I receive a lot of spam, roughly 500 messages a day of spam. A lot of it goes into my main mailbox, so please can you name the e-mail appropriately. Please include the game, guide type so I know what game and guide it is, or otherwise I might ignore it as spam. I will respond within a week.

Prologue

[PRLG1]

I was inspired to write a few guides for ToE because I really loved the game...well it was more like because I had exams so I couldn't watch my anime and had to sit on my table, so I could always write a guide and play with my PSP under my table instead of studying.... :P

Gladly I finished the main meat of the guide before '07, which means this guide won't be one of those guides I leave unfinished. All I need to do now is add the extras...

I plan to make this guide into a FULL monster encyclopedia. With anything regarding the monsters in it. (e.g. Strategies, Statistics, Locations, Moves, etc...).

NOTE: I've been compiling this information slowly over 2-3 months before I made the first version of this guide. So some information may be a bit incorrect, as I have yet to check it through.

Credits

Well, I want to thank mainly CJayC for looking after GameFAQs and for uploading this guide and for the great thing that GameFAQs is right now. GameFAQs is the only thing keeping people making and sending in game guides for free use.

- CJayC - He owns GameFAQs (Well, he used to...)
- UltraEdit-32 - The best ever Text editor!
- Google Docs - I used it to update the guide. Since I am moving a lot around the world.

If you're not on this list, I must have forgotten to add you. It is most

unlikely that this is the case, but it does happen. Then please contact me.
Well check out the Contact Me section for that.
