loves flowers. Give them to her everytime. Give her cat mint flowers to have her be amazed. She's very easy to get, literally.

8. Karen-Another person to woo. She's pretty hard to woo because she has a huge temper. Once she's friendly with you only then she'll introduce herself. She likes very berries.

9. Mayor-Self explanatory. He leads nearly all the festivals. Sometimes mistaken for a gangster...?

10. Midwife-A mysterious woman living in the south part of the town. She gives you advice once you're married. And no, you cannot marry her.

11. Gray-Ann's brother. He's a mean dude through the first year. Once the third year he'll have flowers in his place. You can steal them ;p.

12. Cliffgard-Gray's horse, it seems to be, he rarely races at the horse races though.

13. Potion shop owner-The old man has a few grand children. Give him herbs.

14. Rick-He runs the tool shop. Be sure to stop by to see what's new. He likes to cheat during the Egg Festival using a detector. He's also Ann's Cousin. I don't know what happens if you give him minerals found in the mine, maybe a surprise?

15. Lillia-Popuri's mom, she runs the florist shop and is helpful. Buy the seeds she sells. She also sells flowers, the more you buy, the more points you get on your card. There is a raffle there at the end of the year. Draw a ticket for every 10 points!

16. Popuri's dad-He'll visit you on Spring and leave sometime in fall. He'll inform you of some of the festivals. Also, if you are planning to have Popuri, he'll come to save her but fail?? Anyway, you save her from falling down the mountains.

17. Jeff-The owner of the restaurant. Not Elli's father but her boyfriend. He races at the Sea Festival.

18. Kent-The Potion Shop owner's son.

19. Stu-The Potion Shop owner's other son.

20. Bald Craftsman-Speak to him daily for working hints. He will upgrade your house and extend it. Also he will add add-ons. To do this, go to the little print in the house wall. He usually stands and guards the house, I don't know why.

21. Harris-The mailman. He has a crush on Maria, the mayor's daughter. Be sure to check your mail everyday for leaflets and notes. During fall he'll come over and give you a mushroom.

- 22.Kai-The guy with the pink bandanna. He has a crush on Karen. Give him a wild grape for a recipe. When it comes to swimming, he is good.
- 23.May-A girl in the village. I don't really know much about her though.
- 24.Karen's dad-He seems mean and he is. That's maybe why Karen always argues with him.
- 25.Karen's Mom-She is Karen's Mom. She is very worried about Karen and her dad arguing with each other all the time.
- 26.Craftsmen-Oh yeah, there's a lot of them. They always give you a bunch of useless crap info. Don't listen to them.
- 27.Fisherman-Be sure to talk to him to get the fishing rod. There are three kinds of fish you can catch, fishing is tough, but you have to be quick.
- 28.Jeff-Elli's friend who owns the restaurant. Buy cakes to make Elli happy. Like the local florist, you'll get points on your cake card when you buy the food. He is slow when it comes to swimming.
- 29.Livestock dealer-He'll sell you cows, sheep, and chickens, but for a expensive amount of money. Trust me, you'll need at least on cow by summer 15. The earlier you buy it, the more chance it can enter the first cow festival.
- 30.Shipper-The big tough guy had to become a shipper, not a wrestler? Well, he comes everyday at 5:00pm. Be sure to ship all your stuff before that time. If you ship stuff after that time, it will be all trash the next day, so watch out!
- 31.Mayor's Wife-The vice president of festivals.
- 32.Gen-Next door to Rick, once in a while he'll have the ocarina to sell to you.
- 33.Jiji and Baba-They seem to be running the restaurant on the mountain. But it has no point. Just give them stuff for recipes (go to recipes section for more).
- 34.Entomologist-He will visit on the second year looking for the blue butterfly. To find it, by the blue mist seeds in the flower shop, then plant them in the mountain. Water them everyday, because if you miss one day, you have to restart the whole process. Blue mist seeds cost 500g.
- 35.Old lady(Elli's Grandma)-Yes, the old lady rocking in her rocking chair everyday outside of the restaurant. She's very nice :).
- 36.Duke-I've only seen him in the bar. No point but the Old Wine (Heaven's Gate).
- 37.Woman-Winter the first year, she shows up with her son for thanking you. I don't know though. Maybe taking care of cows.
- 38.Pastor Brown-A teacher and priest. He is at the church and he seems nice. I don't know much about him, though.
- 39.Your Grandpa-He passed away and you inherited his farm. The only place you get to see him is the album in your house.

40.Dad-Will visit you summer 1 the third year. That is the ending, but after that you can play forever.

41.Cliff-The guy with the weird orange hair. He shows up in Spring when he's hungry at your ranch. Also, he leaves in Winter, I don't know if he comes back or not, though.

Few, that's done for, whats next?

CONTROLS-

A Button-Talk to people, grab stuff, throw stuff, use A button item.

B Button-Use B button item, cancel.

Z Button-View Explanation of item you're holding.

L Button-Rotate Farm Angle.

R Button-Rotate Farm Angle.

Up C-Put item you're holding in Rucksack.

Down C-Eat item you're holding.

Left C-Call your horse.

Right C-Call your dog

GETTING AROUND TOWN-

The Florist-

The local florist, Lillia, will be able to sell you seeds of any kind, which you'll be able to plant. Buy these all the time, whether you need money or now, otherwise you'll end up going broke in the middle of nowhere.

Church-

Next to the Florist is the Church. Here the kids learn like in school and on Sundays people gather there. Pastor Brown is here, and yes, he will give you recipes.

Bar-

Next to the church is the bar, which is only open at nights. The bar's owner, Duke, has a secret behind him. And if you are lucky enough to get it, your rep will go up. What is the secret? The old wine is available anytime when you're not married. Anyway, the bar gives you some boosts when you are tired of working during the night. You will usually meet single guys looking for chicks to pick up here. This is how Karen drinks a lot.

Restaurant-

The restaurant sells cakes and pies and cookies. You can also dine here and speak to Elli. The owner Jeff sometimes holds the raffle thing and you can get points on your cake card. Buy cakes and give them to the girl you try to get.

Antique Shop-

Here you can get a few items of importance such as the ocarina. But then that's all including a secret item. Open everyday except for weekends and Monday.

Rick's Shop-

Ann's cousin, Rick, runs a tool shop right next to the antique shop. The tool shop will sometimes have items you will need, such as the milking machine for milking cows. This is a good place to buy house utilities, livestock tools, and special items. Rick doesn't always have these items, and they come for a high price, so save some of your money on these!

Square-

This is where most of the festivals and events are held. The townspeople set up stands and tables for the festivals. These include the planting Festival, Flower Festival, Horse and Dog Races, and the Harvest Festival. There are many more too.

Library-

The library is usually closed at the beginning of summer and winter, but when it's open, you can go in and talk to Maria. Read Maria's books for her to like her. Otherwise, there is not much to do or see here.

Mayor's House-

The mayor has a very small house (smaller than the one in Harvest Moon for Super Nintendo). You can talk to his wife and his daughter, Maria, on rainy days. Again, there is not much to do here.

Midwife's House-

The old lady who lives here will give you hints on marriage and how to get a baby. She's not like the fortune teller from Harvest Moon Super Nintendo, so once again, there is not much to do or see here.

Potion Shop-

Another shop. Here you can buy medicine by checking the bottles on the right. There is some pretty good medicine and some vitamins. Later, you will be able to buy a vitamin that increases the usage of the regular vitamin, give the potion shop owner some edible herbs too. He is usually the one who wins most festivals and contests and events.

Cemetery-

Any livestock who dies in your farm will be sent here. You can always come back and check their grave to remember them.

Livestock Shop-

This is where you will be able to buy livestock and feed. Also, you can buy the cow potion, which will make a cow pregnant, and medicine, which will cure cows or sheep. I suggest using grass as fodder instead of buying it here, it's way better.

Carpenter's House-

This is where you will be able to buy house upgrades and extensions, they are a bit pricey, so you will need to cut a lot of logs to get enough lumber for these. Find more about this near the bottom of my FAQ.

Old Couple's Restaurant-

The old man and woman do nothing. But you can give them some special things for recipes. They live near the summit of the Moon Mountain.

MAPS-

A map is coming soon. So stay tuned, here is the regular guide around town. My maps suck..

Key-

B=Building, roof, etc

X=ground

E,P,K,M,A=The girls usually walk around these places

--=Barrier(Fence, etc)

---TIME---

In the game, there is time. Every 15-30 seconds is an hour. Time passes
everyday till 6:00pm, when everyone goes to sleep and everything closes. It
won't pass when you're inside anything besides the Moon Mountain cave or
mine. You will wake up at 6:00am in the morning. Here is how your time
routine should go:

TIME ROUTINE #1-Beginning

6AM-8AM-Water Seeds
8AM-11AM-Buy stuff at town and/or take care of livestock
11AM-2PM-Gather stuff at mountain
2PM-8PM-Plow your field or cut logs or search for secrets
8PM-Go to bar if you would like to

TIME ROUTINE #2-Flirting with Girls

6AM-8AM-Gather harvested crops/water them; and give them to your girl
8AM-10AM-Buy some flowers or cakes for your girl
10AM-6PM-Give or buy your girl gifts
6PM-Go to bar if you want Karen, give her gifts there

TIME ROUTINE #3-Rich

6AM-8AM-Gather or water seeds and take care of livestock
8AM-10AM-Buy more livestock or more plants
8AM-5PM-Help Craftsmen or go to the mine
10AM-3PM-Gather stuff from Moon Mountain; ship it
3PM-6PM-Finish any unfinished business

TIME ROUTINE #4-Already married

6AM-Talk to your wife
6AM-8AM-Water seeds and/or take care of your livestock

Once you find the music box, you can keep it. The problem is, it's broken, and Rick can fix it. But, Rick needs a Rare Mineral, found in the Mine in winter, to fix it. So you will have to wait a while. Then you can give it to your favorite girl and she will like it.

DAYS 3,4, and 5-Planting

Do the same thing that you did on Day 2. You should have about over 1000 cash by now. Save it -or- buy more cabbage seeds. You should clean your land also.

DAY 8-:Festival: Planting Festival

Nothing special here, you won't be the king so you can just watch. It's rare for someone to take you for a ride, but it can happen. Talk to Lillia to get your balloon. The festivals coming up will actually be real!

DAY 12-Harvest

Your cabbage seeds from spring 2 should've harvested by now. Ship them. Brush your horse and ride it a little bit too. I suggest buying some grass seeds and if you're planning to get Popuri, buy flowers, they're only available in spring.

DAY 13-Buy more Seeds

Yes, you should buy more seeds. Buy potato or cabbage seeds BUT NOT turnip seeds. Although they grow fast, they sell for a very small amount of money. If you are planting a 3x3 square with them, you'll get 8 plus a 9th one later. This will earn you 280 cash only (200 spent on buying the seeds). And you'll get 540 if you ship one more.

DAY 16-Deadline for Horse Race

For you it just a normal day. You cant enter the race cause your horse hasn't grown up yet. Do the normal stuff today.

DAY 17-:Event: Horse Race-

Go to the race at 8:00. Be sure to bid on a horse before the race starts. Since you're not participating, talk to Maria and the three girls. No point in buying the food from the shipper. Once the race starts, root for the person you predicted that would win. If he's not first place, you don't get any medals.

After the first race, you can talk to the people here. Go back and cast your bid on the horse with the short shot. Bidding on long shots is not good, they rarely win. The races go for 2 more, then they end. The bar is closed today.

DAY 18-Preparing

Be sure to harvest and buy cabbage today. Buy potatoes if you want, but not turnips if you haven't bought them already. You'll find a hungry man outside, if you leave the screen. He won't be there, so try to have some food in your belongings and feed him. Do the usual this day. By now all your stumps and rocks should be cleared. Make sure to buy some flower seeds before summer if you want to impress Popuri. Gather veryberries for Karen also. If you have enough money I suggest you buy an organizer from Rick's shop. DO NOT BUY CHICKENS.

DAYS 19-22-Vote for Flower princess

Stop by the Flower bud village square and go left, vote for the flower princess. It will be the choice of five of the girls you can woo. I suggest you vote for the one you want to woo. Do the usual again. It'll be raining today probably. Also if you are planning to have cabbage get them before day 21. Because it takes them 9 days to grow and Spring ends Day 31.

NOTE

If you are planning to date Popuri, Spring 22 is her birthday. Gather some flowers and give them to her, then, dance with her on the Flower Festival.

DAY 23-:Festival: Flower Festival

This is the most important festival in spring. It is important that you buy the cat mint seeds from the florist. If you have enough money go to the masked man in the top right to buy a power nut for 1000g. It's pretty pricey. Also you can buy the bottle from Rick for a cheap price. You can store liquids in it and drink anytime to replenish your energy. In a few minutes the princess will come, it usually is not the one you voted for, but that's alright. Next you'll choose which girl you'll be dancing with, choose one to dance with, and then the day is over.

DAY 24-Free Time

>From days 24-30 you'll have plenty of free time. Don't buy anymore crops, as they won't harvest until summer 1, which they will die. Buy 1 or 2 grass seeds. Now you should start saving up for a cow. Gather as much as you can from now to the thirtieth.

DAY 30-Last day of Spring

You should have a lot of money by now. If you don't have 6000g yet, keep collecting!

NATURE'S BOUNTY-

Medicinal Herb-sell for 70g

Edible Herb-Sell for 30g

Veryberries-sell for 40g

CROPS-

Turnips-grow 6 days, give you 60g apiece.

Potatoes-grow 7 days, give you 70g apiece.

Cabbage-grow 9 days, give you 90g apiece.

NOTE

You cannot buy flowers in summer, fall, or winter. So be sure to buy them before the first of summer. Summer is the season of working. Although it should be called 'lazy', it's when you have to buy a lot of crops, and even a cow if you don't already have one. Moonfreak17 says that you should have a greenhouse by the end of summer. That is nearly impossible, but if you work hard, you can get one!

DAY 1--Festival: Fireworks

The festival is at night, so you can do the usual. Gather walnuts and wild fruits. Medicinal herbs are also available in the cave. At night go out with your favorite girl. Where they should be:

Maria is at the Town Square.

Ann is at the Green Ranch.

Popuri is at the summit of Moon mountain.

Karen is at the beach.

You'll spend a little time with your girlfriend before going to bed. Get ready for the next day, cause it's a blast!

DAY 2--Moneymakers

This is a very hard working day. First, get to the field quickly and rid the bushes. Right now you should have about 5000g. Go to the town and buy one corn seed and one tomato seed and no more. That leaves you with 4400g. Now go to the mountain and gather a lot of stuff before nightfall. Now go to your house and let the dog outside if it isn't already. Last, visit Rick if you have time. Remember to water your plants!

DAY 3--Fishing

I have caught so much fish this day that I got over 1000g! Quickly go to the river and fish. Try to catch the big fish. Once it's about 4 go home and sip it. If you were lucky you should have 5000g or more.

DAY 4--The Brush

Buy a brush. Then quickly get to the mountain and start gathering.

DAYS 5 and 6--Gather more!

Easier said than done.

DAY 7--Your first cow

This should not be a Thursday, if it is, buy a cow tomorrow. If it isn't, then go to the Livestock Shop and buy one. It's young, so you don't need a milker yet. But if you enter the cow festival, your rep will go up.

DAY 9--Festival: Vegetable Festival

What? Another festival? Well, if you saved any cabbage or turnips or potatoes, you can bring them here. No vegetable can harvest this early in

summer. So if you don't have a vegetable, tough luck. You can go there anyway.

DAY 11-Harvest

Tomatoes should be harvested by now. Note that once they are, and you water them, they'll grow back in 3 days, same with corn. Get used to feeding, brushing, and talking to your cow.

DAY 17-:festival: Firefly Festival

This is the boring festeval. If you have a lantern (buy at Rick's shop), you can bring it here and celebrate, otherwise, you can watch the lanterns swim away.

DAY 24-:festival: Sea Festival

This is a fun and easy activity. Be a participant and win a weird pig (oh wow!), tap the A button as quickly as possible. Chances are Kai will be second. He'll usually be tied with you while swimming.

DAY 25-Girlfriend

Your girl should be friendly with you by now. Try giving her what she likes today through summer 28. You can get married + be rich!

DAY 29-A Fully Grown Cow!

Yep, it should be grown right now or tomorrow. Buy a milker today if it isn't Wednesday or the weekend. It'll give you small milk. Try not to get your cow sick!

DAY 30-Last But Not Least

Get all the harvested corn or tomatoes out today, also gather all the flowers you planted and put it in your organizer or give them to your girl. That's pretty much it for summer.

NATURE'S BOUNTY

Walnuts-sell for 70g

Wild Fruit-Sell for 40g

CROPS

Corn-Harvest 13 days, repeat, sell for 120g

Tomatoes-Harvest 9 days, repeat, sell for 100g

-----AUTUMN-----

DAY 1-Cow Preparations

Brush and feed your cow. Brush your horse also, and you should have done that all through the seasons from the start (brush and ride the horse a little bit, that is).

Gather mushrooms and put them in the shipping box. Also get the medicinal herbs. Give the wild grapes to Kai and Karen's father, you'll get two recipes. DO NOT WASTE MONEY ON EGGPLANTS.

Day 4-:Festival: Cow Festival

If you entered your cow, chances are you wouldn't win cause it still produces small milk. But your reputation with the villagers will go up, and your cow will like you more =).

DAY 12-:Festival: Harvest Festival

This is like the Flower Festival. Talk to everyone and even the guy with the big lips. Once you do Elli will come out of the racetrack door. Talk to her and eat her cake. If there is a coin inside, you'll be the Harvest King and you get to play your ocarina during the Spirit Festival. Be sure to talk to Maria before you talk to Elli!

DAY 16-Extension

By now you should have at least one or two extras in your house. If you don't, I suggest getting a bathroom or kitchen and stairs first. These don't have a point, I think.

DAY 20-:Festival: Egg Festival

This is a hard festival. You have to find a lot of eggs in order to win. See those holes around the village? Search them for eggs. The mayor will show you the egg, you try to find it. It's hard because whenever mayor yells "Time's up!" it means someone else has got it. If you win you get a power nut for now.

DAYS 23-27-:Event: Bridge work

The carpenters want to build a bridge to the other side of the mountain. You'll get 1000g each time you help them. Helping all five days will give you 5000g! It's a lot for now.

DAY 28-:Event: Horse Race 2

This is your chance to race in the local horse race. You'll race for one round. Tap A steadily as you go, the more you brushed and rode your horse everyday at the farm, the faster it'll be and the better stamina it'll have. I have also never had bought anything in the mayor's souvenirs. What does the sustaining carrot do? It's the only thing I have right now.

DAY 30-Recipes

There are lots of recipes in fall. If you don't have all of them, then you should read my 'other' list. Do it before Winter comes. Also, cut all your grass and eggplants if you have them.

NATURE'S BOUNTY-

Mushrooms-Sell for 70g, scattered around every corner of the mountain.

Poison Mushrooms-sell for 30g, no point in getting these.

Wild Grapes-sell for 40g, get these once you get all the medicinal herbs and mushrooms.

CROPS-

Eggplants-Sell for 80g (or 70? Forgot). Don't waste money on this crap. Grow back three.

-----WINTER-----

DAY 1-What?! No crops?

That's right, your land has been fully covered with snow. You can't plant anything unless you have a green house. So you have to wait a little. The livestock dealer will come and give you cows so you'll need to keep them till the fourth. Make sure they're not sick or you won't get such a good reward.

DAY 2-Annex

Get a bathroom/kitchen today. Start saving up for a Log Terrace.

DAY 4-Cows

A woman and her son will drop by today and tell 'thank you' to you. I think what they mean is the cows. The livestock dealer will come and take them away. You should have about 8000g or more right now.

DAY 8-30:Event: Mine open to Public

This is a good way to make money in winter. Get your hoe and go down to the mountain cave near the craftsman house. You have till 5pm or till when you faint in the mine. It's a lot easier if your hoe is level 2. I've gotten a power nut here before, but what you always seem to get are the iron ores, coins, and pontata roots. Give a root to the potion shop owner. Find holes to go deeper in the mine.

DAY 10-:Festival:Thanksgiving

Go to Flower Bud Village and talk to the girls for cakes. If you have a wife, she'll give you a cake. All you really need to do is brush the cow.

DAYS 12-16-:Event:Work on Hot Springs

Like bridge work, just go to the mountain and help the carpenters work on the hot springs and you'll get 1000g. That makes an extra 5000g earning for 5 days. Be aware that 3 logs will disappear, so you won't be able to get that much lumber.

DAY 18-Deadline for Dog Race

Enter, if you fed your dog a lot, it'll be fast. Take care of your dog also. After that, go to the mine and start gathering!

DAY 19-:Event: Dog Race

This is pretty much the same as Horse Race, except you can get new prizes. I have never won a dog or horse race, so don't ask me what you get if you do. Remember, cast yours in on the horse or dog with the least medals, its likely he/she will win.

DAYS 20-24-Mine Time

These days you should go to the mine and get more stuff. Also you should buy a Log Terrace now, if you have enough lumber. Don't buy the baby bed yet.

DAY 24--Festival:Starry Night

At night you can hang around with your girl somewhere. Popuri is at the summit of moon mountain, Karen is at the beach, and Maria, Ann, and Elli should be at the church. This will raise your heart level a bit.

DAY 25-Huh? Christmas

I wonder why they don't celebrate, anyway, wrap everything up today. The year's almost over. So do whatever you need: Go to the mine, gather money, you really need something right now, don't you?

DAY 27--Festival: Spirit Festival

At night you'll celebrate this festival. Go to the square. If you've won the Harvest Festival, and bought an ocarina from the ceramics shop next to Rick's, you'll be able to participate in this festival.

DAY 30--Event: Church

Go to church at night and celebrate New Year's Eve, then you can go with your girlfriend anywhere she wants.
Winter is over. Yay!

SPRING 1-New Year's Day

Go to the square. Whenever you talk to a person, they'll give you something to drink and you'll fall asleep. That wraps up the day. I suggest talking to your girl.

NATURE'S BOUNTY-

Iron Ore-Sell for 100g

Moonlight Rock-Sell for 500g

Blue Rock-Sell for 700g

Rare Metals-Sell for 1000g

CROPS-

Strawberries---

Can only be bought if you have a greenhouse.

Sell for 150g each strawberry. Will not grow back.

S E C O N D Y E A R-

Now that the first year is over. You will kind of get to the point of the game. Here is the walkthrough for the second year and third year's spring, after that your dad will come and you will get to play forever.

I'm not going to have the walkthrough go forever, though.

---SECOND YEAR SPRING---

SPRING 1-Mail

This is New Year's day, and you will get a letter from your dad telling that he will be coming home sometime. You might also get a letter from your girl and a letter from Cliff. Go celebrate the New Year's!

SPRING 2-A new start

Now that it is Spring, you can go buy seeds, ANY KIND. Buy flowers and grass. If you do not have a cow yet buy it now, or else buy a sheep. Your girl and you should be flirtatious by now, if you are not, shower her with gifts until she has a green heart on the bottom right of the text box. You should start gathering on recipes, as they will do you good and give you a better ending. Anyway, do everything you need to do and there you have it, on your second day of second year, you are doing good.

SPRING 4-Money

Since you might have lost a lot of money in Winter, you should start getting it now. Go to the mountain and get very berries. Give any leftover berries to Karen. I suggest you do this until it's the ninth, it is very helpful.

SPRING 9--Festival: Planting Festival

If you won at the harvest festival last year, then you have a good chance of winning this sowing festival. If you win this, you have a better chance of winning the harvest festival in fall. You will also get a picture if you won. It's pretty cool to see yourself flying on the hot-air balloon if you win or get picked to go with. I have never won, but I was chosen to go with by Harris, the mailman.

SPRING 12-Tool Level Up

Now that you are this far, you need to level up your tools. Hammer is the easiest, if it is level 2, just pound the ground a few times and it will become level 3. Your watering can should be level 2, your axe should be level 2 1/2, your hoe should be level 2, and your sickle should be either level 1 going to level 2 or just level 2. Spring would be a good time to do this.

SPRING 14-Horse Race is coming!

Have you been taking care of your horse by riding it every day? Have you been brushing your horse? If so, you have a chance of winning the local horse race coming up. If you win you will get a picture. Remember, even if you don't think you'll win, it's doesn't mean anything. Give it a chance, you might win.

SPRING 16-Deadline for Horse Race

The livestock dealer will come by and tell you about the Horse Race and ask you if you want to enter. Say yes. Then go to town. Your girl's heart should be yellow, or nearly yellow. Spring is the best time for marriage, at least with Popuri and Elli. Anyway get ready for the Horse Race.

SPRING 17--Event: Horse Race

Go to the square for the first race. Don't miss it. It might take a few tries to win any race, just remember to press the reset button if you lose on this race. One good trick is when racing, do nothing until near the end when all the horses are exhausted, then start pressing the A button to get

ahead. I found this handy and won one of the races in Fall. Bet on the lowest number, if you lose, reset.

SPRING 18-The Muzak

Not much to do. If you try to marry before Fall 4-8 you won't get the old wine. Unless you buy a cow on Spring 12-15 on the first year and win that cow festival (physically rare). Go to your yard and go south from the start of the north soil end near the tree 11 spaces. Dig on the eleventh space for a music box. If you want to date all the girls at once, then give the box to anyone but the one you try to woo. Do everything else today.

SPRING 19-22:Event:Vote for Flower Princess-

sob sob my girl never won any festival yet. Anyway go to the square and vote for the flower princess (just vote for your girl) the person I vote for all the time never won. 3 girls: Ann, Karen, and Maria always win. Popuri never wins *sob*.

SPRING 23-:festival: Flower Festival-

Go around and talk to everyone. Hope your girl wins. If she doesn't or does dance with her. After that the Festival will be over.

SPRING 24-Planting-

Unless you already have a greenhouse, DO NOT PLANT ANYMORE vegetables. At this time your girl must be at a yellow heart. Give her lots of stuff so she will like you more. Also don't just ditch other girls give them stuff too. And give stuff to Harris, Gray, Cliff, Jeff, and Kai and they might end up married with someone.

SPRING 28-Pink Heart

This or before is when your girl should be on a pink heart. If she's not just keep giving her stuff until it's pink. After it is wait till Rick's shop has a blue feather and buy it. You girl will say that she will marry you next Sunday.

SPRING 30-*NOTE*

On this day, if you still have vegetables, save them. If you bought the organizer from Rick, or the kitchen, you can put it there. If you haven't just keep it in your rucksack.

SUMMER 1-:event: Fireworks

Spend time with your girl on this festival. If you forgot where they go, look below:

Ann-Green Ranch Field

Maria-Town Square

Popuri-Summit of Moon Mountain

Karen-Beach

Elli-Town

If you do spend time with any girl they will like you more. So don't always spend time with your girl/wife. Your wife won't cheat on you and you won't cheat on her. That won't happen in this game.

SUMMER 3-Marriage

Heh heh. Today you will need to get married. It should be a Sunday. You will automatically be sent to the church and married (harvest sprites will feed your cows/sheep). After the marriage it shifts on to the next day. You also get a picture.

SUMMER 4-Herb Rice Cake

There is a glitch in getting this recipe. If you haven't got it yet, then go get a walnut and give it to Elli's grandma for a Herb Rice Cake. Also if you want to win new year's go to bar at nights and drink a lot. Your wife won't leave you, so don't worry.

SUMMER 5-Working on the Farm

Do everything in the morning you need and give eggs to your wife or Elli if you want to. You need to collect a lot of money, so know that. Remember, ship your milk and buy a lot of corn and tomatoes, because you'll get a lot of money like that.

SUMMER 9-:festival:Vegetable Festival

On Spring 28, I told you to save a vegetable. Did you do that? Bring that vegetable to the city and talk to the Mayor/Jeff at 9:00AM (hold the vegetable in your hand). When you enter just talk to everybody like you do in the other festivals and then the Mayor will announce the winner. Eggplants usually win, but bring corn if you have it. I brought an eggplant and lost.

SUMMER 10-Work

Back to work, be sure to water your plants every day for the greenhouse if you don't already have it. Also save money for a cow if you don't have one. Remember, you want the Great Hall, so try your best to get everything and MAKE A BACK UP COPY BEFORE THE THIRD YEAR. There is one photo required on a certain date and if you skip it without having a back up copy before it, you have to start a new file in order to get all the photos.

SUMMER 11-Game Check

You're about more than halfway through the beginning (the beginning ends on Summer 1, year 3). Someone told me there are 99 years only, but I think it goes forever. Anyway here are the requirements you should have by now:

-Cow

-Sheep

-Chicken

-Over 20000 Gold

-Organizer

-Carpet

- Kitchen
- Bathroom
- Baby Bed
- Stairs
- Wife
- Level 3 Hammer, Watering Can, and Axe
- Invincible Katori
- At least 15 recipes
- At least 4 power nuts
- At least 250medals (Remember, Watsonz Trick)
- At least 5 pictures

If you don't have one or two or more of them, I suggest you try to get them (besides recipes, power nuts, and pictures) by the end of Summer.

NOTE

Ann's birthday is today. So be good to her, if you haven't married her yet, give her all you can today.

SUMMER 12-MoonLight stone

If you have a moonlight stone, give it to Rick. He'll be able to get you a lantern in time for the Firefly festival, coming on the 17th. On the 10th the library should have opened. Ann should be nicer to you, and Gray too. Finish the day by foraging and being nice to your wife.

SUMMER 13-Weird Yet Cool Tricks anyone?

Try 'em. They're at the bottom in the Weird Yet Cool section. Not much to say but just keep planting and watering and harvesting your corn and tomatoes. You should have a greenhouse by now.

SUMMER 14-Don't try this

MORE COMING SOON! Now here's Headbake's Millionaire FAQ.

HEADBAKE'S FORTUNE WALKTHROUGH

SPRING

On the first day, chop as much as u can while spending time gathering in the mountain and get a 9 by 9 square of crops seeded and watered and if u can

get some fish from the ponds and other areas after u get the fishing pole from the fisherman.

CHOP WOOD EVERY DAY!!!!

You will need it later in the game, and you have time to do it now so do it. I suggest going to the mountains and chopping wood there if you run out in your yard.

The next few days keep fishing buying more crops and watering and make sure to get your horse also look around for a girl that you might be wanting to marry there are 5 choices but I recommend Karen, she is the hottest, but if you are gonna go for money stay with me on this faq, you, don't really need to get to know her till the second year if you wanna get married before your dad comes. A suggestion is that you might want to go for Elli because she is the biggest help on the farm, but all of the others get more helpful around the farm too after u are married to them for a few years. Actually, this Millionaire FAQ isn't about marriage, but money, so, don't do anything yet...

SPRING 15-

After you get your first harvest keep getting more 9 by 9 plots, by the 15th you should have at least 7 of them growing if not more, and make sure to fish in the morning if you can have time that day keep on a chopping too.

SPRING 17-

Get some pies too and try for the berries if you can so you can keep you strength up and try to clear up the rocks from the farm one of these nights with a hammer and u don't need to use the sickle to clear weeds, just use it anyway if you have enough energy because it will help it level up when you are growing grass.

SPRING 18-

Today is the horse race. But you can't race. If you're planning to get a lot of medals do Watsonz trick (go to bottom of the page in the tips section).

By the 22 you should have around 12 plots of Veggies growing and 150 lumber if not, step it up a notch, you are trying to get the greenhouse soon and some cows and chickens after today do not plant cabbages

After the 24 do not plant anymore veggies

SPRING END

You should have at least 14 plots of crops growing.

Buy a cow today and some fodder, and with the leftovers money buy as much grass and food as you can for the next season because you are gonna be working a lot...

On the 30 you should clear your crops that haven't harvested, if you didn't listen to me..

SUMMER

If you got a girlfriend watch the fireworks with her, otherwise, back to being a stingy miserJ.

Go for some new crops, get mostly tomatoes and a few corn if you want, but if not in the greenhouse the corn are worth less than the tomatoes... and keep chopping and gathering if you can manage invest in lots of health potions too if you want too so you can stay up all night, I only used this method after the 3rd year because of the cost, but if you want to plot a lot of extra crops do this.

Buy another cow and plant more grass, by now you should have a lot of grass growing on your field so you can start buying mass amounts of cows, and so you can support them don't invest in sheep unless u want the wool for a girl if you want some extra money some days instead of a more worthwhile steadier flow that yields a higher profit.

Summer 15

-You should have lots of dough and cows buy now from your first harvest, and your horse should be maturing soon too, also if you feel like chicken, get some...

Summer 25-

-you should be nearing the mark of 20000g now keep it up, if you got some extra money and you want to fill up on cows before the greenhouse then do it, I went for the cows and chickens, because time doesn't waste in buildings and I could leave them outside if I wanted to for a few days.

Summer end-

Almost to the greenhouse if you have been getting wood and gathering, and fishing too, also cut the plants that didn't harvest on the 30 again and get your gathering on.

Should have a full pen of cows if you went that way

FALL-

Gathering is still a must, and buy a lot of eggplant, even though they don't earn much they grow fast, and you need to get to the 30000/850 mark so you can get the all important greenhouse and chop wood till u die, also don't worry about hoeing anything extra unless you know you can handle it.

Fall 20-

you should have almost all of your cows pumping milk now and some going medium and maybe even large if you treated them right also at least 2 chickens for a little extra money

Fall 25

you should have the greenhouse building by now or else... you will have to wait a while for it that you don't want to do that.

WINTER-

Winter 5-

Try and have the full pen by now. Invest in more food to keep you more workable for the mine when it opens on the 8. Greenhouse should be up and running by now, use it as you normally would use outside and you should plow

half of the spaces in the greenhouse for watering, you should have almost all of the upgrades by now except the hoe and the sickle. Lots of milk and chickens too.

Winter 20-

Use all of you money and wood, which you should have enough for the kitchen if you can. So you can work all day and not get tired it is very helpful to have the kitchen, but not a necessity.

Winter 30-

By now you should have most of the power berries I have listed and go to one of the parties for new years I recommend getting some drinks with Karen at the bar, because I don't like church. Everything should be full by now the greenhouse cows filling the stables, and a full chicken coop.

You should also have a bunch of fodder

Step 2 rinse

Step 3 repeat

YEAR 2-

Spring

Plant all corn in your greenhouse because you get the same amount from them as tomatoes and your have to make less harvests, or you could plant all grass in your greenhouse and leave all of your animals in there all the time without having to worry about feeding them. This would make it so you would have to plat outside though which could be a time problem, so I recommend this only if you want to lose a little money, but make real time easier to cope with playing this game. Also planting grass inside only constricts what you can grow to the seasonal things. Try to out drink everyone at the new years festival.

Summer

Buy the special flower from the shop when you can because you get a picture in your album for it, and it will also get rid of that entomologist (green guy) Also if you want keep getting wood to get all of the extensions for your house so you can have a party at your house, the baby bed is necessary for your wife to have a baby.

Fall

Not much new just keep harvesting as much as you can and keep making friends, if you aren't using all of your time, plant some veggies outside, or chop some wood, fishing is fun too, but seems to waste too much time unless u got the pole upgraded. Also it is a good idea to have a girl in red by now so you can get married before your daddy comes.

Winter

Buy a lot of food for this because I think this is the most fun season, You will probably want to buy cakes instead of other things so you can get some points on your card, or medicine, Do your usual routine in the morning, then

talk to whomever you need to talk to, then go to the mine with your hoe and a ½ or ¼ bag of cake, Hoe away all through the day, and you will usually find some nice things in the cave worth some hefty sum of money, and this is semi entertaining, the only thing I wonder is if all this hoeing is worth anything towards your hoes exp level. After the work go to the springs a few times then do whatever work needs to be done. Have some fun and get some sleep. More years to come in a few days.

Have a nice harvest, Headbake

Secrets of the many years to come and weird things (Headbake's version)

-You get a crop harvester in the 15 year if you give the man in black who comes to the farm and yells at you for farming too much a full moon berry.

-Full moon berry- You get this at moon mountain on the 10-12 of fall you have to pick it.

-Get the watering system parts on sometime after the 15 year, I am not sure exactly because I am not sure yet, but I have seen them.

-Rick is a loser of an inventor.

-Do not pay attention to anything the guy in black says from the 5 to 10 year, he lies about those wannabe "secrets of the game".

-Don't spit into the wind.

-The invincible katori is a must if you want to keep your greenhouse.

-And the rug that you can get is so stylish, you think it has a better purpose, maybe it does... your dog pisses on it.

-Don't talk to a dead grandma, they don't talk back.

-Give elves lots rare metal for a surprise, give them a vane for that to come true.

-On the contrary Michael Jackson is not in this game..

-You don't get fat, so eat as much as you want.

-The honey you get from the raffle at the end of the year looks a lot like piss..

-Only buy flowers if you want the power berry, otherwise they are pretty much useless.

-Girlfriends cook food for you sometimes, so be nice if you want some grub.

-To get into the carpenters on an "illegal day for work" wait in that are till 8 then go right the extension wall for the upgrade, ignore the fact that no one is in thereJ.

-----HARVEST MOON 64 FAME WALKTHROUGH-----

By MoonFreak17@AOL.com

Ok, this is a walkthrough to get what some of you might call a "perfect" or it's at least "semi-perfect". This walkthrough will get you the great hall and all the photos and a great farm and secrets in order that I recommended you get them in. I will start with spring 3 (since that is the first day and go from there but I hope you enjoy this walkthrough I know I will have fun typing it =)

Spring 3-

Today is your first day so your going to have to work real hard the first 2 seasons to get some cash flow your immediate goal is to save money and wood to get a greenhouse around the end of summer. So today go to the mountain and pick everything there are nine things pick them all (you will not be able to put all 9 things in your rucksack your going to have to hold one of them) then go ship them all, then go buy some potato seeds (if you do the math in the long run they make you more money). Ok your going to have to plan here you don't want to use to much strength today but you need to clear the area near your shipping bin don't clear too much because you do not want to have a cold when you wake up in the morning so clear enough land to hoe a 3x3 square then plant your potatoes then water them then go to bed. (Also if you find time swing by Green Ranch to get your horse and, go talk to the fisherman to get your pole)

Spring 4-

Ok, to start off go and get and ship all 9 things in the mountain to your shipping bin if you've done this correctly you will have enough money to buy 2 more potato seeds then go home and clear just enough land to hoe 2 more 3x3 squares (pretty close to your first one is most convenient) then plant them and water all your seeds. Go quickly because the later you stay out the more chance you have of catching a cold.

GAME CHECK: Here is where you can see if you got most of the stuff up to this point so far you should have€!

3 3x3 fields of potatoes

A horse

A fishing pole

At least 400-500G

Spring 5-

Today is not much different other than you will need to go buy one more bag of potatoes and pick all 9 things in the forest today spend time clearing land and plowing an extra 3x3 field by now you should have 4 fields of potatoes that is enough for the first year, also tonight grab a flower and

give it to Duke (the bartender) if you keep doing this most days he will give you the "Old Wine" which you will need later.

NOTE

Any rainy day after this point should be taken advantage of chop wood every rainy day, you can get 42 pieces a day but also make sure to pick all 9 things that's very important, also remember to talk to your horse every day so he will be happy and be able to win the horse races and grow up faster.

Spring 6-

Today will be a little different have your fishing pole ready and while your in the forest picking, spare some time to fish in the pond behind the fisherman's tent if you catch a fish throw it back in there you know you've done it right when you see a plop of water spout out then a water imp will give you a blue power berry you will need this also be sure to drop by the flower shop and buy as many potato seeds as you can you need I would recommended you buy 4 "ok then regular stuff today pick all 9 things, clear more land, water your crops, and be sure to give Duke the bartender a flower.

Spring 7-

Today you will want to do the same things as previous days, (water crops, Pick all 9 things and ship them, clear more land) but also while you are picking fish at the river left of the fisherman's tent catch a big fish and throw it into the pond behind the fisherman's tent the water imp will come out and give you a red power berry (which increases strength).

Spring 8-

Today is the Planting festival, also your first potatoes will be in so quickly harvest these and plant new potatoes in there place water the rest of your crops then go to the festival.

Spring 9-10-

These days just harvest any crops that come in and be sure to plant new potato's in where they were and be sure to water all your crops every day and to give duke the bartender flowers (NOTE: the bar is closed on Sunday)

Spring 11-

Today you will want to make a stop to Rick's shop to buy the brush, be sure to brush your horse every day after today so you can have a good chance to win the horse race the first year. But otherwise today like any other pick and ship the 9 thing's, water all your crops and be sure to give a flower to Duke.

Spring 12-17-

These days you will have several pickings of potato's be sure to pick them and ship them, and also be sure to replace them with new potato's you will also want to make a stop or two to the flower shop to by more seeds of potato's more importantly by a few grass seeds and plant them near your barn's at the end of spring try to have about 5, also be sure to brush your

horse every day and be sure to pick all 9 things in the woods, and last but not least give a flower to Duke at nights. Also take a break at the local horse race its good to use the "Horse Race Coin Trick" here just bet 99 on the highest bidding and keep resetting until he wins try to get at least the Stamina Carrot.

Spring 18-23-

These days do ALL the normal chores (you should have the routine down pat by now) Around the 18-20 you should have about at least 4 grass fields recommend 5 when you do go to Green Ranch and purchase your first cow you should have about 20-30 or so grass already in your silo just feed it that be sure to brush it and talk to it everyday and also be sure to check the weather and let it go outside on sunny days you will be surprised how quickly your cow will produce L size milk this way! When you get done with that be sure to vote for your favorite girl in the village square. On the 23rd of Spring go to the flower festival but be sure to pick any grown potatoes, when your there purchase the bottle from Rick and the power berry from Samuel the Salesman in black, then dance with your favorite girl.

NOTE After this date do not plant any more potatoes they will not grow before the end of Spring.

Spring 24-30-

These days you can kind of take it easy. You won't have many more harvest of potatoes but be sure to pick all in the woods so you can get maximum money. Here is a trick with you empty bottle find time to visit the wine cellar in the vineyard and fill your bottle up with wine use your tools to build them quickly to the next level when you get tired drink wine. Some time Duke will give you the Old Wine which you will need later you've done good this Spring lets hope you do as good in Summer. Also be sure to save on of your potatoes for entering the Harvest Festival.

GAME CHECK

Have 4 empty 3x3 fields for growing veggies

Have a cow (preferably M size milk)

Have AT LEAST 5000G

Have AT LEAST 250 wood

Have Old Wine

Have empty bottle

Have Lv.3 Hammer, Lv.3 Watering Can, and the rest at least Lv.2

Have 5 grass fields

Have Stamina Carrot

Saved a potato for Harvest Festival

Have everything on all other game checks.

Quick Talk about Summer: This season your going to have to work very hard. You need to make a back-up copy of each day you play this season in case you have a hurricane and we don't want that, hurricanes are bad. You won't have to work as hard as in some cases (In this walkthrough its more than about money) but you will have to work towards your goal of getting a greenhouse at the end of summer this is one of the most important things to having a "Perfect Game" you wont have much time to socialize with the townsfolk and you wont be able to see girls much either but it will pay off trust me. Now for the summer 1 walkthrough:

Summer 1-

This day will probably be the most easy going day of the season you get a break of with the Fireworks Festival but its soon back to work again today get yourself familiarized the summer season get the location and best route to pick all 9 things in the forest. You first of course, brush and feed your cow then, when your familiarized, pick all 9 things but here is a tip you will have that potato from spring still in your inventory so what you will need to do is when your first one your route don't pick the edible grass near the fisherman's tent save that then pick and ship the rest then come back and pick and ship it every penny counts in this game so do that and your well on your way. After that go to the flower shop and purchase 6 bags Of tomatoes and be sure to hoe 2 more 3x3 squares near the rest of them then plant and water them watering should be a breeze since you have the gold watering can then go to the fireworks show with you favorite lady. One thing I forgot to mention on the spring walkthrough always cut your grass when it's at length always. Remember to brush your horse everyday also don't worry about feeding your dog you have next year to win the dog race but you want to win the horse race every time so people will like you faster.

Allow me to summarize everything I just said here is the objectives for today:

Pick all 9 things and ship them

Hoe 2 more 3x3 squares

Purchase 6 bags of tomatoes and plant them and water them

Brush and feed your cow

Go to Fireworks Festival

Ok the rest of the days are not as confusing.

Summer 2-8

These days do the same stuff (9 things I think I've sort of stuck that in your mind, feed brush cow, and water tomatoes) But find time in between to go by Rick's and purchase The closet and the milker both of these items will come In handy. Once you have the closet find some time if you can to stock it with flowers just pick one a day until its full but you need a closet full of flowers before the end of spring trust me. Also find time to purchase one more bad of grass and plant it you should know have 6 3x3 squares growing.

GAME CHECK

Have closet

Have milker

Have 6 3x3 squares of grass

Have not been hit by hurricane

Still have cabbage from spring

Have all things on all other game checks

Summer 9-

Today is the Vegetable Festival, don't worry about picking in the woods today take a break. Be sure to water your tomatoes and feed your cow. You may or may not win good luck

Summer 10-16

These days are very important your tomatoes will have grown and your cow will have grown if you have taken him outside every sunny day he should be producing at least M size milk but be sure to take him out side every sunny day. The days you tomatoes are in spend time doing nothing but picking them all use your horse for more convenience but it will probably take you all day to pick them so every day that your tomatoes are not in pick all 9 things and milk your cow everyday and feed him ad brush him so remember every 3 days from now on are spent only on picking tomatoes. You're doing great so far keep it up almost there.

NOTE

>From this point on you should also chop wood like crazy even at night if you have to just go to the bar and drink water so you wont get a cold.

Summer 17-

Ah, finally a break. Just today do anything you would any other day(pick, water, brush, feed) But at night go to the Firefly Festival and take a load off.

Summer 18-23-

Work, work, work, these days do everything you would any other day you get the routine. *Remember* every 3 days pick tomatoes when they are in.

Summer 24-

Ah now here is a fun festival when you wake up take care of your cow and ignore any tomatoes if they're grown (they're evil) you're gonna go have a blast at the SEA FESTIVAL! Tap the A button as fast as you can and win the Invincible Katori. Ah doesn't it feel good to take a break. Also you get a photo. The racers are Cliff, Gray, Harris, Kai, Jeff and you. Kai is the fastest but you can still win.

Summer 25-30-

Now down to business hopefully if you've been doing what I have

told you should have well more than 30,000 dollars and 580 wood then go with pride that you made a huge record of getting the green house so fast YAH!!! You did it!! After you got the greenhouse say GOODBYE to picking in the woods. And go and purchase lots of corn about 8 corn seeds should do it for know and fill the greenhouse with corn! Then you can relax a lot know be sure to take care of your horse and cow and now feed your dog also since you wont be needing to pick berries anymore feed him I hope you got those flowers I was telling you about you want to impress the ladies don't you. Fall and Winter are going to be a blast! You're well on your way to getting the Great Hall, keep it up!

GAME CHECK

Have Greenhouse (YEAH!)

Have Invincible Katori

Have not been hit by any hurricanes (make back up copy)

Have Cow producing L size Milk

Have all Tools Level 3

Have much enthusiasm your going to get the great hall!

Have all things on other Game Checks

WHERE DO YOU BUY THE CROPS?

You can buy crops at the Florist Shop. Each season the crops will change. On winter there will be no crops, so keep that in mind. What you need to buy mainly is grass, if you have livestock or plan to have livestock, then buy it in Spring or Summer.

GRASS-500g

Sale-Spring, Summer.

Grass is probably the most important seeds. Plant them like you usually would with other seeds. You do not need to water them. After a few days the grass will fully grow. You your sickle to cut it, each grass space equals a piece of fodder for your cows and sheep. You can buy fodder 30g apiece in the green ranch, I suggest you buy grass instead, because it will always grow back.

CORN and TOMATOES-300g

Sale-Summer.

Summer is the best season to harvest to get money. Corn and tomatoes are some of the best crops ever. Although they take quite a lot of days to grow, they will grow back in about 3-4 more days. They will also sell for a lot of money, so on your first summer, gather these, and you will get plenty of money.

CABBAGE, POTATOES, and RADISHES (turnips)-300g

Sale-Spring

If you plan to get a few bucks in Spring, get the potatoes. Cabbage will.

FARMING TIPS-

-Plant your first crops near the Shipping Bin and they will be easier and faster to harvest.

-You don't need to water your plants on rainy days. If you work hard in the rain, you'll get sick.

-Vegetables grow at different rates, and are worth verifying amounts, so plan carefully.

-Crops that have not been harvested by the end of the season will die, unless they're in a greenhouse, so keep track of deadlines.

-Saddlebags for your horse can hold veggies, making it easier to harvest your entire spread.

-Watch the clock. Working too late into the night increases the likelihood of getting sick.

-Check your mailbox regularly for reminders of special events going on outside your farm.

-Your dog will be a lot happier if you feed him and keep him inside during inclement weather.

-Be careful handling your tools. You can accidentally ruin crops that you've already planted.

L I V E S T O C K--- Harvest Moon 64

Livestock play an important role in Harvest Moon, when you have one, it will usually produce products that you can ship for money. If you have played any other Harvest Moon, you can find out that cows and chicken produce milk and eggs. In this game, sheep are added. The sheep produce wool about every 6 days. Remember that cows and sheep have to grow up first before they can produce anything. Also, not taking care of livestock can lead to death of livestock. And that should not happen due to the money you spend on the livestock.

COWS- 6000g

It takes 21 days for a cow to grow up. Once they do, you can use a milker to basically get small milk from it. The more you brush, feed, and talk to it, the larger the milk will be.

MILK-

Small Milk-Basic milk. 100g

Regular Milk-Usually, the cow will get sick before producing this type of milk. 150g

Large Milk-Hard to get, once you have this milk, you can be sure that you'll win the cow festival. 300g

Gold Milk-If you're first place in the Cow Festival, you will get this. 500g.

SHEEP- 4000g

Sheep have wool, which sells for a huge amount of money. Like cows, they take 21 days to grow, and can get sick. The wool, however, is different usually. It starts out regular, it can go up to quality, but it can go back to regular. So be sure to take very good care of your sheep! Sheep will not produce wool on a daily basis.

WOOL-

Regular Wool-Basic Wool. 900g (Whoa!)

Good Wool.

High Quality Wool-Sell for a lot of money. 1800g

CHICKENS- 1500g

Perhaps you don't need to waste your money on these cluckers. Chickens produce eggs every day, eggs ship for 50g. You can also make an egg hatch by putting your egg in the hatch bin. It will hatch, and in 3 days it will grow. There is only one type of egg, which sells for 50g. Also be sure to

feed your chickens and chicks every day, because they die quickly!!

TIPS ON LIVESTOCK-

- Get in the habit of brushing all your cows, sheep, and horse every day. They'll appreciate it.
- To insure a happy and healthy bunch of animals, never leave them out in the rain or snow.
- A particularly healthy and happy cow could win you a prize at one of the local festivals.
- Animals can graze outside on grass you've planted, but they should be fenced in for protection.
- You can purchase medicine for sick cows or sheep from Doug, the Green Ranch owner and the livestock dealer.

F O R A G I N G--- Harvest Moon 64

There are a lot of things that I mentioned in the walkthrough that deal with gathering. They are always different in each season. They can only be found in the Moon Mountain area. Here are the items you can get, and use, in HM64.

Flowers: Can't sell these, but give them away. Found in every season except Fall and Winter.

Very berries: These are in Spring, and you can pick them up and give them to people, or sell them for a fair amount of money. Good for the vineyard people. Found only in Spring.

Medicinal Herbs: There are only a few of them, but these sell for more than Very Berries a piece. Give these to the Potion Shop owner. Found in every season except Winter.

Edible Herbs: Again, there are only a few of them, and they sell extremely low. But the Potion Shop owner is looking for these, so it's advisable to give these to him. Found in every season except Winter.

Small Fish: Caught a lot. These are usually caught in the regular pond, and don't sell for a lot.

Fish: These are caught in various places. Sell for an average price and good for health.

Big Fish: These sell for a lot. Catch them in the river and either give them to Saibara, the fisherman, or ship them.

Wild Fruit: Only found in Summer. Sell for an average price and good for the vineyard people.

Walnuts: These sell for a higher price and found in Summer. They are the small things that look like green corn seeds ;).

Wild Berries: Found in Fall. Sell for an average amount and good for gifts

and the vineyard people.

Mushrooms: Found in Fall also. Sell for a high amount and good for gifts. Give these to the Harvest Sprites and get good luck. Find more in the Tips, Tricks, and Special Events section.

Poisonous Mushrooms: Another thing found in Fall. Sell for a low price. Don't give these to people, as they'll hate it. Actually, don't give these to anyone for best results.

Iron Ore: Found in the mine in Winter. Sell for a small amount (compared to the other minerals) 100GP. Dig to find these, don't give them to anyone.

Moonlight Stone: Found in the mine in Winter also. These sell for 500GP and Rick is looking for these. Don't give them to anyone else though.

Blue Rock: Give one to Gen, the Artisan shop owner, to get the Blue Vase. They sell for 700GP. Once again, they are found in the mine in Winter and are there so you won't give them to anyone.

Rare Metal: This is the best thing besides "Weather Vane" that's found in the mine in Winter. They sell for 1000GP, and you are needed to give one to Rick for him to fix the Music Box. I haven't tried giving them to anyone else.

Pontata Root: Also found in the mine in Winter. They sell for a big price. Give them to the potion shop owner for best results.

HEALTH-

When you work, your power goes down, and down, and down, and down. Until you finally fall down and can't work anymore unless you eat a crop or item that's eatable. Here is the procedure of the strength:

100% - Your beginner status. Can get when you wake up, or when you eat something like a Big Fish or go in the hot spring.

75% - No expressions on this one. But a few hits will get you to this status.

50% - There will be an expression on this one. Get this by eating a cake, pie or cookie and recover.

25% - Another expression on this one. Recover with a elite herb such as Medicinal. Be careful on this one, because it's near 0%.

10% - Another expression. Recover this with anyone regular item you eat.

3% - One final expression. When you see this one, eat up.

0% - You will faint and you can't work unless you eat something fast.

Remember, you can fill your bottle up with water and carry it, it restores health!

P O S S E S S I O N S--- Harvest Moon 64

On your right window in your pause menu, you can see the possessions you currently have. You can't take them and hold them, and all you can do with

them is check what they are by pressing "Z". Here are the possessions and their explanations.

Flower Card:

Where to get it - The florist's shop, you need to buy a flower.

Each time you buy a flower, you get a point on this. The more you buy, the more flowers points you will have for the end of the year lottery.

Cake Card

Where to get it - Restaurant, you need to buy something like a cake.

Each time you buy anything in the restaurant, (besides dine-in) you get a point. You can participate in the lottery at the end of the year like in the Florist's shop.

Medal Bag

Where to get it - First horse race. I think you need to get medals first.

When you win medals, they are put in this bag. Use medals to buy the prizes at the Horse and Dog races.

Treasure Map

Where to get it - Check the tree on the northeast corner of you ranch.

This will help you find the Music Box. Find more about it in the tips and tricks section. You must have this before you go look for the Music Box.

YAWN. I'm tired. Gonna update later.

G E T T I N G M A R R I E D--- Harvest Moon 64

There are five girls in the town you can go out with, and they can marry you. How? It will all be explained in this section.

THE GIRLS-

POPURI-

Favorite Season-Spring

A flower lover, she loves every kind of flowers, and was born the 22 nd of Spring, which is right before the Flower Festival. Give her lots of flowers to raise her heart level. I don't know what she hates besides poisonous mushrooms.

POPURI'S SPOTS-

Monday-Next to florist shop, she is watering the ground(?)

Tuesday-Same thing.

Wednesday-Same.

Thursday-Usually to the right of the florist shop.

Friday-In the mountain left of the cave, north of the craftsman's house.

Saturday-In the forest west of the craftsmen's house.

Sunday-On the lowest part of the cliff in Moon Mountain -or- in the green ranch.

ELLI-

Favorite Season- Spring

She is the restaurant owners daughter and likes it when you buy the cakes in the restaurant, and she is pretty tough to marry. She hates squirrels.

KAREN-

Favorite Season- Fall

Has a big temper. She likes berries. She will only introduce herself once she has a blue/purple heart. However, she is one of the easiest people to marry. Just don't let Kai get her.

ANN-

Favorite Season- Summer

The hardest to get! She goes everywhere anytime. Usually at the green ranch, Ann brushes and feeds horses, however, she goes at different places too. She likes it when you buy livestock. She also adores animals, so you can give her the ones in the forest, has a very mean brother. Usually wins at Flower Festival. Also, give her wool and corn, this is what she likes the best.

MARIA-

Favorite Season- Winter

She is shy and Harris likes her. Go to the library and read the books for her to like you. That's basically all she likes besides berries, give her berries and mushrooms too.

HEARTS?

Hearts are the things on bottom right corner of the text box when talking to a girl, the heart color depends on how much the girl likes you. Here are the hearts.

White- Doesn't even know you.

Blue/purple- Likes you a little.

Green- Like a girlfriend to you, flirty.

Yellow- Likes you a lot.

Red- Loves you.

Once the heart is red, go to Rick's shop to buy a Blue Feather, show it your girl, and you will automatically get married the following Sunday.

DIFFICULTIES-

Difficulties on how hard or easy it can be to marry a girl. Ranging from 1 to 5, 1 being the easiest.

Popuri-3/5
Elli-4/5
Karen-1/5
Ann-5/5
Maria-2/5

RECOMMENDATIONS-

Here are the girls' recommendations and who I recommend to marry the most, etc. 5 being you should really woo her.

Popuri-4/5
Elli-1/5
Karen-5/5
Ann-3/5
Maria-2/5

DIVORCING-

If you are tired of your wife, you can divorce. It's easy. Go get a bunch of weeds and fill up your rucksack. Do this for a few days and your wife's heart will be green instead of pink! Then she will leave you along with the baby if you had one. Go to her house where she lives and make up with her. Now you can choose anyone to marry!

TIPS, TRICKS, SPECIAL EVENTS--- Harvest Moon 64

Baby-

You can get a baby once after 1-3 seasons of marriage. Once your wife tells you you have a baby, wait for 2-4 seasons to pass and you'll have a baby. You can carry your baby around anywhere you want. The baby grows and grows, there are 5 stages I've gone through so far.

Dancing-

Dancing increases half a heart of the girl you like. Since there are 2 festivals you can dance in, Harvest and Flower Festival, I suggest you dance with the girl you like most.

Annex and Extension-

There are 6 types of things you can add to your house and farm. You can check them out at the craftsman's house anytime besides Tuesday (sometimes the craftsman is guarding the door and won't let you in). Anyway, go to the back of the house and check the list for 2 add-ons, 2 extra 'things', and 2 outside things you can put in your house. However, it costs a lot of lumber and a lot of money too! But it's worth getting the greenhouse (I got it) because it is REALLY good. I mean REALLY. Speaking about REALLY, I REALLY forgot the costs of the extensions, so I'll include that in later updates.

Baby Bed-

The cheapest thing the craftsman can build. With the baby bed, you can get a baby, you can carry babies anywhere you want to. Get this last, or right after going through marriage.

Kitchen-

The kitchen costs a lot of dough, but only with this will you be able to find all the recipes you got, the power nuts you got, and what your wife will cook. The fridge is good for strong items like cakes, pies, and fish. Get this before your marriage, it is pretty expensive and pretty useful.

Green House-

Whoa! That's a lot of money! The greenhouse costs 30,000GP and 580 lumber. Although you can still win that lumber in the Sea Festival, you will need plenty more. This might hopefully be the last thing you get, because it's that expensive. The greenhouse is the best annex you get. Once you get it, you can buy any kind of crop in any season, including winter. Also you will be able to buy strawberries in winter that will sell for a lot of cash. There is also a place inside where you can ship and fill up your watering can. The green house inside is nearly as big as your farm.

Stairs-

The dullest thing. Get this first, it doesn't really do anything special and is not that expensive, it leads to the roof. Oh wow.

Log Terrace-

Another strange thing. This is like a back deck, and your wife will enjoy it sometimes. Basically, it's just a high elevation with a picnic table, need I say more?

Bathroom-

Pretty self explanatory. When you get it, you'll be able to go take a piss and take a shower. It's pretty weird, though. You can also fill up your bottle canteen with water here from the sink. The shower looks like hot springs...

That's pretty much it for the annex and extension part. Now on to more tips and tricks!

Music Box-

THANKS TO-Harvest Bauler and Trev79

The treasure map has nothing to do with power nuts. What it does is guide you to the music box, have your view normal. Then go to the doghouse and face north. You should be facing the shipping box. Now walk straight around the box and you will reach the tree, go south to the soil. From the first soil, walk 11 spaces down and dig 16 times here like this:

T

xxxxxx
xxxxxx
xxxxxx
xxxxxx
xxxxxx
xxxxxx

XXXXXX
XXXXXX
XXXXXX
XXXXXX
XXXXXO
XXXXXX
XXXXXX
XXXXXX
XXXXXX

O marks the spot. T stand for Tree. X is the soil. Dig and you'll get a spoiled looking music box. Take it to Rick's shop and he will fix it, now give it to the girl you like or to your wife.

Moon Flower-

THANKS TO-TheCat37

To get check the tree that is near the old man's and woman's restaurant on the Moon Mountain. Get it on the 10th through 12th of Fall. You can't see this item. It is found near the tree SOUTH of the restaurant.

Blue Vase-

This particular item is pretty easy to get. To get it, just go to the mine in winter and dig for a Blue Rock. Give the Blue Rock to Gen the antique shop owner and you will get the Blue Vase. It will make your house better and your family life better.

Old Wine(Heaven's Gate)-

THANKS TO-Shy Guy, Harvest Bauler, and almost everyone in the messageboard.

This item will solve the crisis in the vineyard. To get it, go to the bar at nights and drink a lot. Once your cow produces gold milk, give it to Duke, the bar owner. You will NOT be able to get this item if you are married.

FESTIVALS and SPECIAL EVENTS-

Sowing/Planting Festival-

The first year you will not be the king of the sowing/planting festival. It is impossible. In this festival you can talk to the people and then talk to the florist shop owner to lift the balloons, if the winner chooses you to go with him/her on a parachute ride, you are a little lucky. The only way to be the king of the sowing/planting festival is to be the king of the Harvest Festival, which comes in Fall.

Horse Race-

You cannot enter the first horse race because your horse hasn't grown up yet. So you can put your money on other horses to see if they win or not. Medals are the currency in the races, you will win them depending on which horse will win. I suggest you put money on the horse with the least numbers. Here are the prizes you will get for winning the races:

SUSTAINING CARROT-----500Medals
STUFFED HORSE-----1500Medals
NEW STABLE-----3000Medals

Vote for Flower Princess-

Usually, this will raise your girl's heart a little if she wins, but who ever does win, I suggest you vote for Popuri no matter what. She'll get pissed if you don't. Since she was born the day before the Flower Festival.

Popuri's Birthday-

Yep, Popuri's birthday is right on the twenty-second of spring. Give her flowers for a change.

Flower Festival-

There will be a lot going on on this day. Buy a power nut from the guy in black in the top right corner of the square, then talk to Lillia and Basil for a special cat mint seed that plants some cool flowers if you want. Talk to Rick for a bottle for 200gp, you can fill it up with water and drink it whenever you are in bad conditions. After a few minutes the girls will come and you'll see the flower princess. Dance with your favorite girl on this festival. (This festival was also included in Harvest Moon SNES).

Fireworks-

Hang out with your favorite girl today. If you don't know where they hang out, read my Walkthrough section. Be sure to go there before 12 am.

Vegetable Festival-

This is a tough competition fest. You have had to save your vegetables (turnips, potatoes or cabbage) before the end of spring unless you have a green house. I haven't actually participated in this festival before so I don't know much about it.

Firefly Festival-

If you have bought a lantern from Rick's shop, then you can play a role in this festival by throwing the lantern in. I skipped buying the lantern and didn't participate in the first year. It seems that you can't buy a lantern after that anymore.

Sea Festival-

This is the easiest competition festival ever, all you have to do is press A, it is very easy. You will get a pig statue and a photo of you, Harris, Cliff, Craftsman, Cain, and the restaurant owner.

Cow Festival-

The second easiest competition festival, but you won't win at first unless you are a super duper o' mighty expert. Your cow will only win if you have large milk. The only way to get it on the first year is to buy a cow before spring 14. In return you will get gold milk which sells for 500gp.

Harvest Festival-

This is like the Flower Festival. Talk to the people and then talk to Elli for a cake, if you win, you will be the winner of next year's sowing/planting festival -and- you will be able to play the ocarina in the spirit festival. The festival returns from the Harvest Moon SNES.

Egg Festival-

A fun and tough competition race game. When you can walk around talk to the people who will also be playing. Although Rick uses an egg detector it doesn't matter because it's normal (that tells you why it takes one hour to detect the egg --Rick). Once you talk to everybody go to the mayor to start the egg game.

The eggs are always found in the boxes around the town, go to them and press the 'A' button to check. The box on the northern left usually doesn't have eggs, but check that one anyway. When mayor calls 'time up' that means that

someone already caught that egg. He calls time up at random times. And even though the people look like they are doing nothing, they are actually participating. There are a total of 6 rounds. I have never won all of them, and I don't know what happens if you do. If you win on the first year you will get a power nut. If you win the second year you will get a turtle statue that looks like the same turtle statue in Harvest Moon SNES. This festival was also included in Harvest Moon SNES.

Bridge Work-

In Autumn the craftsmen will ask you to help fix the bridge on Moon Mountain. The bridge will lead to Moon Mountain Restaurant and the Moon Mountain summit. This really doesn't matter, because you can get up there BEFORE they build a bridge. To do this, just go to the craftsman's house area in Moon Mountain and go north from it and press the 'A' button when standing next to the tree and you will climb it, this leads to there. I still strongly recommend you help the carpenters with the bridge work, it lasts from the twenty-third to the twenty-seventh of Fall. And as a reward, you will get 1000GP everyday if you work. That equals 5000GP, not bad for the first year, eh?

Horse Race #2-

Now in this race you are legal to enter. To win a race, brush your horse every day and ride it a little. Don't axe it. The livestock dealer will enter you in one or two rounds in the Horse Race. Like I said before, I have never won a Horse Race, so I don't know what happens if you do. My guess you will get a photo or you will get some medals. Don't forget to put your money on a horse when you are not a participant!

CONTROLLING YOUR HORSE-

The horse races are different from any other festivals or events. To win you have to press the 'A' button as steadily as possible, if you press it too much your horse will run out of stamina and get slow. Press it every second.

Mine Open to Public-

On the eighth of winter the mine will open up letting you in. The mine is a place where you can get real loot by finding the minerals here. The mine will close up on day 30 of winter. You have until 5 p.m till you officially exit from the mine or until you faint. So? How do you find the minerals inside the mine? It's like this, you MUST have a hoe to enter. The higher level your hoe is, the better. Don't even think about entering the mine without a hoe, if you do, then take out your axe or whatever tool you have and keep axing the ground until you faint, otherwise you will waste a whole day doing nothing.

You will enter an empty room about the size of the room you have in your house. When you dig, you will come up with items like iron ore, pontata roots, coins, and moonlight stones. There are people wandering around also, and you can't give them anything. When you dig you will uncover holes leading deeper into the mine. I have never got to the most bottom level, or maybe it just goes on forever. The deeper you go, the better stuff you find, such as Blue Rocks and Rare Metals, which sells for about 1000GP. Don't go to the mine every day, though. It will get boring, really. Also you will be able to find the weather vane on the third floor if you dig.

Thanksgiving

If you are not married. Go to town and get special cakes from the girls. If you are married, you can get a cake from your wife during dinner time (5:00pm-8:00pm).

Dog Race-

More coming up.

Starry Night-
More coming up.

Spirit Festival-
More coming up.

New Year's Eve Festival-
More coming up.

New Year's Festival-
To drink down a lot of people in the New Year's Festival, just keep talking to them (meaning keep drinking w/ them), this will only work if you drink a lot in the bar. A lot of people usually collapse after 1 or 2 drinks. However, beware of Karen!! She can drink a lot!!! So far, I haven't been capable of drinking everybody down yet, but I'm sure something might happen if you were able to.

Q&A-

Q. Where is the baby?

A. Read the Tips section

Q. There is a hole in the Harvest Sprites' house, I can't get in, how do I get in?

A. You can't. It's there for the Harvest Sprites to go through and they will do that to get in your cow/sheep shed and Chicken Coop (there are holes there) whenever you are sick and feed your livestock.

Q. How do you get to mate your dog with Taro and get puppies?

A. It just happens.

Q. Can you divorce?

A. Yes

Q. My cow doesn't give me gold milk anymore!!

A. You might have axed it too much.

Q. What are the stairs for?

A. They lead to the roof, there is no point being what the stairs are for. They are not for chickens to graze on the roof, I tried that and they died.

Q. What is the Jumper?

A. A black fish I caught on the fifth year of Spring 6. I don't know what this thing is, and PLEASE DON'T FLOOD MY MAIL WITH THIS. I got it by fishing.

Q. What are the raffle tickets for?

A. I never used them.. Soooo, they are probably used in the New Year.

Q. Is there anyway I can avoid the stuff the people give me to drink in the New Year Festival?

A. I don't know. But you can outdrink the people there.

Q. What happens if my cow wins the Cow Festival?

A. You will get Gold Milk, ship these for 500gp.

Q. How do I play the ocarina in the Spirit Festival?

A. I think you're supposed to win the Harvest or Sowing Festival?

Q. Where are the eggs?

A. In the crates around town.

Q. What is the green house for?

A. When you get it, you can plant stuff there anytime, you can also buy any kind of seed once you get it.

Q. What happens when the Blue Mist Flower grows?

A. The entomologist's butterfly will be flying around and he will take a picture of you and Popuri.

Q. What does the Treasure Map do?

A. Dig near the tree to find a music box.

Q. How do I win the Sea Festival?

A. Easy, just keep tapping A like you would tap O in Metal Gear Solid torture room and you will win.

Q. I've been waiting for AGES and Harvest Moon 64 has NOT come out near a video game store yet! I want Harvest Moon 64!!!

A. Your only choice is go to www.ebworld.com and buying it over the Internet there, it should be there. And if it takes a few weeks, it's still better than waiting for the release in you local video game store. Because since the time is already March, I don't think it'll EVER come out in you local video game store.

Q. I've heard of secret festivals, is this true?

A. Yes, if you revive the tree in the Vineyard, and is good with Karen, there will be a Moon Keifu Dance. There are more such as the Bamboo Float, but I haven't gotten those yet.

Q. How do I win the Horse Race?

A. Everyday brush your horse and ride it a little, in the Horse Race tap A every second, not like you did in the sea festival.

Q. What happens when I win the Horse Race?

A. You get a picture. Once I put 99 medals on a horse (without using Watsonz' trick) that won and I got a lot of medals.

Q. What do the prizes you get in the horse or dog race do?

A. I've only gotten the Sustaining carrot and Stuffed Horse, I don't know what the carrot does. It says it tames horses, but it never did.

Q. How much recipes are there?

A. There should be 34 (Not 48).

Q. On other FAQs, when I go there, it just gives me a bunch of crap letters and I can't read it.

A. It's because you don't have that program they used to type. For example, if that person wrote his/her FAQ on Wordpad, and you don't have Wordpad, then you can't read it.

Q. Will there be a PSX version?

A. Natsume just released it in Japan. It's gonna include things that will make N64 mad. Like a mall, hospital, etc. If you want to know more just search for 'harvest moon' and click on "Makiba Montogari Harvest Moon" and read Lickitung's FAQ.

Q. I read this FAQ, it is great! I have a site and I want this FAQ to be there.

A. As long as it's a video game site, and it's appropriate, I'll allow it.

NEW SECTION: W E I R D Y E T C O O L--- Harvest Moon 64

How did this section appear? Well, I was playing the game when I called my dog on the farm. It kept running after me and I got annoyed of it. So, I made a 9x9 area on the farm and I called it "The Dog's Playhouse". What I do with it is make fences surrounding all the area (no entrance), then I put the dog in there and get out of there and CALL my dog. The dog will go after me, but won't be able to get across the fence. Therefore, that's why I called it the Dog's Playhouse. You can work while the dog keeps running! It trains the dog for the Dog Festival also. Here are some other weird and quirky things I made up during the game.

DOG PLAYHOUSE

Rating-8/10

Usefulness-For the Dog Festival

What to do-Look Above.

GETTING MAD AT THE DOG

Rating-4/10

Usefulness-None

What to do-Ever get tired of your dog? Hate it because it never wins the Dog Races? Well, this trick will fix it all. Go to the Old Couple's Restaurant on the Moon Mountain with your dog, enter the restaurant, and leave the dog there! Now act like you gave away the dog to the Old Couple because it wasn't allowed. You can come and visit it anytime, or take it back! If you still hate the fact the dog exists, get to the event where you can enter a girl's room, put the dog in it, and leave without it! You'll never see it again, unless you call a divorce and make-up with your wife.

THE RPG???

Rating-7/10

Usefulness-Fun, but has no point in the game.

What to do-Ever get bored of repetition, working, foraging, etc? Well I came up with this corny but cool idea. Make an RPG out of the game! First make the evil and good guys, then the setting (i.e day, night), then choose the weapons, and start playing! I made up an RPG out of the game, I call it Night Call, here is how you would play it:

You start out in the bar at night (PS, in the RPG I made the darkness of night be the evil sucking out the land and the doors are locked because everyone's afraid). Talk to Harris, he is an evil guy disguised as a mailman. You don't have any weapons though. Head out of the bar and to your farm and your house. Pretend your house is actually a huge building that is the only one open. Go in, pretend your wife is a girl you like. Talk to her, and search the tool box for your weapons, they are all equal. Now head into the Kitchen and pretend the baby is an evil life form. Axe it(I used Axe as a weapon)once. Go into the bathroom and into the lavatory. Pretend it's a time machine and when you step in it, it leads you 1 hour further. Once you do this head out of the house and pretend that the horse, dog, cow, etc. are the normal enemies you fight in the area (use axe). Head back to the bar and axe Harris three times. Talk to the bartender (NOTE-No drinking ANYTHING) and axe him, he is evil too. Now go outside and head to Mt. Moon summit and stand at the end and look (look until it's morning) you will be sent back to your house at 6:30AM. Since you looked, you drove away the evil shadow. Now, the evil is lurking somewhere in town, disguised as a towns folk. Go to town and talk to everyone twice. Head into the church. Anyone who is there is the

Evil Lord (besides Pastor Brown, pretend he was stabbed). If no one is there, come back a different day. Axe that person and BOOM! He/She explodes! Congratulations, you beat the game! It's very stupid anyway, make your own! Send me YOUR OWN ideas to Haunter120@hotmail.com, I'll post them!

COW RACE!

Rating-9/10

Usefulness-Uh, none...

What to do-Well, there are Horse and Dog Races, but no Cow Races! And guess what, you make em! First, get at least 6 cows, send them outside, and make the race slots for each cow on the soil, like this:

```
-----  
Soil Track  
-----  
Soil Track  
-----  
Soil Track  
-----  
Soil Track  
-----  
Soil Track  
-----  
Soil Track  
-----
```

The - equals the FENCE. Make each cow a race slot, like above, and make them start at the right side. If you don't want to, don't make race slots, it's easier. Get to the left side now, and ring your bell! The race has started! The first cow to get to you wins! This is usually a tie, but not if you don't have race slots. Try both. Any Cow getting off the soil except for the finish is disqualified, have fun!

TAG

Rating-2/10

Usefulness-Not much

What to do-Ever wanted to play tag in the game? Well, here's your chance. First, go outside, and call your horse. Now while it's trying to get to you, walk slowly around the field. If the horse gets to you, you have been tagged! Seriously, this is pretty boring..

CHICKEN FRIEND

Rating-5/10

Usefulness-None

What to do-You can carry your chicken anywhere anytime when you have it. When you talk to people holding it they will say different stuff. So, you can call it "The Chicken Friend". This is pointless, but you can walk around with it everyday and do your work while it watches. So let's say you need a cake, go to the Bakery and put your chicken there to roam around while getting the cake. At night, leave it at your house to sleep in (put the dog in another room). Don't forget to feed in the morning!

FENCE GAME

Rating-5/10

Usefulness-For Cow Eating, yes

What to do-Want to make a block for livestock? Or is the cow bell not working when you call your cows and sheep? Well, here's what to do: Plant a 3x3 grass square and surround it be fences. Plant a lot of these like this:

```
-----                -=Fences
```

```
|xxxxxxxxxxx|           |=Fences
|xxxxxxxxxxx|           x=Grass(each X is NOT an original grass square)
|xxxxxxxxxxx|
-----
```

Now, call you cows and sheep out and place one in each fenced grass area (A.K.A Block). Keep them there and they will eat there! When you feel like getting them back to the pen, just take one fence out and bell them up one each.

That's all for now, send me your ideas at Haunter150@hotmail.com, I'll gladly post them and give you credit!

```

Ok, I'll start off with some of the funnier UNTRUE rumors. Note: THESE ARE UNTRUE. They are funny, but 0% (even less) true. Ok? After that I'll go into some other rumors that might be true. Oh yeah, don't try fake rumors, because it has stuff that is virtually impossible.

Fake Rumor:

In real life, if you shoot a blue bird on a mountain, and get it's feather, and give it to the girl you like, she'll propose to you. HAAHAHHA! That's funny.

Fake Rumor:

If you buy the HM64 cartridge and take an egg and put all the egg stuff in it on your HM64 cartridge, and put it in the box, in 50 years, the Shipper will come to your house and take it. Heh Heh Heh.

Fake Rumor:

Dig up the old shotgun in the backyard of your house, then take the Weather Vane and tie up your family in the bathroom toilet. Then take your recipe list and erase it. Make copies of invitations to your house for a party, and put it on the doors of the houses in town. Then at Saturday night they will come to your house (make sure all of them come). Once they're all in, go outside and light up a match and throw it in the house to set it on fire. If anyone tries to get out just shoot them with the gun. When they're all dead, you can control the town! You can go to the girl's bedrooms and see them. But... this is virtually impossible.

Fake Rumor:

There is a secret Club Underground below the city. But, the bartender won't let you. If you get drunk in New Year's and go to the bar every day and drink 5000 times for a season, the bartender will let you in. You'll see all the cool stuff there. This is the real Harvest Moon world..

Ok, here are the good rumors:

Rumor:

There will be a Harvest Moon PSX.

Truth:

Yes.

Rumor:

You can enter shops at times when they're closed.

Truth:

No.

GIRLS' BIRTHDAYS

Karen--Winter 29

Elli--Fall 1

Poruri--Spring 22

Maria--Winter 11

Ann--Summer 11

GLITCHES-

The game has a dark side too. The glitches could get annoying, I discovered some. Some can freeze your game, so don't try them..

-If you watch the educational channel, sometimes your game will freeze.

-If you go to the forest and cut wood, it might freeze.

-If you marry to anyone but Popuri, and go talk to her in the forest, she will say "So, you married * your wife's name here * how is HE?"

-If the Harvest Sprites don't like you a lot, and you give them a mushroom, it will show the artisan's face instead.

-MANY spelling mistakes.

-It showed Ann's face when I was talking to Gray.

-In the cow barn, if you have a lot of cows or sheep it will slow down.

-When pushing Z to see what the Jumper is, the words overlap the text box.

-When taking a picture of winner of the cow festival, the girls come at the time when your cow is waiting for you in the cow festival..

-There are MANY MORE. These are just some I see a lot.

-If you bring your dog into someone's room (ie elli) you will lose him for some reason. He can still enter the races.

-If you talk to your wife on your horse, a glitch will occur and you will lose your horse.

GAMESHARK MODIFIER CODES---

For those of you who use Gameshark (I don't) you need these codes. Although it makes you cheat big time, they are pretty helpful to all you people who don't know how to play..

TIPS-

- Have your cow go outside frequently.
- Visit every festival.
- Give a girl presents at least every day.
- Don't go to the mine EVERY day.
- If you run out of money on winter, go to the mine.
- Don't always ship milk, eggs, or wool. Give them to a girl.
- Don't talk to Karen too much.
- Brush and ride your horse every day.
- Don't try to kill any people, you can't.
- There is no sprinkler.
- Maria is not a stripper.

- There are no secret buttons on your controller.
- Don't put your chickens on the roof. I tried it they die.
- After you marry, give Harris, Kai, Cliff, Jeff, and Gray stuff so they can give them to the girl they like.
- Feed your dog and walk around with it.
- Rick's Tomato thingy is a fake.
- Don't forget to put your cow outside the day before the cow festival, or you won't get a picture.
- Even if you did marry, give flowers to other girls so they will like you.
- Don't try to kill Popuri if she calls your wife a He.
- Reel Amarakin is NOT in this game.
- The game goes on forever.
- Talk to every person you see, you might get something.
- Please don't shorten this FAQ.
- There is a second album in the game.
- Be nice to the Harvest Sprites.
- Give stuff to the mountain old guys.
- Don't try to milk, brush, or feed the animals in the green ranch, you can't.
- You can't kill Karen.
- Attend nightly festivals.
- Go to the bar twice every week and drink there so you can get everybody down in the New Year's Festival.
- The beach is just to the right of the green ranch entrance.
- Fish at the beach.
- Don't forget the big dinners your wife cooks you on your anniversary and birthday.
- Your baby has over 4 stages.
- Honey will recover all your energy.
- Don't believe any rumors. They are funny, though.
- Don't try to cook or ship the baby.
- Save room in the green house.
- Buy every extension before the 3rd year.

-On Fall 30th, don't take a sickle and put a mask on and go to the bar at night and kill everyone, there is no Halloween in this game.

-You can't die.

-The PSX version will come and a year or more probably.

-Be nice to Karen and give her stuff so she won't leave.

-The mine is I think 3 floors.

-There are no trucks in this game, not like the original HM.

-HM PSX will be a more future game with 10 girls, a mall, a hospital, and you can die *Grumble*.

-They always make stuff that was made to N64 better on PSX.

-You live for 30 years in HM PSX.

-Don't buy or subscribe to EGM anymore. They think Dreamcast will rule the world and Nintendo 64 is dead and Playstation is not faring very well.

-Save your money for Playstation 2 and Dolphin. They will be better.

-Sorry for all those non Harvest Moon tips. I was just reading EGM.

-You can buy HM64 at EBX, Babbages, or any other store. If you can't find it get it from www.ebworld.com.

-Make sure to talk to every person who comes to your ranch, they have useful tips.

-Check your mailbox every day, it might have important letters.

-Don't give girls weed. Just give them what they like.

-Don't show anyone except Ann animals.

-Visit one place often.

-Attend Horse and Dog Races, you never know if you win.

-Don't give stuff you find in the mine to the girls.

-Give the full moon berry to your girl.

-Some events will go one in matter what wife you get.

-The matter egg-shaped device is not possible to keep, unless you use Gameshark.

-You can throw in more than 1 offering in the pond for the water goddess to appear.

-You can't get 2 babies, so don't even try.

-Don't forget, the Jumper can be found at Spring in the 5th year ONLY. And you can find it at 5:30AM or higher.

-You can stay up late till 5:59AM. But you will automatically start a new day at 6:00AM always.

-Every starting tool levels up to level 3.

-Your baby has about 5 stages.

-The weathervane is found in the mine.

-Give the weathervane to Rick.

-To get the cow festival picture, have your cow graze BEFORE the cow festival DAY.

-You must have all pictures to advance to the second album.

-For the flower princess voting, always vote for your wife.

-Don't forget about the raffle on the 25th to 30th in the bakery and flower shop!

-Flowers are available only in Spring.

-You can't give or take out stuff in the festivals.

-If you participate in the carpenter's part time jobs, you will get 1000GP every day.

-Your dog likes to piss on the carpet.

-Try not to get sick before having the blue power berry.

-Try to plow your field in the first 4 days.

-Fireworks should be on Summer 4th not Summer 1st.

-There are so many glitches in this game.

-When you're having a party and your friends come over(btw real life), be sure to hide this game in a safe place because they would all want it.

-IMO Karen is the best to marry.

-Be nice to your wife.

REVIEW-

My review below is also available in the GameFAQs review section of Harvest Moon 64. But you can read it here also.

This game rules. You will want to play it for a long time. I can't say how good it is, cause it just is. Play it and you'll see.

SOUND-9

Most of the sound is good even though there's not much. Some of it sucks but it's alright. It can get annoying and I don't know why they start the sound over on each screen. I gave it a 9 because of course, it rocks, and the rarest sound music is probably the best.

GAMEPLAY-10

Ah...Country Life, if you have played any other Harvest Moon title then you know what this is about. You are a farmer and you try to get a lot of money. By playing forever, you plow seeds, go to festivals, upgrade your house, get chickens cows and sheep, and probably the best, get a girlfriend and marry her (Certainly you don't need to give her THAT much stuff to have her be truly in love with you) Some boring parts are taking care of cows, sheep, and chickens, watering or plowing seeds and flowers. But the whole plot is fun. Now you're not thinking of doing this in real life, are you? Note-it's way longer and better than Harvest Moon GB, even better than Harvest Moon SNES!

REPLAY-10

Yes, you will want to replay this game. But why would you if it goes on forever? it's the funnest and most innovative simulation game ever.

BUY OR RENT?

Certainly buy. If you rent it you must be stupid.

C R E D I T S--- Harvest Moon 64

THANKS TO-

Dude... I got a lot here...

First of all I'm giving full credit to...

MoonFreak17-For the Fame/Fortune Walkthrough part.

Headbake-For the "Rich" Walkthrough part.

And I'm giving bits of credit to...

Wiseone444-Giving me a few tips on the game.

Shy Guy-Tips on The New Year's Day and Old Wine.

Harvest Bauler and TheCat37- More tips and secrets on the game.

BdayEeyore- For a lot of tips and tricks.

Trev79- Giving me a more better solution to finding the music box than Harvest Bauler.

A lot of people who e-mailed me and a lot of people on the messageboard-Giving me some extra info and help. Some of them like Pierce and Warlock for the girl's spots.

Watsonz-For the really really really awesome medal trick. THANKS DUDE!!

Natsume-Making this cool game.

GameFAQs-For posting my FAQ.

Adamace1010 and Alex McQuinn-Giving me the recipe list.

Gyro672-For telling me about the Blue Feather.

My Computer-For letting me type this FAQ

CJayC-for posting this FAQ

Lickitung (Omanyte)-For telling me about the coming of the psx version of Harvest Moon 64.

Dallas-For letting me know about the guidelines and to e-mail CjayC a second time to really post my FAQ.

Cybersushi-Many corrections and typos, also some few tips.

And much much more people that e-mailed me on tips.

E-MAILING

I get way too many e-mails on this game, so I decided to add this little section. Here are the rules of e-mail, follow them!

- *Worst Virus ever
- *The.. Ok, you get the point..

WHY E-MAIL ME?

- *Cause you want help in the game
- *Cause you want help NOT in the game
- *Cause you're bored
- *Cause you want me to help you write some parts to your FAQ
- *Cause you want to fix something in the FAQ
- *Cause you want to give me some secrets

*Cause you're a fellow FAQ writer
*Cause you're looking for someone to help you write your first FAQ
*Cause you can smell what The Rock is cookin'
*Cause you just want to send me a mail that's pointless so my e-mail box
will be flooded with these

- Hehehe. Well, that's about a lot of the messages I get, try to see what
you mailed me, it's on that list

WHY HAVEN'T I RESPONDED TO YOUR E-MAIL MESSAGE?

*I didn't get that message
*The stuff you needed help on was INCLUDED IN MY FAQ
*I try to reply to you but it comes back saying "ADDRESS NOT FOUND" (get a
new back-up one)
