Items

=====

Items will help you win the race a lot of times, but you have to know the effects of it. Here's how I'm gonna listed.

Item

Price

Description

Effect

Nitro Scoop

Price 500 credits

Description: Start off the line faster than ever! Combined with the Gav-grip, this upgrade will turn any robot into a highly agile racing machine.

Effect: Make you go faster.

Grav-Grip

Price 1000

Description: Grav-grip gives your robot extra traction. Turn coners faster than ever before, dodge other racers and take shortcuts at high speed! Stopping distance a real so greatly reduced.

Effect: Make you turn easier.

Mega Horn

Price 1500

Description: This powerful noisemakers emits a blast so loud that it cause all other robots around you to become momentarily confused. Use this at key moments during the race to pull into the lead. (notes: If you have picked up any other items you'll use them first).

Effect: Use a horn to push opponents robot away.

Zero-G Engine

Price 2000

Description: This is for the robot with a need for speed, stoping distances will also be longer. It's best used in conjunction with Gav-Grip. (note: you need Grav-Grip to use this).

Effect: Make your robot go twice the speed.

Picked up items.

Pick up items are items you pick up in a race.

Speed Boost

Boost your robot speed for a limited time.

Mega Horn

This powerful noisemakers emits a blast so loud that it cause all other robots around you to become momentarily confused. Use this at key moments during the race to pull into the lead.

Shield

Temperarely protect your robot from any hazard.

Missiles

Use your missile to shoot robots in front of you.

Mines

When you drop a mine anything that touch it will be stuck for a while.

Solex

Solex are items you can collect while racing. The more solex you have the faster your robots will go.

There you have it, that's all the items. If you have comments or question feel free to email me.
