

date. I have two goals to accomplish with this guide. My first goal is to write the biggest Monster Hunter Freedom walkthrough known to man. My second goal is to write a Walkthrough for every Monster Hunter sequel. Since Monster Hunter Freedom for the PSP is basically a revamped version of Monster Hunter for the PS2, I'm obviously not going to write a Walkthrough for the PS2 version. What I am going to do is write a Walkthrough for Monster Hunter Freedom 2. If they make any sequels to that, such as Monster Hunter Freedom 3, i'll obviously begin writing that once i've completed the MHF2 Guide. Although these goals seem very ambitious i'll try hard to complete them. I have been inspired by many FAQs writers and now I am one. Since I new everything there was to know about Monster Hunter for the PS2, I thought this game wouldn't be much different. I was wrong in many ways. This game was far from brief to me. With tons of improvements, new armor, weapons and items this game was far ahead of my expectations. At first I wasn't ready to write a BIG Walkthrough like this one, but I wanted to help people out anyway. I tried to come up with an idea for a very useful guide, then it hit me. I remember reading Xiamut's FAQ for Monster Hunter when I thought to myself "Ya know what, I should make a Weapon Tree FAQ". It took me only two days to write and post the Weapon Tree FAQ. Which is always going to be my favorite Monster Hunter Freedom In-Depth FAQ. After MANY emails asking me to post the information of each weapon rather than just their paths, I started working on my Great Sword Creation FAQ which, until now, was my biggest FAQ. Due to the amount of requests for dual sword info I then decided to write a Dual Sword Creation FAQ for those eager viewers. Although there were many requests for a sword & shield creation faq, I decided to move away from the weapon creation faqs for something different. I was at a crossroads trying to decide what was next for me. I wanted to write something that most people don't know about; Rubies. I then wrote a Ruby FAQ and posted it on Gamefaq.com. Later, I was reading Xiamut's list of works when I noticed he had written a Ruststone FAQ. Since this is Monster Hunter Freedom and lots of people write on the message boards asking about Ancient Stones, I decided to write one on Ancient Stones. 2 days later the Ancient Stone FAQ was born. These guides were quick and easy to make, they had to be. My schedule has been very busy lately due to school and football. That's right this FAQ writer plays Varsity football for my High School, and no i'm not a benchwarmer either. I can't tell the name of it, because there are freaks out there, but the initials are MHS in Virginia. If you recognize this please email me. In a day I have to get up at 6:00am, go to school until 1:45pm, go to football practice until 5:00pm, then come home to do homework. I get about 6 hours of the day to do what I want. So, ive been writing this gauide. Enjoy.

There is a huge difference between killing a rathian in the desert and killing one in the forest & hills, specifically area 9. If you know what i'm talking about please clap if not just keep reading. The third most important thing to know about the quest you'll be entering is the time limit. Now, most quests will have long time limits, which is good. But it is still important to know what time is left in each quest. The only thing left to know that's very important to know is the quest type. There are 4 types of quests; Hunting, Gathering, Capturing, and Special quests. The rest of the details are very unimportant, so don't worry too much about them. Once you've selected a quest a colored aviator will appear over your head. The color varies depending on the type of quest you're about to enter. Hunting quests are red, gathering quests are green, capturing quests are white, and special quests are purple. Run to either the north of the Village near the tree or the south of the village near the sign and press [Square] to depart.

MENU OPTIONS: Press Start in-game to bring up the Menu.

ITEMS: This option is where you can see the items you brought with you on the quest and the items you've collected in the quest. Although informative, you can't use items through this menu. For more info on items view the Item List.

COMBINE: This option is where you can combine any items you've brought with you or that you've found in the map. View the combination list for more info.

REFERENCE: This option is split into two subsections, Monster List and Combo List. The Monster List is info on all monsters that you've purchased from the traveling salesman. The Combo List is a list of all item combinations you've successfully performed. Go to the Bestiary or the Item section for more info.

QUEST INFO: This section will display the name, requirements, rewards and time of the quest you're in. It's pretty self-explanatory people.

CHIEF'S WISDOM: In this option you can view the tips the Elder gives you on the quest you're on. This section is only available in Village Quests.

MAP ZOOM IN / MAP ZOOM OUT: Very self explanatory, it changes map size.

STATUS: This shows your character's information. It shows the name you gave your character, weapon type you brought, your hunter rank, your guild points, your money, and the online status. It also shows your Health, Stamina, Attack, Defense, and Resistance.

EQUIPMENT DETAIL: This shows the armor you are wearing. It also shows the weapon you brought. It gives information on your weapons and armor as well.

OPTIONS: This shows the Status display, Map Display, Targeting system, Camera Type and Camera Setting. Most of these you won't need to change though.

ABANDON QUEST: The last option is the "Quit" option. This will bring you back to the village with the items you had before the quest. Gesture: Despair.

O-----O
```

In this section I'll show the differences between Village quests, how to select them and the different menu options you'll be able to use in-game.

SELECTING: Similar to village quests, you'll have to select a quest or you won't be able to leave the Gathering Hall. Although this is true the Gathering Hall has a much diverse selection of quests that you can choose from. Also, similar to village quests, you'll still have plenty of time to complete each quest. A new addition to the Monster Hunter series, which they should've always had, are gathering quests. All you need to do is explore the area, sweet huh?

First, you'll need to find the Gathering Hall in the village. Remember where the Village elder is? Go to him but don't talk to him. Notice the Blue Curtains just behind the Elder that seem to lead into a house? Well, go up to that and you'll see two options. If you want to solo these quests, like the village quests, select "[] :Offline Gathering Hall". If you have friends and want to play with them select "O :Online Gathering Hall". Now in the Gathering Hall

- Hunter Rank Info -

- HR 1: [Yellow] This is the Hunter Rank you'll begin your journey with.
- HR 2: [Orange] You can now play + quests.
- HR 3: [Light Purple] You can now play G-ranked quests.
- HR 4: [Dark Purple] You will now be able to mine the rarest of ores.
- HR 5: [Red] This is the highest rank you can achieve. There are no

Note: The [Color] is the color your name appears as while you're in the village and the gathering hall.

- How To Up Your Rank -

- HR 1 --> HR 2: Complete HR1 Gathering Hall Quest: The Land Shark
 & Complete HR1 Gathering Hall Quest: Trouble in the Swamp
 & Complete HR1 Gathering Hall Quest: Jungle Menace
 & Complete HR1 Gathering Hall Quest: Attack of the Yian Kut-Ku
 & Complete HR1 Gathering Hall Quest: Catch a Yian Kut-Ku
 & Complete HR1 Gathering Hall Quest: Catch a Gypceros
 Then Complete Urgent Gathering Hall Quest: Four Horns

- HR 2 --> HR 3: Complete HR2 Gathering Hall Quest: Basarios: Unseen Peril
 & Complete HR2 Gathering Hall Quest: Wyvern in the Darkness
 & Complete HR2 Gathering Hall Quest: Get me a live Khezu!
 & Complete HR2 Gathering Hall Quest: The Desert Plesioth
 & Complete HR2 Gathering Hall Quest: Water Wyvern in the Jungle
 & Complete HR2 Gathering Hall Quest: The Runaway Diablos
 & Complete HR2 Gathering Hall Quest: The Fearsome Gravios
 & Complete HR2 Gathering Hall Quest: A Troublesome Pair
 Then Complete Urgent Gathering Hall Quest: A Giant Dragon Invades

- HR 3 --> HR 4: Complete HR3 Gathering Hall Quest: Attack of the Yian Kut-Ku
 & Complete HR3 Gathering Hall Quest: Trapped by Yian Kut-Ku
 & Complete HR3 Gathering Hall Quest: Trouble in the Swamp
 & Complete HR3 Gathering Hall Quest: The Poison Siege
 & Complete HR3 Gathering Hall Quest: The Two Sand Shadows
 Then Complete Urgent Gathering Hall Quest: The Thunderous Duo

- HR 4 --> HR 5: Complete HR4 Gathering Hall Quest: The Shadow in the Cave
 & Complete HR4 Gathering Hall Quest: Basarios: Unseen Peril
 & Complete HR4 Gathering Hall Quest: Two Rock Wyverns
 & Complete HR4 Gathering Hall Quest: The Land and the Sky
 Then Complete Urgent Gathering Hall Quest: Pink and Azure

| \ / |

Once you've completed a Quests you'll receive 3 things; Money, Guild Points and Rewards. You'll be given items for completing quests. You'll be able to take as many items from the rewards box as you want, or as much as you can hold. The items, obviously, vary depending on the quests you complete. You'll have to complete them all to see what you can get.

| \ / |

Money is probably the second most important thing to have in Monster Hunter Freedom. You can do pretty much anything you want if you have a lot of it. To view the amount of money you have press Start and select Status. From here you can see your Total Money collected.

Here is a list of everything you'll need money for:

1. Buying Items from Kokoto Saleslady, Traveling Salesman, Random Backpacker and the Gathering Hall Saleslady.
2. Buying Weapons from the Equipment Salesman.
3. Making Weapons from the Equipment Craftsman.
3. Buying Armor from the Equipment Salesman.
4. Making Armor from the Equipment Craftsman.
5. Village Contact Fees.
6. Gathering Hall Contact Fees.

```
| \ / |
|  |ONSTER  o-----o
|  |_ |      |                      Guild Points      |
|  |UNTER  |                      (GDPTS)            |
FREEDOM  o-----o
```

Unlike in Monster Hunter for the PS2 Guild Points don't improve your Hunter Rank. That's because HRP standed for "Hunter Rank" Points, and GP stands for "Guild" Points. Obviously, Hunter Rank Points improve your Hunter Rank, and Guild Points improve your Guild Card, get it?

In the Status Menu next to your Total GP it will say "(Next:000000)". Depending on the Amount of Guild Points you've collected you will unlock new Titles for your Guild Card. You get Guild Points by completing any quest. Here is a list of the titles you can gain by your total GP:

```
o-----o-----o-----o
| Collect: |      10 Guild Points | Vagrant      |
|-----+-----+-----+-----|
| Collect: |     400 Guild Points | Stranger     |

There is only ONE way and only ONE place you can save your game. And that is in your house. So if you're planning to save your game head to your house. Enter your house and walk towards the bed. You should see an option at the top left of your LCD Screen that says "[]: Save Game Data". SO press [] to have your character crawl into bed. The game will ask "Would you like to save?". Say Yes, obviously, to have the game saved tp the Memory Stick DUO. Next you'll see an option that says "Save completed. Press the X button". Press X and it will ask if you want to exit. Press "No" if you're planning to keep playing. Press "Yes" to Exit to the Main Screen.

o----- Controls -----o Here is were your journey as a monster hunter will
| X: Enter      O: Cancel | begin, Yay! Okay, first you will need to do some
| @ Analog Stick: Rotate | serious thinking about your name because you will
o-----o not be able to change it once you have created the
                               character. Try to come up with something like; a
nickname, gamename or just something that is sweet to call yourself. Next is
where you decide whether or not you want to be a male or female character. I
would prefer if you guys stuck with your own gender, but it's totally up to
you. Next you'll need to cycle through 24 faces to find the one you like the
most. This can get confusing do to the fact that they all look alike, anyway.
Likewise for the faces, next you will need to cycle through 13 hairstyles
until you have found exactly what it is your into. Some of the hairstyles
look really dumb on certain faces, so have fun with this one. Now you'll have
to decide whether or not you want green hair, red hair or blue hair, lol.
If you don't want to deal with making a custom hair color they're 16 pre-set
colors on the bottom of the color bar. Next is the most annoying part of the
character creation, the choosing of the grunts. You will have to listen to
15 different "voices" which vary from high-pitched tones to low ones. Once
you've compiled a cool character to call your own, highlight Confirm and
select. To make sure you are sure it will give the ever so often "Are you
sure" screen. Once you select yes again it willask if your a beginner, then
if you want to save the character. Welcome to the World Of Monster Hunter!

| No           | Time Over          |                |
|-----o-----o-----|

```

| Your first quest ever, you must be pretty excited right? Hehee...not really |
| Once you've selected your first urgent quest from The Elder a green avater, |
| shaped like a piece of paper, appears above your head. You'll need to |
| either head to the north of Kokoto village near the big tree or the south |
| of Kokoto village under the big sign to depart. You will begin at your base |

| - No | - Time Over |
|-----o-----o-----|
| Now, is this quest you have the descission of either going through the |
| quest and collect the items needed to complete this quest or you can but |
| them from the Kokoto Saleslady. If you do decide to pay go to the center of |
| the kokoto village and talk to the saleslady next to the blue tarp. A herbs |
| will cost 20z, and a spiderweb will cost 60z with a total of 100z. With the |
| items in your inventory join the quest then deliver, easy. For those who |
| are new to Monster Hunter Freedom I suggest that you just go out, save your |
| money and complete this. Now if you decide to complete this quest with more |
| work and more benefits, do the following; Head, from the base-camp, to area |
| 2. Search the plant at the base of the tree, at the beggining of area 2. |
| Climb up the vine and head to area 6. Continue to climb the vines until you |
| reach the top of the cliff. You should notice a spiderweb in a dark corner |
| atop the cliff. Search the area for 1 spiderweb, then head back to base |
| camp and deliver to complete. |
|-----o-----o-----|

o-----Basics: Combining Items-----o
| Now, in this basic quest you'll be using the item combination system for |
| the first time. The first item to be made in this game, and the first item |
| on the combination list, is the potion. To make a potion you'll need to |
| have both a herb and a blue mushroom. Since you can only buy herbs in the |
| village, you'll have to venture out and find a blue mushroom. Now a blue |
| mushroom is not at all a rare item. They can be found in almost any quest. |
| In this quest the best place to find blue mushrooms is area 3. So, head to |
| area 3 from the base camp. There is a couple of rocks with mushrooms |
| growing on it. Search that area to find some blue mushrooms and head back |
| to camp. Now, before you can deliver these items you'll have to use the |
| combination system for the first time. Open the Start Menu and scroll to |
| the combine option. Highlight the blue mushroom and select it, then |
| highlight the herb and select that too, then combine. Once you have two |
| potions, deliver. |
|-----o-----o-----|

o-----Basics: Fishing-----o
| This quest is going to be the most testing of your patience. You'll need to |
| fish and catch at least 1 sushifish. Don't woory about bringing materials, |
| they'll be provided for you. Once you begin, collect the Map, Rations, and |
| the worm bait. If you really want you can take the potion and whetstones |
| too. Head to area 11 and be prepared for a new kind of mosnter. When you |
| enter area 11 you'll notice, right off the bat, that you've been nocked |
| back into area 10. I know what your thinking, "WTF!". You've just been |
| knocked on your arse by a bullfango. The bullfango will be one of many |
| monsters that will be doing this to you throughout your hunter life. Attack |
| the fango util it falls and you'll finally be ready to fish. Select the |
| worms in your item window and go to the small pond to the right. Press [] |
| and waight for a fish to nibble at the bait. As soon as you see the bait |
| tugged under the water press X to catch a fish. You'll most likely not |
| catch a Sushifish first off so keep trying untill you do. When you've |
| finally caught that fish head back to camp and deliver it. |
|-----o-----o-----|

o-----Your First Monster Hunt-----o
| All right, finally a quest that doesn't require you to collect anything to |
| complete it. Now, in this quest you'll have to kill a group of velociprey |
| that are attacking a group children, or so the notice says. There are no |
| children in this quest nor are there in any quest so don't worry about |
| that. What you'll need to worry about, for you first-timers, are the 3 |
| velociprey. Velociprey are these blue veloci-raptors that will jump and |

| scratch at you. So, as long as you are looking out for own behind, you'll |
| have no trouble killing three velociprey. The quest starts off in the |
| forest & hills. By now you should be fairly familiar with this map. Head to |
| area 8 and you should see a cutscene. Once it's over now you'll heve to |
| kill some raptors. They'll go down quick and when they do you win, which is |
| the beauty of a hunting quest. |

o-----Mushroom Picking-----o

| In this quest you'll need to find 7 special mushrooms in the forest and |
| hills, which is not that many so this should be easy. I suggest you head |
| towards 8 first and then go from there to 10 then to 9. You'll see the |
| mushrooms are growing on a small hill, the same hill that you once picked |
| blue mushrooms from. Aftering picking a few mushrooms head to area 10 and |
| search the corner next to a tree to find the rest of the needed shrooms. |
| Now, if you have 7 special mushrooms head back to camp and deliver. |
| If capcom has screwed you over, head to area 9 and search the northern area |
| with a mosswine sniffing around. You should have enough mushrooms now to |
| complete this mission. Do so. |

o-----Present for the Armorer-----o

| Of all the Village Elder LV* quests this is my personal favorite. All you |
| have to do in this quests is kill kelbi, no seriously. If you don't know |
| what a kelbi is then read the moster faq...egh i'll tell ya anyway. A kelbi |
| is a small, puny, harmless monster that just hangs out in certain quests. |
| Unless your Special Ed, you shouldn't have a hard time killing these |
| things. Actually you can't just kill kelbi to complete this quest. You will |
| have to kill them then carve them until you have 5 kelbi horns. You really |
| don't need my help with this quest. Good luck, you won't need it. |

o-----Raid the Wyvern's Nest-----o

| Now, this will be the first actual challenge for you. This will be your |
| first egg quest. An egg quest is basically this; You go to the monster's |
| nest, steal an egg, run it back to base and deliver it. Easier said than |
| done. To make this easier for you, first head to area 3, where you'll see |
| your first wyvern the Rathalos. At your level you'll get hammered by this |
| monster, so avoud him like the plague. Instead of attacking it head to area |
| 5, which is where the wyvern lives. Note; A known secret about egg quests |
| is that if you pick an egg then either deliver or drop it you'll |
| be able to clear certain areas of monsters such as Velociprey and |
| Bullfango. In area 5 you will see some velociprey, but just ignore them for |
| now. There is a ledge where the unhatched Rathalos' lay. Pick up an egg and |
| drop it. Run outside of the nest then go back in. Now the velociprey can be |
| cleared from the nest, so do so. From the nest head to area 2 and clear the |
| prey from there. Now all you'll have to watch out for is the wyvern. Head |
| back to the nest,pick up an egg, and carry it to area 4. Now in area 4 |
| there is a very pesky vespoid that will knock the egg right out of your |
| hands. Avoid it with your life and head to area 3. Ow, by the way, if you |
| fall from the top of the ledge to the base of the area the egg will break. |
| There is a half ledge to the left once you enter area 4 which won't make |
| the egg brake. From area 3 go staight to area 2 while keeping an eye out |
| for that Rathalos. Once in area 2 if Rathalos is not grazing you'll have a |
| straight shot towards the base camp. If not...Run! WAIT, Before you think |
| it's over with you'll still need to deliver the egg. While in the camp walk |
| up to the RED BOX. Get Right next to it FACING THE BOX and PRESS CIRCLE. |
| Sorry for the caps, but if you drop your egg at the base camp, you should |
| be pissed. Just want you to know this. |

```

FREEDOM   o-----o

```

- The Great Jungle Kut-Ku -

Now, you finally get to kill a wyvern, so be happy. This is the first step in becoming a real monster hunter. In this quest you'll be hunting a Yian Kut-Ku. The Kut-Ku is a Yian creature that will snap his beak at you and shoot fireballs from its mouth. Although he sounds tough, he is quite a wimp. For anyone whose ever killed a wyvern this quest will put you to sleep. If you are new to the monster hunter world this will not be so easy. The best strategy for killing a kut-ku, in my opinion, is to attack its wings. The reason being, the wings are very weak and will make the Kut stagger often. Another, more important reason, is that the wings are soft and don't require much sharpness to pierce. Also, it is important to BRING SOME EXTRA WETSTONES. After about 10 minutes of stabs & jabs he'll go down. Congradulations, you just killed your first wyvern, Yay!

- Slay the Velociprey! -

This quest is simple enough. You'll need to kill 10 White Velociprey, easy. Just head to area 2 and kill the white velociprey that inhabit the area. Once you've killed a White Velociprey a new one will spawn after you've either carved it or let the body decompose. By the way, there is a Gypceros in the area so keep an eye out. If you've never seen a gypceros, it starts in area 9.

- Liver of Legend! -

Here we go now, in this quest you'll have to collect 3 Piscine Livers. Do do this you'll have to kill the cephalos that inhabit the desert. Now, since this is probably going to be your first time killing one i'll let you in on a good way to kill one. Equip a hammer and ground pound the area that they swim by. After a pound or two they will come flying out of the sand. Another, more effective way is to just throw sonic bombs at them while their under the sand. It has a 100% rate of flushing them out. By the way, this quest takes place in the desert as apposed to the forest & hills, if you didn't notice.

- The Formidable Velocidrome! -

In this quests you'll be required to kill the leader of a velociprey pack, the alpha-male if you will. Now if you think that this so called alpha prey will be a pushover like the rest of the em, think again my friend. The Velocidrom is stronger and takes 3 times tougher than the average velociprey. Now, don't get discouraged or start to think this is going to be difficult. The Formidable Velocidrome is not that formidable if you ask me. Just Keep attacking him until he gets weak. When this happens he will run away and try to replenesh health. Keep following him and slashing away and he will fall in no time.

- The Furball Arena -

Now, to complete this quest you must kill 25 Felyne in an arena filled with melyn timers. To do this just pick out the white cats and kill them, only. If you really need to kill a melyn timer, please do so. Also I recommend that you empty your inventory or keep plenty of felvine, so you won't get jacked by those stupid melyn thieves.

- Slay the Great Kut-Ku -

Now, here is another quest where you'll be required to kill a Yain Kut-Ku. But unlike "The Great Jungle Kut-Ku", this Kut-Ku is a color variation. This is a Blue Yian Kut-Ku, which is tougher than the original pink Kut. You'll start off at base camp, as useall. Grab your supplies as fast as you can and leave the base camp. From area 1, climb onto the ledge and head to area 8. Run, from area 8, to area 9 which is where the Yian Kut-Ku is resting. Quickly start attacking him, the reason being is because once he leaves area 9 he will be harder to track. Use the same technique on this Kut-Ku, as you would on any other. Attack his wings nonstop, avoid his head shake and don't forget whetstones!

- Trouble in the Swamp -

Ever been knocked to the ground by a bullfango? Don't you just hate them? If you have a beef with a bullfango hear is where to take that anger out. You'll Be required to kill 10 Bullfango to complete this quest. After spawning at the base camp grab your supplies and leave the area. First head to area 8 to find 3 Bullfango. If your having trouble killing one in this area stay at the entrance between 1 + 8. Walk up to the mushrooms and wait. A Bullfango will eventually run after you. Lead it toward the entrance. Now you can kill it without worrying about the other bulls knocking you over. Use this technique to kill 10 of these things.

- Attack of the Giant Bugs! -

This quiest is too easy for me to have to explain, at least not yet. Just bring any weapon/armor combination that you want and kill 30 vespoid. It is as easy as that. If you are really having trouble, please, stop playing this game.

o-----Crystal Hunting!-----o
| This quest is similar to egg hunting quests in that you'll have to carry a |
| piece of rock to the base camp. Unlike egg quests you'll have to mine a |
| spot to pick one up. The sootstone can be found in area 11. Mine the area |
| and head outside. Since there is a gendrome in area 5, head to area 6. Run |
| past the vespoid and head to area 3. In area 3 keep moving back n forth to |
| avoid the velociprey. Once your in area 2 your home free. Press Circle at |
| the red box and you've won. |

FREEDOM o-----o

Now i'm pretty sure your wondering what is up with the title, and why is the little aviator white insted of red? I'll tell you why. This a different quest type. Can you guess which? Obviously in this quest you'll be required to catch a wyvern rather than to kill one. "How do you catch a wyvern?" you say, well i'll tell ya. To catch a wyvern you'll have to attack it until it is WEAK not DEAD. Wyverns have there own signs that show that they are weak. The Yian Kut-Ku, when weak, will have his ears down. Once you see that STOP attacking and head to its nest, if your in the forest & hills. Where they run away varries between what monster they are, and what map your in. Once you see Yian Kut-Ku's ears fall down, he will start to limp and run to his nest. The nest

is area 5 in the forest and hills. Wait for him there and lay a trap down and have him fall into the trap. Once he is in it through the 2 trunks, found in the supply box, at him and he will be officially caught. Congratulations, you've just caught your first wyvern!

FREEDOM  o-----o
```

I'm pretty sure that, by now, you understand the concept of a "drome" monster. The drome of the prey is the alpha-male, so the drome of a piscine must be the alpha-piscine too, right? In this quest you'll to kill a Cephadrome. You've fought cephalos before so you should now the dromes paterns. It buries in the sand as its fin protrudes outward. It will try to run from you as well. If you think your going to have trouble finding one out of the pack of cephalos, please don't. The Cephadrome has black scales, as apposed to is minions who have tan scales. The same rules apply to the drome; Get him out of the sand, attack him until he is weak. Like the Velocidrome, the Cephadrome will run away to replenish health. His hiding spot in this game is area 3.

|  |_  |           Bring Me Eggs!                       |
| |UNTER  |           (00000)                           |
FREEDOM  o-----o
```

This is a hard quest to complete if you haven't the slitest clew how to complete it. You will have to collect 3 herbivorous eggs. What you mean like non-wyvern egg? These eggs come from the apceros, which sounds easy but it's not. This quest is very tedious, if you ask me. The most effective stragedy is to equip armor that gives the backpacking expert skill. Also bring 2 Mega Juices to make this faster. This will make you much faster while carrying eggs / sootstone / quartz. Grab an egg from area 8 and drop it. Re-enter the area and kill the apceros to clear the area. Drink a mega juice and pick up an

egg. Head out of area 8 and prepare to run. In area 7 hug the right wall until you reach area 2. Watch out for the rathian that inhabits the desert. Once in area 2 make a straight run for the base camp while watching out for cephalos & a small pack of genprey. Once in base camp deliver your egg in the red box. Now, quickly run back to area 8. Grab an egg and re-use this technique. After the second egg quickly run back to 8 again. You should still have use of your first mega juice. By the time you get to area 8 for the third time, use the second mega juice. Grab an egg and use the same technique to complete this quest. BTW, This quest is great for getting Commendations.

| \ / |

```
| |ONSTER  o-----o
|  |_|      |                More Coal Please          |
|  |UNTER  |                (00000)                   |
FREEDOM    o-----o
```

This quest is very easy. All you have to do is mine 10 coal. Just make sure that you bring extra Pickaxes and a farcaster. Head to area 4 and mine the 3 spots there. If you don't get your 10 coal there head to area 9 and or 10. When in area 9 or 10 just use that farcaster to get back to base.

| \ / |

```
| |ONSTER  o-----o
|  |_|      |                Slay the Genprey!          |
|  |UNTER  |                (00000)                   |
FREEDOM    o-----o
```

This quest is similar to other pack killing quests. Genprey can be found in areas 3, 5, 6, 9 and 10. There is also a Basarios in area 7 if you want a piece of it. Once you've killed 20 genprey you'll have completed this quest.

| \ / |

```
| |ONSTER  o-----o
|  |_|      |                Slay the Gendrome!          |
|  |UNTER  |                (00000)                   |
FREEDOM    o-----o
```

In this quest you'll have to kill to gendrome. Now i'm pretty sure that you haven't killed a gendrome yet, but here's what you should know. The Gendrome is basically a stronger, tougher Velocidrome that can stun you. This fight won't be as easy as slaying a simple Velocidrome. Rush to area 9 to find the first Gendrome. Avoid the prey and don't let him up. If you keep up damage he should fall fast. Carve what you want and head to area 8. Wait at the end of the area until the 1st drome's disappears. Once the new Drome appears you'll have to kill the second. This is a pretty open & shut quest.

| \ / |

```

|  |UNTER  |                (00000)                   |
FREEDOM    o-----o
```

Now, in this quest you'll get to kill a new type of wyvern. For the first time you'll get to kill a gypceros. A gypceros is a purple wyvern with a goofy

looking tail and a crystal on its head. The best way to kill one is to first break off its crystal then attack either his stomach or tail. The reason to break the crystal first is to keep it from making you dizzy. So, head to area 4, clear the area and wait there. Gypceros will show up and immediately start attacking his head. His blinding attack can be blocked. Once his crystal breaks start attacking his tail/stomach. He should die in no time.

FREEDOM  o-----o
```

This quest is going to be the most difficult egg quest in all of the Village quests. Even if you know what you're doing this still becomes one of the most tiresome quests. To be honest I am no good at this quest, but I'll help you in anyway that I can. Okay, you'll start off in the base camp in the jungle. The eggs are located in a nest in area 6, but there is a pesky Rathian in the way of mission success. You will have to kill the Rathian to get the eggs, so head to area 6 to begin this journey.

Once in area 6, clear the area of Ioprey, then focus your attacks on the Rathian. After a very obnoxious battle against the Rathian, you'll get your chance to get more irritated. Now, you can head in two different directions to get to the base. The long and safe way is to head to area 7, then to area 3, then 1, then the base camp. The other, more ballsy, method is to rush through area 4 past the Bullfango. It is possible to do this, I have done it. If you run in a certain pattern you can avoid each Bullfango and make it out of this hellhole. I am not sure exactly what the method is, but I'll test it soon.

```

FREEDOM  o-----o
```

Now, in this quest you'll have to kill 2 Yian Kut-Ku. You won't have to fight them at the same time though. Once you kill the first one, and its body disappears, the second will spawn. Once you've killed both of the Yian Kut-Ku your supplies will be delivered to the supply box. There is something you should know about this quest though. Since you have to kill two Kut-Ku before you get your supplies you won't be able to pick up a map from the box until you do. Just so you know. So, head to area 9 to find the first Yian Kut-Ku. After killing the first Kut-Ku carve his body and head to area 10. By the time you get there he will show up. Now after you kill this Kut-Ku you can either kill some more or grab the Paw Pass Ticket and deliver it.

| \ / |

```

FREEDOM  o-----o
```

Now, in this quest you'll have to kill the toughest form of any prey. These are the alpha Ioprey, also known as the Iodrome. I'm pretty sure that you get the picture. Okay, the first Iodrome starts in area 3, with a Khezu, and will migrate to area 7. Now, in area 7 you can either engage the Drome, or head to area 8 and engage the Khezu. I suggest you forget the Khezu and focus on the drome in area 7. Once you've killed the drome head to area 3 and wait for the

second Iodrome to respawn. Kill the second drome in area 3 then wait for the last drome to spawn. Kill the last iodrome, with extreme predudice, and you will have completed this quests, obviously.

FREEDOM  o-----o
```

Remember that red wyvern that you had to run from in "Raid the Wyvern's Nest"? Well, in this quest you'll be required to kill that beast. Before you decide that you've kill plenty of these wyvern and start thinking that they will be easy, please think again. The Rathalos is the most tedious wyvern in the game. He loves to wuss out and fly away to a different area to avoid you. He is much faster than any of the wyverns you've fought before.

You should notice that Rathalos likes to fly away, which makes this quest tedious. So, before going on this quest bring some paintballs to track his position. Okay, the Rathalos will start in area 3, so grab your supplies and start running. When you get to area 3 run to the center of the map and start attacking the Rathalos. I suggest bringing some extra potions for this quest. Before you start attacking the Rathalos's body, try and cut its tail. You can get an extra carve form its tail if you cut it off. If the Rathalos runs away just keep following him and attacking him untill the beast has fallen.

FREEDOM  o-----o
```

In this quest you'll be killing an Azure Rathalos. In later quests the Azure Rathalos is quite the foe. He has some very tough scales on his hide, which makes fighting one very difficult without the ESP skill. Fortunately, in this quest the Azure Rathalos is a pushover. He has 1/3rd his regular health so taking him down is not difficult what so ever. BTW, BRING PSCYCHOSERUM!

Like all village quests, you'll get to begin in the base camp. Unlike, most Rathalos quests, you'll be fighting one in the Volcanic Zone. The Azure Rathalos will begin in area 7 then will, most likely, migrate to area 3. Whether or not he decides to fly to area 3, head there anyway. Once you get to area 3 kill each Bullfango then carve their bodies to make 3 more bulls spawn. Kill the three bullfango then look around the area to see if the Rathalos is there. If he's not that means it's in area 7,6 or 2. Use the pscychoserum to find him then go after him. If he runs from either 6 or 2 head back to area 3 and wait for him.

Once you encounter the Azure Rathalos you'll want to paint him so you can track him. Before you throw the paintball and scare him off, get in his face and make your pressiance known. Don't worry about his health bar because he has almost no health. Watch out when he flies, because he will use two deadly attacks. He can either blast you with fireballs, or claw at you causing high damage, poison and dizzyness. To avoid both attacks run to his shadow. Give him a few good slashes and he will fall.

FREEDOM    o-----o

```

You'll start off in base camp in the desert. Grab your supplies then head out to area 1. From area 1 run to area 4 to start this fight. Get in Rathian's face and make your presence known, this way she won't fly away. Paint the Rathian just in case she decides to fly away. Then, clear the area of Apceros to make this fight much easier. Now you're ready to do battle with this beast. Start by attacking the tail to cut it off. This makes close-ranged attacks much less dangerous. It also makes avoiding the tail swipe much easier as well. When Rathian looks like she will charge, you'll want to move. The best time to attack the Rath is to wait for her to shoot fireballs then attack her legs or chest. If she flies away she will most likely fly to area 3. So, if you see her start to fly run to area 3 and clear the area of Apceros, if you can. Keep up this strategy to bring her down in no time.

To unlock this quest you'll have to complete all 1 Star - 5 Star quests. After doing this you should see an urgent quest option. Unlike most urgent quests, this one will always be available in the urgent menu. Select it to begin. You'll begin in a desert base camp. Monoblos is chilling in area 10. Now, you don't have to worry about the blos running from that area necause there's a cut-scene waiting. If this is your first Monoblos head to area 4 and clear the area of genprey. Then head to area 10 for the cut-scene. Once it's over. Run up to the Monoblos to get his attention. Once done, run to the ledge and let him ram at you. His head should get stuck giving you the opportunity to get some quick jabs to the head. After a few good hits his horn will break. Don't worry about the tail, instead go for the legs. When he falls knock him on the ground and he will eventually fall.

```

```

This quest is just like the one in the village quests. The only difference is that you can pick up lots more supplies. So This should be no supprises as long as you know what your doing. You'll start off in base camp inthe desert. Grab your supplies then head out to area 1. From area 1 run to area 4 to start this fight. Get in Rathian's face and make your presoune known, this way she won't fly away. Paint the Rathian just in case she decides to fly away. Then, clear the area of Apceros to make this fight much easier. Now your ready to do battle with this beast. Start by attacking the tail to cut it off. This makes close-ranged attacks much less dangerous. It also makes avoiding the tail swipe much easier as well. When Rathian looks like she will charge, you'll wanna move. The best time to attack the Rath is to wait for her to shoot fireballs then attack her legs or chest. If she flies away she will most likely fly to area 3. So, if you see her start to fly run to area 3 and clear the area of Apceros, if you can. Keep up this strategy to bring her down in no time.

FREEDOM o-----o

In this quest you'll have to fight and kill a Pink Rathian In this G-Ranked quest. The strategy is still the same, just a tougher wyvern to have to fight. You may start off in base camp in the desert. If not use a farsacter to get to the base camp. Grab your supplies then head out to area 1. From area 1 run to area 4 to start this fight. Get in Pink Rathian's face and make your presoune known, this way she won't fly away. Paint the Pink Rathian just in case she decides to fly away. Then, clear the area of Apceros to make this fight much easier. Now your ready to do battle with this beast. Start by attacking the tail to cut it off. This makes close-ranged attacks much less dangerous. It also makes avoiding the tail swipe much easier as well. When Pink Rathian looks like she will charge, you'll wanna move. The best time to attack the Rath is to wait for her to shoot fireballs then attack her legs or chest. If she flies away she will most likely fly to area 3. So, if you see her start to fly run to area 3 and clear the area of Apceros, if you can. Keep up this strategy to bring her down in no time.

|-----o-----o-----|

```

```

| You've probably figured out, by now, that this will be your final required |
| fight against the Lao-Shan Lung. What you don't know is that this is no    |
| regular Lao-Shan. This Lao is stronger, tougher and blue, that's right    |
| blue. Or as most experts will say, "the Azure Lao-Shan Lung". You will    |
| notice this as soon as the cutscene "DragonofJaggedRocks" begins. What does |
| this mean to you? Not much if you don't have any trouble killing a        |
| Gathering Hall LV***** Lao. This wyvern is a bit stronger than the the 5  |
| star Lao-Shan, but has the same defense. Which means that the same        |
| technique applies for killing one solo. Equip the Eternal Schism, with 5   |
| Mega Juices, and do non-stop fury slices on his belly. This technique works |
| just as effectivly as before. As long as you've come properly equipped    |

Only HR 5 may join.		Time Over			

-----o-----o-----

This quest is by far the most interestingly difficult quest in any Monster Hunter Game to date. Let me reiterate, this quest may be too much for the average gamer. By yourself, this is the most difficult to complete. Why? Well, there are two reasons, first you'll be fighting two, not one but TWO, Kirin. Not just any kirin, g-ranked kirin. Which, i'm sorry to say, are much more difficult. I highly suggest not attempting this by yourself. I've never been able to solo this quest, so don't think as a beginner, if you are one, that you can. Since i've never been able to solo this quest I don't feel elligable to guide you on how to complete it.

Back in Monster Hunter for the PlayStation 2 this was what's up. You get to sit at a table, drink until you drop, then leave. Sounds just like the real thing, lol. If you drink too fast or too much you will walk with a wobble, which is sweet. To do this go up to a table, sit down and press circle.

| \ / |

```

| |ONSTER  o-----o
|  |_  |           Gestures           |
| |UNTER  |           (00000)         |
FREEDOM   o-----o
  
```

* Gestures can only be done in the ONLINE Gathering Hall
(PRESS O at Gathering Hall) & ONLINE Gathering Hall Quests.

Bow -

To be the ultimate gentlemen give a bow to any female co-hunters. When you press "Bow" you will do a nice bow.

Greet -

Once you meet up with your team give them a quick wave of the hand to say hey. After you press "Greet" you'll raise your left hand and give a salute.

Wave -

This is the wackiest gesture in the game. By pressing "Wave" you'll do this obnoxious arm shaking movement.

Call -

Nod Head -

Shake Hd -

Cheer -

Despair -

Fustrtd -

Praise -

Footwork -

Provoke -

| UNTER | (ITMST) |
FREEDOM |

Here is where you can find any item that you're looking for. They are ALL in alphabetical order, so as long as you know what you're looking for you won't have any trouble. Some of these items won't be indentifiable by most novices, so please don't email asking me "What's a Tiny Beak?", or anything like that.

NOTES:

- Note 1: This List may not have all items listed, so if I am missing something please email me at markymarkdt73@yahoo.com and tell me, thanks!!
- Note 2: For more information on ancient Stones view my Ancient Stone FAQs.
- Note 3: For more information on rubies view my Ruby FAQs.

(Note 1)

ITEM	DESCRIPTION	LOCATION
Alchemy Guide	With this book, you too can use alchemy. What will you create?	Complete All Elder quests then talk to the Traveling Salesman.
Alluring Hide	Khezu hide polished to a luster. Just looking at it makes you feel strange.	
Ancient Stone (Note 2)		
Antidote	Effectively removes all traces of poison in your system	Either purchase from the Gathering Hall saleslady or combine a Blue Mushroom

		and an Antidote Herb.
Antidote Herb	A plant that has antidotal qualities. May work even if taken by itself.	Purchasing from the Kokoto saleslady is the easiest way to get one.
Azr Rthls Webbng	Webbing of an Azure Rathalos. Very valuable as a workshop material.	Carve wings of any Azure Rathalos. Mau be found in rewards of an Azure Rathalos hunting quest. Break claws on wings to improve chance of carving webbings.
Azre Rthlos Scl+	Scale of an Azure Rathalos. Its strength is higher than its beauty.	Found by carving an Azure Rathalos+ or in the rewards of an Azure Rathalos hunting quest.
Azre Rthls Plate	Plate from the tail of an Azure Rathalos. More blue than the deepest sea.	Cut the Tail off an Azure Rathalos+, or a G-Ranked Azure Rathalos, then carve it. You may get a Plate.
Azur Rthlos Tail	The severed tail of an Azure Rathalos. Valuable for its many uses.	Can be carved from the tail of any Azure Rathalos Regular, +, and G-Ranked.
Azur Rthlos Wing	Wing shed by an Azure Rathalos. Used to make both weapons and armor.	
Azure LaoS Claw		
Azure LaoS Horn		
Azure LaoS Plate		
Azure LaoS Scale		
Azure LaoS Shell		
Azure LaoS Spine		
Azure Rthlos Clw		
Azure Rthlos Cpc		
Azure Rthlos Rby (Note 3)	A rare gem from inside a wyvern. The interior is a	

	battle between blue & red.

ONSTER	o-----				o-----
		Alchemy List			
UNTER		(00000)			
FREEDOM	o-----				o-----

Unlike the regular combinations seen above, Alchemy has requirements to be able to do. There are two ways to be able to do alchemy. The first, and most traditional method, is to equip certain armor and receive the skill. The other way, which is more difficult and has more benefits, is to acquire the Alchemy Guide. To acquire the Alchemy Guide you'll need to complete every Village Quest and then talk to the traveling salesman. After he talks he'll

give you the Alchemy Guide. Then all you'll need to do is have the Alchemy Guide in your inventory to use alchemy.

Kokoto Saleslady - She is located in the Center of the village under the blue tarp. She sell pretty basic items so if you need anything basic this is where to go to.

Traveling Salesman - This guy travels from the Training School to the Random Backpacker, to the Kokoto Saleslady, past the Jamacian Kokoto Farm Renovator to the Kokoto Farm. He will repeat this process non-stop. If your having trouble finding the Jamacian just head to the Training School entrance and wait there. He'll eventually come around the corner.

Gathering Hall Saleslady - This lady operates the only shop in the Gathering Hall. Enter the Guild Hall and run to the far right corner in between the Quest Board and the Quest Entrance.

Random Backpacker - This is an unusual shop keeper. If you don't understand what I mean by "Random" I'll reiterate. This backpacker will have random lists of items. Depending on your luck you may get the Rare List.

o-----About the Forest and Hills-----o

```
| [Minegarde Geography -1-] |
| |
| I am the top geographer in Minegarde. The main |
| part of my job is to compare all of the areas |
| of the world and record the results of my |
| research. |
| |
| First, allow me to tell you about the "Forest |
| and Hills". It is a warm area, home to |
| herbivores like Aptonoth and Mosswine. It is |
| an excellent piece to become used to life as a |
| hunter. |
| |
| This area also has an abundance of plant |
| vegetation. For instance, Herbs and Blue |
| Mushrooms. Not to mention items important to |
| gunners like Paintberry., Huskberry, and |
| Needleberry. All of these can be obtained |
| easily in this area. |
| |
| You can also search for Honey in the Forest |
| and Hills. Honey is an incredibly beneficial |
| item for hunters. It can be obtained from |
| honeycombs found in the field. |
```

```

|
| While there are many changes in elevations, a
| hunter can press the O button near low
| cliffs of vine covered walls to climb up.
|
| You should beware of small blue monsters
| called Velociprey. They travel in packs and
| will try and surround novice hunters, so
| caution is a must.
|
| This area is home to the absolutely dreadful
| Rathalos. Due to the warm climate, many
| different wyverns have been spotted here,
| especially among the caves in the mountains.
| One should definitely take care when traveling
| these areas.

FREEDOM o-----o

```

In Monster Hunter Freedom there are secret areas to explore. Unfortunatley these areas cannot be entered the traditional way. All other areas can be reached by simply walking out of the level. Unbeknownce to you, these areas are always in any of the maps you're in. Since these areas can't be reached through the conventional way you'll have to start each quest in the secret area. I know what you're thinking, "Really? You can do that? How?". Well, I'll tell you...

Now, you should notice that when you start regular quests (All Village quests & Gathering Hall Lv 1-3 quests) you have lots of supplies in the Blue Box. You should also notice that when you start + quests (Gathering Hall Lv 4-5 quests). If you've played in a few G-Ranked quests (Gathering Hall Lv 6-8 quests) you should notice that you'll not be given supplies 95% of the time. You should also notice that you won't always start the quest in the base camp. The game chooses the area, randomly, where you will begin each quest in g-ranked quests. This is the key to reaching secret areas. There is a 3% chance the game will allow you to start off in the secret areas.

Now, that you've gotten to the secret areas here's what you can do;

1. Firstly, look at the map! You'll be off the map! Sweeeet!!!
2. If you brought pickaxes, mine the areas. You might get an Ancient Stone.
3. If you brought bugnets, net the areas. Joiner Grasshppr's can be found.
4. Swamp - Search the junk pile. You may find a Lost Umbrella.

Regular Quests = Village Lv 1-6, Gathering Hall Lv 1-3

+ (Plus) Quests = Gathering Hall Lv 4-5

G-Ranked Quests = Gathering Hall Lv 6-8

Regular Quests Supplies = [Village]: Map, x2 Mini Whetstone, x2 Ration,
x3 First-aid Med, Normal S Lv1, Binoculars.
[Gathering Hall]: x4 Map, x4 Mini Whetstone,
x12 First-aid Med, x8 Rations, x2 Paintball,
x10 Huskberry, x2 Sm Barrel-Bomb, x1 Large Barrel,
x10 Normal S Lv2, x5 Stun S Lv1, x5 Recov S Lv1.

+ (Plus) Quests Supplies = [Gathering Hall]: x4 Map, x12 First-aid Med,
x10 Pellet S Lv1, x5 Recov S Lv1.

G-Ranked Quests Supplies = [Gathering Hall]: -----

(Note: In most quests won't only be given these items. I only posted the items you'll always be given in any quest, besides the Gathering Quests.)

```

FREEDOM o-----o

```

Yes, it is possible to pause the game in Monster Hunter Freedom. It is very simple, all you have to do is Put the game into sleep mode. Be careful though, if you turn the power off you'll loose all un-saved progress.

Power Off Mode: Press and hold the Power button.

| FAQs (FRAQN) |
O=====O

These are the most asked emailing questions I've got:

- Q - "What are the Secret areas?"
A - These areas are a bonus area, like a treasure area, that you may randomly respawn in during Blue Bartendor in the Gathering Hall.

Q - "I'm able to get to Lvl 4 quests, so I should be able to get to secret areas right?"

A - Ugh, NO! you can't get to secret areas unless you are HR3, HR4 and HR5.

Gonna add more frequently asked questions sometime later.

O=====O

I'd like to thank God and Jesus for without them i'd be nothing. I'd like to thank CAPCOM for making this amazingly deep game. I'd also like to give a special thanks to Alex, who is my inspiration for making this game walkthrough. I'd like to thank all that helped out on this guide, or any guide of mine.
