| 3. INTRODUCTION [C3000] |

```
*=====*
```

First of all, thanks for reading my guide. As you read this guide, be aware that the information you will find here is NOT completely spoiler free.

I wrote this guide to inform the players of the items that can be stolen or dropped by all the enemies in Arc the Lad 2. Stealing and obtain dropped items can be frustrating at times. There's nothing worse than fighting an enemy multiple times only to find out that their dropped item is a useless Herb, so this guide will at least tell you which items the enemies have, thus you can determine for yourself whether or not it's worth it to actually attempt the steal, or to spend time fighting an enemy for their dropped item.

Also have in mind that this guide has plenty of spoilers.

Again,

```
*=====*
```

\*All the enemies in this section will be listed in alphabetical order

\*I will NOT be listing enemy levels because this is not an enemy faq :). Levels DO determine the difficulty when stealing but doesn't affect WHICH items the enemy has for steals or drops. Plus the same enemy can appear in various locations at different levels, thus adding levels would cause too much unnecessary repetition for the guides purpose.

\*I will not be listing arenas as locations to fight enemies because when fighting enemies in the arena they cannot drop any items, just money, and you really wouldn't go there for the steals either.

\*If the only repeatable location is the forbidden ruins, please understand that it isn't very practical to continually go and fight those particular enemies. However, unlike SEALED ruins, in the forbidden ruin you CAN continually fight enemies on any given floor simply by re-entering the floors.

Enemies ALWAYS respawn immediately upon entering each floor in the forbidden ruins.

\*Enemies in Romalia Sky Castle cannot drop items

\*House on East Aldia - this place changes names from Gallarno's House, to Dex's House, to Vacant House. So to keep things simple, I just listed them all as Vacant House - East Aldia.

\*Items that I list with a Number Sign [#] will be considered "limited time only" items. For example, certain wanted monster steals/drops, but also items that non-repeatable enemies have. I will also include steal/drop items that can be purchased in the Silver Noah shop since these shop items can only be used in the final dungeon.

=====  
OUTLINE  
=====

>>Name: THE NAME OF THE ENEMY

>>Rarity: HERE I WILL SIMPLY MENTION WHETHER THE ENEMY IS:

-> BOSS - Self explanatory

-> UNIQUE STORY MONSTER/(CHARACTER) - This enemy is not a boss but is required to continue the story.

-> WANTED MONSTER - Posted in the guild

-> UNIQUE JOB MONSTER - A monster fought in a job only

-> RARE ENEMY - An enemy that is NOT repeatable

-> \*REPEATABLE ENEMY - Enemies located in locations that you can revisit. Locations with \* are the places you can fight the enemy over and over.

-> \*REPEATABLE -> RARE - Enemies that are repeatable for a short period of time, then become rare. Certain events in the game cause enemies in certain locations to change (Ex king dragons in heap cave in)

-> DNA - DOES NOT APPEAR - These enemies are never fought in the game.

>>Steal: THE ITEM THAT CAN BE STOLEN FROM THE ENEMY.

-> NONE - means the enemy has nothing to Steal

-> NA - means that Shu is NOT in the party at the time, and thus we were never able to attempt a steal from the enemy

-> NA -> Shell can cause him/her to drop a >NAME OF ITEM< - means that the steal item is >NAME OF ITEM< and the only way to obtain it is by killing the enemy while equipped with the Shell accessory and hope he drops it.

>>Drop: THE ITEM THE ENEMY DROPS

-> NONE or NA - means the enemy has nothing to drop

>>Location: ALL THE POSSIBLE LOCATIONS IN WHICH THE ENEMY IS FOUGHT THROUGHOUT THE GAME. You will also see a description in brackets, Ex Indigos Sewer (Job), this means that the enemies appear in indigos sewers during a Job but is not the regular enemy fought down there.

This section will cover all the Rare Drops in the game. In my walkthrough I refer to them as Battle Specific Drops, this is because ANY enemy within these battles can drop the rare item.

You can also obtain multiple rare items per battle, in other words, the maximum number of rare items that are possible from any 1 battle, is equal to the total number of enemies in those battles MINUS the enemies that drop a regular item.

- whether an enemy drops a regular item or not, is determined at the start of the battle, so if an enemy drops a regular item, he will drop it EVERY time during that fight (this can be tested by using a savestate then killing the enemy, reload the savestate, kill again, etc, he will always drop it. However, rare drops are ALWAYS available to be dropped in battles, so if you are using a savestate, kill the enemy and if he doesn't drop it, reload the state, kill again until he does.

So if you are fighting 5 enemies, even though it is extremely rare, it is possible to acquire 5 rare item drops [MUCH easier if the player is using an emulator and savestates].

\*This section will be listed in Alphabetical order.

\*Most Rare Drop items were provided by Madjak91 and confirmed by myself, FinalFLuver.

=====  
OUTLINE  
=====

Rare Item: THE NAME OF THE RARE ITEM

Battle: WHAT BATTLES THE RARE ITEM CAN BE OBTAINED FROM

- if the battle is a specific battle, then I will indicate it, but at times you will see something like "God Tower", this means that the item is the rare drop for MOST if not ALL battles in the God Tower. Explanations can either be in brackets "GIA TEMPLE (CHURCH + HIDDEN PATH)" or separated with a hyphen "ROMALIA BATTLESHIP - BATTLE JUST BEFORE REACHING THE HANGER".

- All locations will be separated by semi-colons (;)

\*Items listed with a number sign [#] next to them will represent the fact that they are only available for a limited time. For example, BlackRobe in White House Sewers. Once you finish White House, you can no longer access the White House Sewers, and thus can no longer obtain the BlackRobe.

\*Banza Mountain is listed in 2 different ways:

-Banza Mountain -> this is the original banza mountain that you entered for the story portion.

-Banza Mountain New (west) - this is the part of the mountain that opens up after completing the story portion

(1\*) -> Quina Hill changes its Rare Drop from a Dagger+3 to a Kaiser Knuckle after the Story Events at Greyshinne.

(2\*) -> Mother Claire's cave gains another screen in which you will fight against the same enemies but at level 52. This was the only screen that i was able to get the rare drop, but it's possible the rare drop is actually throughout the whole cave.
