First, a little help completing two of the stages that give people trouble:

Canary Stage - Don't worry about picking up bright things. Just get big as fast as you can. Go where the King tells you when you reach 75cm. If you can reach 1m50cm, you pass the stage.

Ant Stage - Don't worry about picking up sweet things, even if the King tells you your katamari is too sour. Get as big as you can. If you reach about 30cm, you will pass the stage.

This guide lists one of the places you can find each item in Me & My Katamari, hopefully accurately, then it goes through instructions to find some of the items that are giving people trouble. Trouble items have a \* by them in the item list. Hopefully it was done well enough that you can find the item you need in the item collection list, then Ctrl+F the item to find where I listed its location.

For help finding the Cousins, Rookies and Presents, refer to the Presents/Cousins/Classic Objects List, available at GameFAQs.com

After using this list, if you are still having trouble finding specific items, you can e-mail me, or you can post in the forums either at GameFAQs.com or at the site plugged just below:

SHAMELESS PLUG: Try Katamari on the Web!

[http://s9.invisionfree.com/Katamari\\_Damacy/](http://s9.invisionfree.com/Katamari_Damacy/)

It is a message board run by Vix, with all sorts of stuff about and people who like all three katamari games. There you can ask questions about katamari games, you can show off your artwork, and you can compete on the scoreboards, including two for Me And My Katamari. And of course you can generally lounge around, it is a fun and friendly place. Give it a try!

THANK-YOUs: Thank You to all the people who have asked item collection-related questions; the only ways I have to know which items are hard to find are my own experience and people's questions.  
Thank You to poisson for several item locations.  
Thank You to Serene for the Gratin's location.  
Thank You to Rickito for the Ointment's location.  
Thank You to Karppa and jil9jik for the Eel's location.  
Thank You to Blazekin93 for the Animal Book's location.

Thanks to katamari > kalamari for the odd final note at the end of this guide.

odd final note:

In Oak Town, there are two Matsuri Boys in front of a pachinko parlor.

Try rolling up the one on the left.

His name, in blue lettering, all lower case, is "intelligence."

(Thanks to katamari > kalamari for discovering this.)
