I. Updates

Version 1.6 (4-8-01)

Sorry for the wait but just added a few new custom ACs and made dividers for the custom AC section

Version 1.5 (1-27-01)

Just added a new custom AC

Version 1.4 (12-23-00)

Added a custom AC and about 17 new Sub Arena ACs.

Version 1.3 (12-9-00)

Added some custom ACs and also added a few Sub Arena ACs. Fixed some grammar and spelling mistakes and put the web sites that have my permission to use my FAQ.

Version 1.2 (12-7-00)

Finished the Hidden Parts section.

Version 1.1 (12-3-00)

Finished the Arena ACs and started the Hidden Parts section.

Version 1.0

This is the start of my FAQ.

II. Intro

This FAQ is to help Armored Core players to display to the world their own AC designs and the help the new players to get better ACs. I also wanted to help any player that stuck on a Arena AC. This FAQ can only get better if you send me your AC. Take the 5 mins and get to show the world some of your best ACs.

III. My ACs

This section is where I will put all the ACs that I create and are not already on my faq. The max ACs in this section will be 5 so I will only put my best ACs in it.

VI. Hidden Parts

Hidden AC Head

The AC part is in the Destroy Berserk MTs level. In the level you will find a room filled with gray boxes. DO NOT SHOOT OR SWORD THE BOXES!!!! If you destroy the boxes you will destroy the AC head too. When you enter the room turn left and jump over the boxes, to the corner.

Hidden Back Part

The AC part is in the Cavern Invasion level. When you get to the first large room look up and try to fly up the hole. Go down the tunnel and when you get to the T in the tunnel turn left. You will now be in a room with 6 ceiling mounted gun that will shoot you when you enter. You can shoot down the gun or get in and out fast. It's in the left corner.

Hidden FCS

This AC part is in the Assist MTs level. Use your automap and you will see a building with a tunnel going down. Go and blow up the building and down the tunnel. Go through the tunnel until you reach a junction. Take the left path until you come to a fake dead end. Blow up the wall but be careful not to blow up the FCS. Walk into the shrine and up to the altar to get the part. Go back and destroy the last of the enemies.

VII. Future

In the future I will put the ACs you sent me in the custom ACs section and I will put more enemy AC from the Sub-Arena and the special Arena in disc 2. I will also add performance ratings and comments on the ACs.

VIII. Thanks

Thanks for my friend Nick for showing me to the world of Armored Core.

Thanks to my mother for buying me a playstation so that I could play

Armored Core.

Thanks to Fromsoftware and Agetec for creating the Armored Core series.
