C: Introduction  
=====

Welcome all to the TCG Master's Digimon: Digital Card Battle Card Fusion FAQ. I'm making this FAQ because I have yet to see a FAQ (With the exception of Med Jai's) that actually lists what cards you get when you fuse two specific cards together. So it's for this reason I felt the need to make one. As I'm sure you can tell I'm a trading card game fanatic it's rather obvious from my nick. I am mainly into the Yu-Gi-Oh Trading Card Game but as of lately I have been playing the Digimon one due to the fact that I annihilated the Yu-Gi-Oh one a couple million times over. Well enough of this and now onto the introduction of the game...

In this game you'll travel city to city battling not only the opponents in the Battle Cafe but also in the Battle Arena belonging to each city. As you win more and more battles you get new cards which you can use to fuse with other cards to make even stronger cards. The game consists of three seasons to actually beat the full game and during those three seasons you'll battle some old foe's and some new each with different decks and different cards of which some are way strong and some are pathetic. The way to the top is building up your cards and building up the three partner cards which you get throughout the game. Of course during your travels it is a good idea to stop at the Fusion Shop and fuse cards to get ones you don't have. So here is the answer to the question which we all ask when we visit the Fusion Shop... which is what cards to fuse together to get the ones I'm missing?
