Charm FAQ
By AdrenalineSL
Version 1.02: Released April 20, 2002

E-mail me at narnia_M3@hotmail.com

Charm is Chrono Trigger's unique term for "steal". You basically charm your enemies into giving up items for your benefit. The success rate is initially pretty high, but you can boost it even higher by equipping Ayla with an accessory called "Charm Top". When you begin a new game, you will not be able to charm items until after Ayla has joined your party. This ability is only available when Ayla is in your current party.

Certain items can only be obtained by charming them. That's why this is such a valuable skill. Once Ayla is in your party, you can return to old regions you've already visited to charm rare items from the inhabitants there. This list saves you the trouble of wondering what item you will get from charming a certain monster. Your only job now is actually going to that location and charming the item. Good luck.

Also, keep in mind that I only list the ones that actually possess items to charm. The ones that do not yield any items at all will be left out. If I'm missing any charm items or an enemy that has a charm item, please let me know by e-mailing me.

Alphabetical List by Monster

Acid

Charm: Barrier
Location: Factory (2300 AD)

Alien

Charm: Magic Tab
Location: Black Omen
